

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001**

The Arkansas Department of Correction (ADC) is responsible for overall management of the State Penitentiary, executing the orders of the criminal courts of the State of Arkansas, and providing for treatment, rehabilitation and restoration of adult offenders as useful, law-abiding citizens within the community. The Mission Statement for the ADC is to:

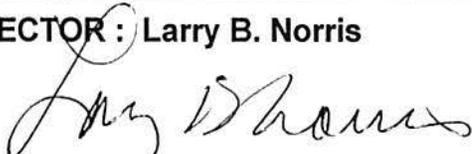

- ◆ *provide for the protection of free society by carrying out the mandates of the courts;*
- ◆ *provide a safe, humane environment for staff and inmates;*
- ◆ *strengthen the work ethic through teaching good habits; and*
- ◆ *provide opportunities for inmates to improve spiritually, mentally and physically.*

Operating appropriations provide for administrative and executive staff, security staffing for all correctional programs, comprehensive health care and correctional programs, general and preventative maintenance of over \$291 million of buildings, grounds, and equipment, extensive farming, industry, and work release programs and ancillary activities such as operation of pen stores. Because the ADC is an extensive operation, a portion of the ADC biennial request is to provide for incremental and inflationary costs for existing facilities and programs. Growth of the prison system is correlated to growth in the inmate population. Growth in the inmate population is contingent on numerous factors beyond the auspices of the ADC. These factors include growth in the crime rate, changes in legislation governing sentencing standards and release-eligibility requirements, sentencing practices of the criminal courts, increases in arrest and disposition rates of felony cases, and parole revocations by the Post Prison Transfer Board. To provide for projected population growth, the ADC biennial budget request also includes the provision for new beds currently under construction as well as new beds that will correspond to a capital projects request.

Change Level requests for the Department are summarized as follows:

◆ Incremental Increases for ongoing programs:

- ◇ Medical Contract inflation factor for existing inmate population. The contract with the existing medical provider includes a 2.89% increase in FY00 and a 2.75% increase in FY01.
- ◇ Private Prison Contract per diem for two units (1,200 beds). The contract with the existing private prison operator provides for a maximum of 3% increase per fiscal year over the current biennium cost per day of \$27.25. The maximum cost per day for FY00 is \$28.07 and \$28.91 in FY01.

--	---	--	-------------------------------------

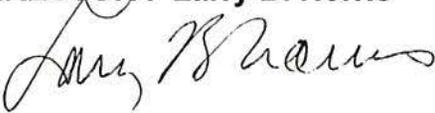

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001**

- ◇ County Jail Reimbursements for projected population growth/backup - ADC projects an average increase of 46 inmates per month during FY99 through FY00. By the end of FY01, current and planned bed/program capacity will total 11,488. Our request is for projected additional amounts that will be necessary if no additional beds are authorized or brought on line before the end of the FY 99-01 biennium.
- ◇ Warehouse stock (food and supplies) - Includes projected costs for inflation and unit expansions.
- ◇ Incentive Pay - Hazardous Duty and Maximum Security - Includes projected costs for unit expansions.
- ◆ Existing Program Expansions
 - ◇ Varner Maximum Security Addition - 312 beds are under construction and scheduled for completion during the FY99-01 biennium. Funding for construction was provided by a federal Violent Offender Incarceration Grant and by a required state match (Act 701 of 1997). The beds are being constructed utilizing inmate labor. The first 156 beds are anticipated to be on line July 1, 1999 and the second 156 by July 1, 2000. A final 156 will not be available until the following biennium.
 - ◇ North Central Isolation - Twenty two (22) two-man cells are currently under construction. Only eight isolation cells were included in the original construction and are insufficient to manage the population. Staffing for the isolation expansion will require an additional security post.
 - ◇ Mississippi County Work Release - A 50 bed expansion at the current site is proposed. The County is relocating to new jail facilities and the ADC will be negotiating to utilize the existing space to maintain and expand work release and regional maintenance programs. Renovation of the space will provide additional beds that are less expensive to operate as work release inmates pay a portion of operational costs.
 - ◇ Women's Private Prison - A 200 bed expansion of the existing women's facility operated by a private contractor is proposed to provide space for projected inmate growth. Capacity for women at July 1 was 662, including boot camp and work release operated by ADC, and the population totaled 656. Contingent on receiving funding for construction of the expansion, the beds would be available by the beginning of the second year of the biennium.

---	---	---	------------------------------

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001**

- ◇ Critical Security Posts - The ADC secured a grant from the National Institute of Justice, U.S. Justice Department, to contract with a consultant to evaluate security staff requirements of various correctional facilities. The consultant's recommendations included identifying the critical posts necessary to maintain adequate security of each facility and determining the appropriate relief factor for each shift in order to determine the number of critical security staff required. We are planning to enhance security through available technology which allowed us to reduce the total number of positions needed to staff critical posts. Current staffing levels are not sufficient to allow personnel adequate time off for vacation, holidays, or compensatory time and results in abuse of sick leave and increases in overtime costs. This situation has been identified as a contributor to low morale and high turnover within the ADC.
- ◆ Additional Staffing - A total of 21 additional positions were identified as necessary to provide services or to meet supervision needs that cannot otherwise be provide by existing staff. These include appropriate security staff needed to meet commitments to provide regional maintenance crews to perform county/community services projects, security staff needed to allow additional inmates to be assigned to work details, staffing to provide for implementation of components of the technology plan and other essential program staff.
- ◆ Position Reallocations/Flex - Four positions that provide critical supervision at four units were identified that need to be replaced with a higher level position to be consistent with staffing standards at other units. We request these positions be appropriated as flex to allow a "swap" during the biennium. In addition, ADC is requesting an additional 90 flex positions for the new biennium to enable us to respond to unforeseen situations and to correct inequities within the system that may be required. No additional funding is requested for any of the flex positions.
- ◆ Reclassification/Upgrades - In order to provide a career path for the senior leadership within the institutions, the ADC is requesting reclassification of all wardens and center supervisors to grade 99 classifications. This will require three levels for institutions and two levels for work release centers which were determined based on various levels of responsibilities associated with the operation of facilities to include number of beds, type and number of programs, personnel, etc. Currently, there is no incentive for a warden at a smaller unit to apply for an opening at a larger unit with obviously greater responsibilities. In addition, reclassification/upgrades of positions which ADC feels are essential to accomplishing the agency mission are requested.
- ◆ Capital Outlay - The agency request combines both new and replacement institutional furnishings and equipment, medical equipment, and construction and maintenance equipment needs for the entire system.

<p>AGENCY ARKANSAS DEPARTMENT OF CORRECTION</p>	<p>DIRECTOR : Larry B. Norris </p>	<p>AGENCY PROGRAM COMMENTARY BR21</p>	<p>PAGE 36</p>
---	---	--	---------------------------------------

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001**

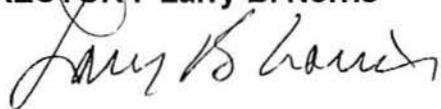

◆ **New Initiatives**

◇ **Special Needs Facility** - In addition to new beds currently under construction, ADC projects that at least an additional 919 beds will be required by the end of the biennium. The projection is based on a population growth average over the past ten years of 46 inmates per month. The most recent population projection by the National Council on Crime Delinquency (NCCD) estimated an average increase of 11 inmates per month or a projected need of at least 405 additional beds by the end of the biennium. The actual FY98 increase was 810 inmates or an average of 67.5 per month. ADC is requesting a new 1,200 bed Special Needs Facility which if appropriated for construction would only produce approximately 200 beds during the remaining six months of the second year of the biennium. A Special Needs Facility would allow us to expand our diagnostic and intake capabilities, to house special needs inmates (medical/HIV, mental health, & geriatric) in one location, and provide approximately 400 additional medium/maximum security beds. We propose siting the new facility in a Central Arkansas location in order to improve access for sheriffs, to utilize major medical facilities, to reduce our transportation/security costs, and to enhance recruitment of staff. Additional benefits of a centralized Special Needs Facility include:

- ⇒ an improved classification system;
- ⇒ cost efficiencies that should result from sharing resources which will reduce the duplication of services for similar populations;
- ⇒ reducing potential liability and improving treatment for special needs inmates as a result of properly designed housing and separation of special populations from the general inmate population.

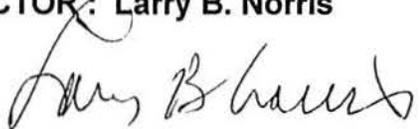

◇ **Correctional Facilities Fund** - The ADC has grown to the point that it's difficult to accurately project the physical plant needs of the institutions, and because all state agencies have extensive needs, there is never sufficient funding for general improvement projects. In order to maximize resources provided to the ADC, we are requesting a new appropriation of up to \$2.5 million per fiscal year, creation of a new Correctional Facilities Fund to be used for constructing, renovating and equipping various correctional facilities and authority to transfer an equivalent amount of savings prior to the end of each fiscal year from the ADC General Revenue Fund Account to the new fund.

◆ **Special Language** - Continuation of current special language is requested with appropriate revisions. Additional special language is requested that would allow ADC to address issues of holiday pay, payment of debt service from Farm Replacement Receipts, and carry forward authority for balances of non-tax revenue receipts.

<p>AGENCY ARKANSAS DEPARTMENT OF CORRECTION</p>	<p>DIRECTOR : Larry B. Norris </p>	<p>AGENCY PROGRAM COMMENTARY BR21</p>	<p>PAGE 37</p>
---	---	--	---------------------------------------

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001**

- ◆ **Agricultural Program** - The agricultural operation of the ADC provides the majority of vegetables, meat, milk and eggs consumed by the inmate population and generates revenue by selling soybeans, rice, cotton and wheat. Approximately 18,000 acres are devoted to cash crops, vegetables, hay production and livestock. The agricultural program is supported by special revenues derived from farm receipts replacements. Biennial requests for the agricultural operation provides for reauthorization of three non-budgeted positions, facility upgrades and various projects, new and replacement equipment, livestock replacement, and M&O authority for potential catastrophic losses.
- ◆ **Industries Program** - Correctional Industries exists as a self-supporting operation within the ADC and is funded by special revenues generated by the sale of products to public agencies and nonprofit organizations. The primary objective of the Industries program is to provide skills and experience to inmates to assist in gaining employment upon release. Over 500 inmates participate in the various work programs. Principal operations include printing and graphic arts, janitorial products, garment, mattress, school bus/fire truck repair, furniture manufacturing refinishing, vinyl products and athletic equipment. The biennial request for the Industries program is for base level and capital outlay appropriation for new and replacement equipment.
- ◆ **Work Release Program** - Work Release allows inmates to be employed in the community while residing in correctional facilities. The ADC coordinates employment opportunities for 465 inmates in work release programs located in Luxora, Springdale, Benton, Texarkana and Wrightsville. Fees received from work release participants reduce the operational costs of the program. The biennial request for this program includes a portion of the expense for a 50-bed expansion for the Mississippi County Work Release Program previously mentioned, and additional appropriation for contingencies, new and replacement equipment, and debt service/lease payments that may be required.
- ◆ **Ancillary Programs** - Other programs of the ADC funded from cash and other sources include Inmate Welfare, Non-Tax Revenue Receipts, and Federal Grants. Biennial requests for the programs includes additional appropriation for operations, contingencies, new and replacement equipment, and new and reauthorization of existing non-budgeted positions.

<p>AGENCY</p> <p>ARKANSAS DEPARTMENT OF CORRECTION</p>	<p>DIRECTOR: Larry B. Norris</p> 	<p>AGENCY PROGRAM COMMENTARY BR21</p>	<p>PAGE</p> <p>38</p>

ARKANSAS DEPARTMENT OF CORRECTION
SUMMARY OF AUDIT FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 1997

Assets					Liabilities			Total Equity
Cash and Investments	Fixed	Other	Total	Current	Long-Term	Total		
\$ 28,157,796	\$ 176,938,203	\$ 68,816,292	\$ 273,912,291	\$ 9,152,675	\$ 52,987,345	\$ 62,140,020	\$ 211,772,271	

Revenues					Expenditures					Other Sources (Uses)
Inter-governmental	Federal	Licenses and Fees	Other	Total	Salaries and Matching	Grants and Aid	Capital	Other Operating	Total	
\$ 152,420,376	\$ 1,644,780	\$ 5,900,155	\$ 27,220,653	\$ 187,185,964	\$ 83,054,735	\$ 412,714	\$ 12,268,289	\$ 89,279,466	\$ 185,015,204	\$ (412,566)

Findings

1. CASH IN BANK - RECORD RETENTION - Review of bank records revealed that one bank used by the Agency no longer returns cancelled checks with the monthly bank statements to the Agency. Instead, the bank sent an image statement which included reduced copies of the face of the checks. We reviewed the bank's image statements and determined they were illegible. Also, the back side of the check was not supplied by the bank. Because of these deficiencies in the documents, the Legislative Auditor denied the Agency's request for approval to use these image statements instead of the original checks in accordance with Act 541 of 1997.

2. INVESTMENTS - Review of the Agency's investment transactions revealed that a certificate of deposit in the amount of \$5,840,000 was redeemed fourteen (14) days prematurely. As a result, the Agency forfeited \$30,381.19 in interest income. The Agency redeemed the investment prematurely to pay the balance of an interest free loan in the amount of \$1,360,000.00 to the Arkansas Finance Development Authority, of which only \$170,000.00 was currently due.

3. FARM INVENTORY - CROPS IN PROGRESS - (The costs associated with growing crops were not accumulated for inventory purposes as of June 30, 1997. The Agency grows cotton, rice, soybeans, wheat, milo and sorghum for resale. Generally accepted accounting principles require that the cost of growing crops be accumulated until the time of harvest. The Agency had incurred substantial costs at June 30, 1997 relating to crops that were not harvested until the following fiscal year.) Estimates and analytical procedures were used to determine the cost of crops in progress at June 30, 1996 and at June 30, 1995. However, reliable data was not available for the year ended June 30, 1997. Consequently, we were unable to determine the value of crops in progress at June 30, 1997. The value of crops in progress was reported to have been \$1,824,204.43 at June 30, 1996.

Recommendations

1. Coordinate efforts with the bank to obtain adequate documentation for disbursements.

2. Strengthen internal controls over investments to preclude the loss of income.

3. Strengthen controls to assure that the cost of growing crops until harvest is recorded by crop and included in the farm fund financial statements in accordance with generally accepted accounting principles.

ARKANSAS DEPARTMENT OF CORRECTION
SUMMARY OF AUDIT FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 1997

Findings (Continued)

4. EQUIPMENT - (The equipment observation sample of eighty-one (81) items with a total value of \$399,376.87 was selected from nine (9) of the Agency's location centers and resulted in eight (8) unlocated items with a total value of \$2,869.52 and six (6) items with a value of \$6,813.03 that had been disposed of without proper authorization.) Details of these situations are as follows:

Location	Unlocated Items		Unauthorized Disposals	
	Quantity	Value	Quantity	Value
Central Office	1	\$ 30.00		
Cummins Farm	2	883.95		
Tucker Farm	2	588.00	4	\$6,414.75
Wrightsville Farm	1	618.45	2	398.28
Benton Work Release Center	2	749.12		
Totals	<u>8</u>	<u>\$2,869.52</u>	<u>6</u>	<u>\$6,813.03</u>

5. ACCUMULATED DEPRECIATION FOR EQUIPMENT - The Arkansas Property Management System's (APMS) depreciation report, which is generated by the Department of Finance and Administration, is relied upon by the Agency to record depreciation expense and accumulated depreciation for equipment of the proprietary funds. Review of the depreciation report indicated that there were errors within the program. The depreciation report included a full year's depreciation expense for purchase made at anytime during the year ended June 30, 1997, two (2) years of depreciation expense for each item in inventory for the year, and no depreciation expense for those items disposed of during the year. Subsequent discussion with personnel of the Department of Finance and Administration indicated that they are reviewing the computer program and making changes to correct the problems for the year ended June 30, 1998. Audit adjustments were made to the report to more accurately determine the amount of depreciation expense for the year ended June 30, 1997.

Generally accepted accounting principles require the accurate calculation of accumulated depreciation and depreciation expense of proprietary fund fixed assets for financial reporting purposes.

Recommendations (Continued)

4. Strengthen internal controls relating to equipment to assure proper accountability and safeguarding of assets.

5. Pursue the accurate calculation of accumulated depreciation and depreciation expense.

ARKANSAS DEPARTMENT OF CORRECTION
SUMMARY OF AUDIT FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 1997

Findings (Continued)

6. INTERNAL CONTROL - GRAIN CROPS - (Review of internal controls related to the harvest of soybeans, rice, wheat and milo indicated that procedures were not in place to adequately monitor units produced and delivered to the granaries during the year ended December 31, 1996. The Agency uses prenumbered scale tickets to account for production at the Cummins and Tucker farms. However, management did not review or maintain an accounting of the prenumbered scale tickets for the 1996 crop year to verify that all scale tickets had been accounted for. Scales are not available at the East Arkansas unit farm, and the Agency relies on the granary scale tickets to document units produced. The Agency has no documentable internal controls over units produced at and shipped from the East Arkansas unit farm. Sales for the Agency's grain crops totaled \$1,965,740.53 for the year ended June 30, 1997.) For the 1997 crop year, the Cummins farm developed a method of accounting for scale tickets.

Recommendations (Continued)

6. Strengthen internal controls over the harvesting of crops.

Audited by Division of Legislative Audit
SA1348097

() Noted in previous year's audit report.

ARKANSAS DEPARTMENT OF CORRECTION
REPORT ON CERTIFICATION OF CONSUMPTION OF FARM PRODUCE
SUMMARY OF AUDIT FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 1997

Value of consumption of farm produce \$3,291,065.15

Findings

INTERNAL CONTROLS - Our review of supporting documentation relating to inmate consumption and employee emoluments revealed the following weaknesses:

- A. Several vegetable items that are unique to the Agency's farm were valued by the Agency but supporting documentation was not retained for audit purposes.
- B. Instances were noted in which employees reflected as receiving emoluments did not sign the appropriate requisition form to verify receipt of the items. Agency policy requires each employee to sign a requisition upon receipt of any emolument.
- C. Consignment tickets for vegetables shipped to the Tucker Unit kitchens directly from the farm were not signed by the issuer or the receiver of those goods.

Recommendations

Agency strengthen internal controls relating to inmate and employee emolument consumption.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This appropriation from cash funds provides for the coinless phone program which began in the 1995-97 biennium. The program allows inmates to call family or friends collect with a portion of the receipts from such calls being paid to the Department of Correction by the phone company. The appropriation is used for inmate assistance projects, security equipment, long term needs, and general operations.

The Change Level request is for Maintenance and General Operations appropriation of \$2,095,000 each year for flexibility in the allocation of available funding for inmate assistance projects, security equipment, long term needs, general operations, and implementation of technology plan projects.

The Executive Recommendation provides for the Agency Request.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This appropriation request is for Debt Service/Lease payments through the Arkansas Development Finance Authority for the bonded indebtedness or leases of regional correction facilities. Receipts into this account are transfers from work release cash funds, payments to the Department of Correction for the housing of county and city prisoners in regional facilities, or such other sources as required. The agency is requesting the Debt Service line item be reestablished at \$800,000 each year of the 1999-2001 biennium.

The Executive Recommendation provides for the Agency Request.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Inmate Welfare appropriation provides for the operation of Pen Stores, which are self supporting operations in which inmates can purchase various commissary supplies, primarily snack foods, in the Department's various units. The sales from these stores are deposited as cash funds and used for operational costs. In addition, the funds are used to purchase such items as chairs, televisions, visitation tables, and recreational equipment for inmate use.

Included in Base Level are cost of living increases of 2.8% each year with associated Personal Services Matching and operating costs. The Change Level requests are for the restoration of 13 positions and additional operating appropriation for future expansion of pen store operations and increases in resale merchandise (\$1,391,972/\$1,398,961) as well as Career Ladder Incentive Program requests (\$16,910/\$17,367).

The Executive Recommendation provides for the Agency Request.

The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications which may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency based criteria required under the program.

Subsequent to the request process the agency worked with the DFA Office of Personnel Management to develop a CLIP for Correction Officer I and Correctional Officer II positions in order to address the critical turnover problem of the Department. These CLIP classifications are not reflected in the agency request but are included in the Executive Recommendation.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This appropriation request is for Debt Service/Lease payments through the Arkansas Development Finance Authority for the bonded indebtedness or leases of regional correction facilities. Receipts into this account are transfers from work release cash funds, payments to the Department of Correction for the housing of county and city prisoners in regional facilities, or such other sources as required. The agency is requesting the Debt Service line item be reestablished at \$200,000 each year of the 1999-2001 biennium.

The Executive Recommendation provides for the Agency Request.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Work Release Center appropriation provides most of the Maintenance and General Operation costs of each of the Work Release Centers. Personnel costs of each center are paid from general revenue in the Inmate Care and Custody appropriation (509). This cash funded appropriation is supported with the payments made by each inmate who participates in the Work Release Program.

Change Level requests include: 1) Operating costs associated with the 50 bed expansion of the Mississippi County Work Release Center (\$392,671/\$164,771); 2) The Debt Service line item is requested to be reauthorized at \$500,000 each year; 3) New and replacement equipment requests, primarily for vehicles; and 4) Contingency appropriation is requested in various line items in the event of a general revenue shortfall, \$3,070,000.

The Executive Recommendation provides for the Agency Request.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This request is for a new 1,200 bed Special Needs Facility. The 98 positions and associated general revenue funded operating support of \$2,705,384 provides for the first 200 beds to be operational in the last 6 month of the 2001 fiscal year. This facility would allow the Department to expand its diagnostic and intake capabilities, house special needs inmates in one location, and provide 400 additional medium/maximum security beds. The Department is proposing that the facility be located in the central Arkansas area in order to improve access for sheriffs, to be close to major medical facilities, and to reduce transportation/security costs.

If approved, the agency requests that the appropriation be merged into the Inmate Care and Custody appropriation (509) for the purpose of expenditure during the 1999-2001 biennium.

The Executive Recommendation does not provide for this request.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Department of Correction is responsible for administration of an efficient and humane system of correction for individuals committed to the Department by the courts for incarceration. In addition to providing for basic physiological and psychological needs of inmates, the Agency operates extensive farming, industry, work release programs, inmate welfare activities, pen stores, and maintenance and construction activities. Cash and Special Revenues produced by these and other auxiliary activities allow the Department wide discretion in planning and operating new and expanded inmate care and custody programs as well as construction projects.

With the creation of the Department of Community Punishment and the Post Prison Transfer Board, the Agency no longer manages pardons and parole services. Pursuant to legislation in 1993, the Board of Correction now exists as the Board of Correction and Community Punishment which is comprised of seven members: five citizen members, the chairperson of the Post Prison Transfer Board and one member of a criminal justice faculty. Each member serves a seven year term.

The Agency is organized into eleven administrative areas. These areas are listed below with their percentage of the total FY99 budget.

Department of Correction Program Area	% of Total Budget
Administration	7.17%
County Jail Reimbursements	2.42%
Health Management	13.59%
Institutional Services	49.71%
Private Prisons	6.66%
Maintenance & Construction	2.08%
Industry Programs	3.40%
Farm Operations	6.16%
Work Release	3.49%
Inmate Welfare	2.91%
Federal Programs	.47%
Non-Tax Revenue Receipts	1.94%

Code: 480	Code: 509	Code: HCA	BR20	76

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

Administration and Health Management programs provide overall supervision of the Agency and provide comprehensive health care for inmates housed at the facilities. Institutional Services encompass all persons incarcerated at the Department of Correction. The Maintenance and Construction operation provides for maintenance and construction of the various facilities within the Department. The Industry and Farm operations contribute to the rehabilitation of the inmates and provide food for institutional services. Work Release provides for freeworld work programs for inmates to make the transition back into the community. The Inmate Welfare and Federal Programs sponsor chaplaincy services, education, mental health services, and vocational education.

Funding for Inmate Care and Custody (ICC) has historically been from General Revenue and comprises 4.98% of all State General Revenues and 53.17% of the State General Government Fund. This percentage and amount of funding has grown dramatically over the past 10 years. In 1989 the percentage share was 2.88%. Included in the Agency's operating budget for FY99 is \$4,395,000 for payment to counties who house inmates through contractual agreements, as well as reimbursements to jails for holding state inmates. Additional Jail Contract/Reimbursement costs are now from General Revenue instead of the General Improvement Fund as in previous bienniums. The amount provided in FY98 was \$11,060,265. The line item allows for the expenditure of both contracts and reimbursements. In FY98 the total expenditures for contracts were \$2,132,250 and expenditures for Jail Reimbursements was \$8,928,015.

The Department operates extensive income generating Farm and Industry operations. The amounts of Special Revenues generated by the Farm and Industry programs above what is obligated for the bonded indebtedness of new facilities, help support and expand Industry and Farm operations and occasionally, programs operated in the Inmate Care and Custody appropriation. The Farm operation currently receives a \$3.6 million per year loan from the Budget Stabilization Trust Fund which may be forgiven at the end of the year upon certification of an equivalent amount of farm-produced food consumed by inmates.

Work Release is a significant part of the Department of Correction. Fees collected from Work Release participants generally cover only the M&O and Capital Outlay costs of that program. Cash generated by Pen Store operations help offset costs of this program. Other Miscellaneous funds traditionally certified for ICC are receipts for various programs such as Child Nutrition, JTPA, veterans Administration, refunds to expenditures, utility reimbursements, substance abuse grant (ADAP), tuberculosis grant from the Department of Health, etc.

The opening of the Jefferson and Delta Regional Jail Units in FY92 provided a new fund source for the Department. Legislation specifies that fees collected from contracting with counties for an agreed upon number of beds is to be deposited in the "Regional Facilities Operation Account" and used for payment of debt service on, or operation of, regional facilities. The operation of these facilities is funded within the Inmate Care and Custody appropriation with some of the cost defrayed by a transfer of the cash funds to the Inmate Care and

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

Custody Fund.

Funding provided to the Inmate Care and Custody Fund from Cash Funds in the 1998 fiscal year amounted to \$363,342. The use of cash and special revenue income for ICC operations allows the Agency flexibility in preparing fiscal year budgets to meet the contingencies of explosive population growth. If allowed to drive significant increases in the budget, however, this practice can result in eventual replacement with General Revenue.

Since FY81, General Revenue support for the Department of Correction has grown from \$13.3 million to a base of approximately \$159.3 million in FY01. This growth has been driven by an equivalent explosion in the inmate population growth increasing from 2,974 in 1981 to 10,710 in FY98. Interestingly, the inflation adjusted percentage in dollar costs of the Department have increased over this period of time by 591%, while the population has increased 260%. Obviously, these costs of incarcerating individuals have grown dramatically as a result of court ordered service and quality of care issues.

Assuming no changes are made in existing incarceration rates or release mechanisms, the Department is projecting a growth rate of 4.9% per year or 46 inmates per month during each year of the next biennium. This rate of growth was based upon the historical average of the last 10 years.

Actual per month growth rates for some preceding fiscal years were as follows: 62 (1998), 12 (1997), 62 (1996), 4 (1995), and 27 (1994). The extremely low growth in FY95 is primarily due to the transfer of inmates from the Department of Correction to the Department of Community Punishment as those beds began opening.

In the 1998 fiscal year the Sentencing Commission, Department of Correction, and Department of Community Punishment jointly contracted with the National Council on Crime and Delinquency (NCCD) to: (1) utilize a simulation model to project adult inmate population, (2) issue a 10 year forecast of adult inmate population, (3) provide training to state personnel in the use of the simulation model, and (4) utilize the simulation model to assess likely impacts of proposed law and policy changes on capacity needs. The Projections of the National Council on Crime and Delinquency (NCCD) are based on data from the Department of Correction for the 1998 fiscal year. The projections assume that severity levels of crimes in future years will be the same as the sample year. The projections also make a number of assumptions as to the impact of the sentencing grid, the rate of transfer at transfer eligibility, parole revocations, etc.

AGENCY	APPROPRIATION	TREASURY FUND	ANALYSIS OF	PAGE
Name: Department of Correction Code: 480	Name: Inmate Care and Custody Code: 509	Name: Dept. of Correct. - Care & Custody Code: HCA	BUDGET REQUEST BR20	78

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

In a comparison of the population projection by the Department of Correction with the projection by the NCCD, the projections are very close, with the Department of Correction projecting an inmate population of 12,407 at the end of the 2001 fiscal year and the NCCD projecting a population 12,139, for a variance of only 268 at the end of the biennium.

There are currently 528 beds that are in the process of being brought on line. In the 1999 fiscal year, 216 beds will be on line at the East Arkansas Regional Unit, and in each of the next two fiscal years 156 beds will be added at the Varner Unit.

The 1999-2001 biennial budget request for the Department of Correction totals \$210,641,212 in FY00 and \$224,043,766 in FY01. The FY00 request is 15.9% above the FY99 budget and the FY01 request is 6.4% above the FY00 request. The General Revenue funding component of the request is \$167,320,881 in FY00 and \$181,499,028 in FY01 and represent increases of 11.6% in FY00 over FY99 budgeted and 8.5% in FY01 over FY00.

The following is a summary of the major components of the Inmate Care and Custody biennial request with amounts for each fiscal year of the biennium respectively.

- ◆ Provide for contractual rate increases for private prisons (\$359,160/\$727,080) and medical services (\$526,930/\$1,042,415).
- ◆ Provide operational support including 79 positions in FY00 and 115 positions in FY01 for an additional 156 maximum security beds to be opened at Varner each of the next two years, (\$3,339,117/\$5,551,448).
- ◆ Additional County Jail Reimbursement cost based on inmate population projection, (\$613,975/\$4,227,475).
- ◆ An addition to the private prison contract of 200 beds for women in FY01, (\$0/\$2110,430).
- ◆ Equipment replacement and new equipment for various units, (\$1,761,748/\$1,230,211).
- ◆ Unfunded appropriation for a position pool for managerial flexibility and staffing standards needed at various units, (\$2,836,380/\$2,907,254).
- ◆ Positions and associated costs, Reclass and Upgrades, and Career Ladder Incentive Program requests for Administration, Health Management, Institutional Services, Maintenance and Construction, and Work Release, (\$3,989,398/\$4,633,613).

Also not contained in the Inmate Care and Custody appropriation is an additional request for a new 1,200 bed Special Needs Facility which is being requested in the agency's Capital Projects Request. The operating request for this unit has been made in a separate appropriation within the overall agency request and would provide for 200 of the beds to be operational in the last six months of the

1999 - 2001**

2001 fiscal year. To operate the 200 beds in FY01 would require an additional 98 positions and supporting operating costs of \$2,705,384 in the 2001 fiscal year (See appropriation SNF).

Detailed descriptions of the Department's change level requests can be found in the Rank by Appropriation (BR264) documents included in this manual.

The Executive Recommendation provides for Base Level which includes appropriation for a 2.8% cost of living allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. The Executive Recommendation does not provide for reclassification and upgrade requests. The agency worked with the DFA Office of Personnel Management to develop a Career Ladder Incentive Program (CLIP) for Correctional Officer I's and Correctional Officer II's. In an effort to address the critical turnover problem of the agency, the Executive Recommendation provides for a CLIP level for these positions which may be utilized for promoting employees upon completion of experience and competency based criteria required under the program during the biennium. The Executive Recommendation also addressed the CLIP levels that were requested by the agency and may in some instances reflect an adjustment to the requested CLIP level for certain positions.

The Executive Recommendation also provides for requested change levels with amounts for each fiscal year of the biennium as follows:

- 1) Provide for contractual rate increases for private prisons (\$359,160/\$727,080) and medical services (\$526,930/\$1,042,415).
- 2) Provide operational support including 79 positions in FY00 and 115 positions in FY01 for an additional 156 maximum security beds to be opened at Varner each of the next two years, (\$3,339,117/\$5,551,448).
- 3) Additional County Jail Reimbursement cost based on inmate population projection, (\$613,975/\$4,227,475).
- 4) An addition to the private prison contract of 200 beds for women in FY01, (\$0/\$2110,430).
- 5) Equipment replacement and new equipment department wide, (\$1,000,000 each year)
- 6) Five additional positions and associated operating costs for a 22 bed isolation unit at the North Central Unit, (\$129,830/\$132,980).
- 7) An additional 71 positions security positions at various units for critical security post staffing with an appropriate relief factor, (\$1,843,586/\$1,888,316).
- 8) An additional 8 positions and associated costs for regional maintenance work crew staffing at Benton and East Arkansas units, (\$304,762/\$255,776).
- 9) Two (2) positions for the Texarkana Regional Correction Center for transportation needs, (\$61,338/\$62,862).

AGENCY	APPROPRIATION	TREASURY FUND	ANALYSIS OF BUDGET REQUEST	PAGE
Name: Department of Correction Code: 480	Name: Inmate Care and Custody Code: 509	Name: Dept. of Correct. - Care & Custody Code: HCA	BR20	80

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

- 10) One (1) position and associated operating costs to coordinate the Victim Information Notification Everyday (VINE) program for the Department of Correction, (\$41,954/\$42,988).
- 11) An additional 16 positions and associated operating costs for a 50 bed expansion of the Mississippi County Work Release Center, (\$676,949/\$690,870).
- 12) Unfunded appropriation for a position pool (90) for managerial flexibility and staffing standards needs at various units (4), (\$2,836,380/\$2,907,254).

To address these programs the Executive Recommendation provides additional General Revenue funding above the Base Level in the amounts of \$4,977,908 in FY2000 and \$12,017,659 in FY2001. The funding recommendation assumes an adjustment in the amount that will be required for County Jail Reimbursements. A lag factor has been assumed for additional beds coming on line at Varner. Overtime savings and partial funding is taken into account in the recommendation for critical posts staffing. Capital Outlay appropriation is recommended without funding.

In addition to the recommendations for operations, the requests for major capital equipment purchases are recommended to be funded from the General Improvement Fund in the amount of \$2,991,959.

These recommendations will provide operating support for a bed capacity of 11,738. Bed capacity includes: current rated capacity, (10,208); temporary beds, (434); bed expansion in progress at the East Arkansas Regional Unit, (216), bed expansion in progress at Varner, (312); Act 309 contracts with county jails, (260); inmates assigned to the State Police and Law Enforcement Training Academy, (58); and operations for new beds in the 1999-2001 biennium, (250). With this bed capacity, based upon the population projections of the Department of Correction, there may be a county jail backup at the end of the 2001 fiscal year of 669. Based upon the population projections of the National Council on Crime and Delinquency (NCCD) there may be a county jail backup at the end of the 2001 fiscal year of 401. The county jail backup on October 9, 1998 was 196.

PROGRAM DESCRIPTION	FUND	ACCOUNTING INFORMATION	D E S	EXPENDITURES		1999 - 01 BIENNIUM REQUESTS		RECOMMENDATIONS					
				ACTUAL	BUDGETED	FY 1999 - 00		FY 2000 - 01		EXECUTIVE		LEGISLATIVE	
				97-98	98-99	REQUEST	REQUEST	1999-00	2000-01	1999-00	2000-01		
	HCA	400 509 031 25 VARNER	C02			3,339,117 115	5,551,448 115	3,503,842 79	5,813,078 115				
<p>312 maximum security beds are under construction and scheduled for completion during the FY99-01 biennium. The first 156 beds are anticipated to be on line July 1, 1999 and the second 156 beds by July 1, 2000. A final 156 will not be available until the following biennium. This change level would provide positions (79 in FY00 and 115 in FY01) and operational costs for the bed expansion.</p>													
	HCA	400 509 01C 1C COUNTY REIMBURSEMENT	C01			613,975 0	4,227,475 0	613,975	4,227,475				
<p>An incremental increase each year of the biennium is requested for payment of county jail reimbursements was calculated on the basis of 1) current and planned bed capacity which includes 216 beds at East Arkansas to be on line by March of 1999 and 312 beds at Varner, 156 to be on line by July each year of the new biennium, 2) projected population growth of 46 per month based on a ten-year average, and 3) no increase in reimbursement rate which is currently \$25 per day. Any new bed initiatives appropriated would reduce the request accordingly.</p>													
	HCA	400 509 035 10 PRIVATE PRISONS - 1200 BEDS	C02			0 0	2,110,430 0		2,110,430				
<p>A 200-bed expansion of the existing women's facility operated by a private contractor is proposed to provide space for projected inmate growth. Capacity for women at July 1 was 662, including boot camp and work release operated by ADC, and the population totaled 656. The request would provide for contract cost for operation of the beds in the second year of the biennium and would be contingent on funding for construction of the expansion.</p>

New and replacement data processing equipment.																		
13		HCA	480 509 011 55 INFORMATION SYSTEMS	C08			79,642 2		81,691 2			70,238 2		72,024 2				
Request is for a Network Systems Administrator and Applications and Systems Analyst to provide for implementation of components of the technology plan. A major component of the plan includes upgrading the existing inmate tracking system to include tracking transportation and movement of inmates and development of a new medical/mental health system that will provide standard medical protocols and guide personnel in treating inmates for health problems. The current and proposed systems are vital to the operations of the ADC in tracking major activities of the inmate population which is expected to grow to 12,000 by the end of the next biennium. Existing staff cannot handle the additional responsibilities that will be required.																		
14		HCA	480 509 090 30 MISSISSIPPI COUNTY W/R	C02			676,949 16		690,870 16			685,934 16		700,104 16				
This request would provide for a 50-bed expansion of the work release program in Mississippi County. The County is relocating to new jail facilities, and the ADC will be negotiating to utilize the existing space to maintain and expand work release and regional maintenance programs. Renovation of the space will provide additional beds that are less expensive to operate as work release inmates pay a portion of operational costs.

<p>This request is part of a plan to reclassify various construction and maintenance personnel to appropriately reflect the responsibilities at assigned units, to provide a structure to better recruit difficult to fill positions and to provide a career ladder path to retain employees. Currently, maintenance supervisors at larger units are classified the same as positions at smaller units.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Prison Industry Program is funded by special revenues generated from the sale of goods produced and sold to other agencies or non-profit organizations. Industry programs provide the Department with needed products at reduced costs and provide opportunities for inmates to learn productive skills that meet program objectives of developing a "work ethic".

The Base Level includes a cost of living increase of 2.8% each year with associated Personal Services Matching. The Change Level request of the agency included Capital Outlay (\$224,290/\$149,105) for new and replacement equipment needs of all industry programs and Career Ladder Incentive Program requests that total \$25,241/\$25941.

The Executive Recommendation provides for the Agency Request.

The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications which may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency based criteria required under the program.

Subsequent to the request process the agency worked with the DFA Office of Personnel Management to develop a CLIP for Correction Officer I and Correctional Officer II positions in order to address the critical turnover problem of the Department. These CLIP classifications are not reflected in the agency request but they are reflected in the Executive Recommendation.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

Special Revenue for the Department's Farm Operations is derived from the sale of marketable agricultural and livestock products. The Farm Program provides the department with food products through garden and livestock operations for inmate consumption.

Included in the Base Level request are 2.8 % cost of living increases each year with associated Personal Services Matching. Change Level requests include: 1) Restoration of 3 currently authorized positions for potential new or expanded programs (\$102,378/\$104,973); 2) Capital Outlay of \$2,125,500/\$1,369,500 is requested for farm facility and equipment upgrades and improvement; 3) Professional Fees and Services of \$200,000 each year is requested for land leveling to improve irrigation management; 4) Operating Expenses of \$1,077,024/\$1,132,407 for inflationary costs for seed, fertilizer, and chemicals; and contingency appropriation in the event of a crop loss or disease outbreak in livestock; 5) Reclassification and Upgrade requests, \$2,412/\$2,477; and 6) Career Ladder Incentive Program requests, \$4,493/\$4,614.

The Executive Recommendation provides for the Agency Request except for reclassification and upgrade requests which are not recommended.

The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications which may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency based criteria required under the program.

Subsequent to the request process the agency worked with the DFA Office of Personnel Management to develop a CLIP for Correction Officer I and Correctional Officer II positions in order to address the critical turnover problem of the Department. These CLIP classifications are not reflected in the agency request but they are included in the Executive Recommendation:

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This federally funded appropriation provides for the operations of a Department of Justice Residential Substance Abuse Treatment for State Prisoners (RSAT) program. Base Level includes a cost of living increase of 2.8% each year over the FY99 salary levels, related Personal Services Matching, and supporting Maintenance and General Operations.

The Change Level requests include: 1) Two (2) positions and associated operating costs of \$76,887/\$78,465 for an Employee Advocacy Program and 2) Career Ladder Incentive Program requests, \$6,962/\$7,143. In addition, the agency requests that the appropriation title be changed to Federal Programs in order to expand the scope of federal programs for which this appropriation can be utilized.

The Executive Recommendation provides for the Agency Request with the exception of the request for a position of Employee Advocacy Program Coordinator (Grade 21) that is recommended as a Management Project Analyst II (Grade 20) with an associated salary and matching cost adjustment.

Request is for positions and operating appropriation for an Employee Advocacy Program contingent on receiving grant funding from the U. S. Department of Justice, Law Enforcement and Corrections Family Support program. ADC is seeking the grant to develop programs to assist in reducing turnover rate, reduce stress in the work place and family life, and increase morale which will help resolve problems with understaffing, excessive overtime, abuse of sick leave, the potential for critical incidents and employee grievances.
