History and Organization

HISTORY OF PUBLIC EDUCATION IN ARKANSAS

Provisions were made within the framework of the Constitution of the State of Arkansas for free public education; directing the legislature to pass needed laws related to education; creating funding for public schools; providing local taxing units for school purposes; designing a method of levying a tax for maintenance and operation of local school districts; and providing authority for local school board members to carry out programs of the State's public education department.

The Arkansas Territorial Legislature in 1829 passed the first law for public education by requiring county judges to appoint a trustee for the sixteenth section of land in each township granted to education. The territory was organized in 1819. In 1853, the office of the County School Commissioner was created by the legislature. With various title changes and added responsibilities, this particular individual is now called the County School Supervisor.

In 1931, the Arkansas General Assembly established a reorganization law whereby consolidation of districts occurred only by the majority of the electors of those districts. In 1948, the Arkansas voters created the District Reorganization Bill that reduced the number of school districts from 1,500 to 424.

From 1875 to 1931, the office of the State's Superintendent of Public Instruction was reestablished. In 1931, the elected office of State Superintendent was abolished, and the State Board of Education was given the power to select a Commissioner of Education.

In 1965, the improvement of elementary and secondary schools was emphasized during a Presidential message on education. Within months after the message, Congress passed the Elementary and Secondary Education Act, which was to strengthen and improve the quality of education and increased educational opportunities in the public schools. The educational opportunities provided for in this federal act are currently being paid from federal funds.

Act 38 of 1971 changed the title of the Commissioner of Education to the Director of Education but

kept the duties and powers of the office the same. The Director of Education was to be confirmed by the Governor and served at the pleasure of the Governor.

Act 64 of 1981 divided the Department of Education into two major divisions, the General Education Division and the Vocational and Technical Education Division with each Division having a separate director.

Act 445 of 1983, known as "The Quality Education Act of 1983," provided for the establishment of minimum standards for accrediting public elementary and secondary schools in the State. As a result, the **Standards for Accreditation of Arkansas Public Schools** were developed and adopted by the State Board of Education on February 22, 1984. School districts had until June 1, 1987, to meet the Standards or risk consolidation or annexation. In 1984, there were 367 school districts in the State. As of June 30, 2000, there were 310 school districts in the State. These Standards have been revised once since they were put into place. The revision occurred in 1993.

Act 34 of 1983, First Extraordinary Session, created a new funding formula for local school districts known as "The School Finance Act of 1984." This particular formula provided funding to school districts known as Minimum Foundation Program Aid. The main focus of the 1983 First Extraordinary Session was education. The Arkansas General Assembly passed a one-cent sales tax which helped to increase the revenue available to school districts and to fund many new programs for education.

The legislation passed in the 1983 Regular Session and the 1983 First Extraordinary Session was considered to be the "first wave" of educational reform for Arkansas public schools. Examples of reforms include: required elementary school counselors; established smaller class sizes; created curriculum content guides which listed requirements for courses to be taught; increased advanced course offerings; required yearly testing of students in grades 3, 6, and 8 in the basic skills, Minimum Performance Test (MPT); required all public school districts to develop and file a six-year plan for improving its educational programs; established an Advisory Council for the Education of Gifted and Talented Children; implemented Act 76 of 1983, First Extraordinary Session, requiring teachers, administrators, and other certified personnel to undergo testing in regard to functional academic skills and knowledge of subject areas; implemented an effective schools project as a model of excellence for Arkansas public schools; and provided for the implementation of computer-based educational projects in the public schools, later known as the Instructional Microcomputer Project for Arkansas Classrooms (IMPAC).

In 1985-86, the Arkansas General Assembly adopted an array of additional legislation such as the establishment of a statewide system of Education Service Cooperatives; the authorization of parents to provide home schooling for their children; the amendment to the Arkansas Teacher Retirement System laws to establish an optional noncontributory plan for its members; the authorization of the Department of Education, General Division, to develop and implement a program of health services; the creation of a commission to study the disparity in teacher salaries; and the requirement for school districts to establish a drug abuse prevention program.

In 1987-88, the Arkansas General Assembly provided the state education system with acts such as establishing residency requirements for persons attending public schools; providing waivers from the teacher salary requirement due to a one time increase in new current revenue; establishing guidelines

for reporting data on students leaving high school prior to graduation; establishing the Commission on Teaching Excellence; and changing the date of the annual school election to the third Tuesday in September.

In 1989-90, the Arkansas General Assembly set up the Office of Accountability to assess the performance of schools and to publish a School Report Card by December 1 of each year, the School Choice program enabling students to attend a public school in a district other than the one in which the student resides but subject to certain restrictions and conditions, the Arkansas Early Childhood Commission, the suspension of a student's learner's permit or driver's license if no longer attending school if under 17, and a mandatory kindergarten law.

In 1991-92, the Arkansas General Assembly created an Educational Excellence Trust Fund to target to all of education the funds from a 1/2 cent sales tax increase; established a statewide computer network for education, later known as the Arkansas Public School Computer Network (APSCN), which is a computer link up with all schools in the State to facilitate data collection and reduce paperwork; established the Arkansas School for Mathematics and Sciences; established the Academy for Leadership Training and School-based Management; and passed a major restructuring act, Act 236 of 1991, which called for the reorganization of the Department of Education, General Division, to provide more support and less regulation to school districts as well as defining what Arkansas public schools must do in preparing students to be internationally competitive. The Department established the Comprehensive Outcomes Evaluation Program as a method for evaluation of the public schools every five years as mandated by the Standards for Accreditation. School vehicle insurance was added to the insurance program as a self-insurance program for schools.

In 1993-94, the legislature combined the appropriations for the Department of Education to a few appropriations for greater flexibility in reaching the goals of Act 236 of 1991. Grant programs were set up for Writing Assessments to assist in the development and piloting of writing portfolios and Curriculum Frameworks for school districts to develop exemplary local curricula to serve as statewide models. An appropriation was also set up for Workers Compensation to help school districts with worker compensation payments on school personnel. In addition, the K-3 Initiative was started with the passage of Act 1139 of 1993 which provided free summer school and summer school transportation to K-3 students who did not perform at grade level during the regular school year. In order for these students to be eligible for promotion to the next grade, they had to attend this specially designed summer school program.

In 1995-96, the Arkansas General Assembly enacted a new funding formula for the public schools that provided more equity in school funding. Minimum Foundation Program Aid was replaced by Equalization Funding. The legislature also funded At-risk Programs, Growth Facilities Funding, Additional Base Funding, and Debt Service Funding Supplements to assist districts with the cost of facilities. Technology centers were appropriated for the Education Service Cooperative to assist local school districts. Fiscal Crisis Relief Funding also provided assistance to districts adversely affected by the implementation of the new funding formula. Other legislation passed in 1995 included: an act to require criminal background checks for all teachers and administrators seeking an Arkansas teaching license for the first time; an act to ensure that a fiscal or academic crisis will not interrupt educational services provided to students (Academic and Fiscal Distress); an act known as the School Bus Safety Act of 1995; an act to establish the Arkansas Advanced Placement Incentive Program; an act to expand the K-3 Initiative of 1993 to include grades K-5; and an act to increase the number of

State Board of Education members from nine (9) to twelve (12).

In 1997-98, the Arkansas General Assembly passed legislation which provided for one core curriculum for all students in Arkansas public schools; required the Director to develop a plan to allow all school districts to utilize distance learning through a distance learning network; amended the laws concerning home-schooled students; provided a clearinghouse for information on nonsectarian practices in character and citizenship education; amended the laws relative to Arkansas education goals and performance accountability; required criminal background checks as a condition for employment in a public school district for all non-certified staff positions; expanded the requirement for background checks on teachers and administrators; allowed Teacher Retirement System members to retire with 28 years of service rather than 30; and Act 803 of 1997 abolished the Vocational and Technical Division of the Department of Education and created the Department of Workforce Education as a separate state agency with its own State Board of Workforce Education and Career Opportunities. The State Board of Education and the Department of Education continued for the general supervision of the public K-12 schools in the State.

In 1999-2000, the Arkansas General Assembly passed legislation which provided for teacher incentives to seek the National Board for Professional Teaching Standards (NBPTS) Certification to pay full tuition cost and bonuses; annual individual school performance reports and for the distribution of these reports to all parents or guardians of children enrolled in Arkansas public schools; the reduction in the number of State Board of Education members from twelve (12) to nine (9) over a three-year period; a new Charter School Law which allows for open-enrollment and school district conversion forms of charter schools with the new law completely replacing the 1995 law; the establishment for an accountability program for schools across the State referred to as the Arkansas Comprehensive Testing Assessment and Accountability Program (ACTAAP); and the elimination of the antiquated county boards of education in all 75 counties of the State over time.

In 2001-2002, the Arkansas General Assembly created the Arkansas Blue Ribbon Commission on Public Education to define an equitable and adequate system of free public education in the State as mandated under the "general, suitable and efficient" components of the Arkansas Constitution; directed the State Board of Education to conduct a study of public education, its structure, financial needs, and funds needed for improvement; adopted ethical guidelines to prohibit self-dealing in transactions between public educational entities and board members, administrators, or employees; passed the Educator Compensation Act to supplement traditional pay increases for the State's teachers; authorized the Department of Education to conduct a study of grade inflation within the State's high schools and to notify schools of such finding; established procedures for identifying critical teacher shortage areas and granting retired teachers a waiver of earnings limitations to return to active employment to help meet the needs of these areas; and clarified the State's ethics law to allow teachers and other school employees to receive gifts or compensation which recognize the employee's contribution to education.

In 2003-2004, the General Assembly addressed four major areas in the public education system of Arkansas: structure of the K-12 system, public school funding, public school facilities, and the structure of the Arkansas Department of Education. During the Regular Session, the legislature; enacted the Omnibus Quality Education Act, requiring all school districts to meet the Standards for Accreditation with sanctions for non-compliance; established requirements for school districts to create plans for more parental involvement in public schools; and created the Joint Committee on

Educational Facilities to assess all of the State's K-12 facilities and equipment. During the 2nd Extraordinary Session, the General Assembly required administrative consolidation of public school districts serving less than 350 students into districts that would have in excess of 350 students; adopted the Arkansas Student Assessment and Educational Accountability Act of 2004; created the Public School Funding Act, which designated a base of \$5,400 per student as the amount necessary for students to receive an adequate education; enacted a variety of revenue measures to raise the necessary funds to implement the new Public School Funding Act. The legislature also provided for the division of the Arkansas Department of Education into three divisions: General Education, Accountability and Educational Facilities with each division having its own director who answers independently to the State Board of Education. Other significant actions taken by the 84th General Assembly included the creation of a Teacher Housing Program; masters program for school principals; mandatory professional development for teachers and administrators and an appropriation to increase the number of early childhood programs offered in the State.

In 2005-06, the Arkansas General Assembly focused primarily on education reform as a result of directives and requirements of the Arkansas Supreme Court in *Lake View School District No. 25, et al. v. Mike Huckabee, et al.* The Court outlined the State's responsibility to identify and fund an adequate education for all students in Arkansas. Accordingly, legislation that provided additional funding in the amount of \$436.6 million over the biennium was implemented. The Legislature also funded and commissioned an Adequacy Study to determine future educational needs. Legislation established the Division of Public School Facilities and Transportation that will identify, assess and fund the State's facilities needs. In the area of teacher recruitment and retention, the General Assembly increased teacher salaries, took steps to strengthen the teacher health insurance program and provided for programs to enhance teaching and learning. The General Assembly also complied with the Court's mandate to track expenditures by expanding current coding methods, providing for in-service training for fiscal staff, strengthening financial accountability, and outlining penalties for non-compliance. The General Assembly continued to enhance and enrich curriculum standards and upgraded the capacity of the State's technology network. Legislation was enacted to change the structure of the Arkansas Department of Education (ADE). The ADE was also given more flexibility in personnel policies. The General Assembly again increased funding for early childhood programs to serve additional children. The Governor called the First Extraordinary Session of the 85th General Assembly to implicitly deal with the Court's mandates, providing an additional \$132.5 million for education funding.

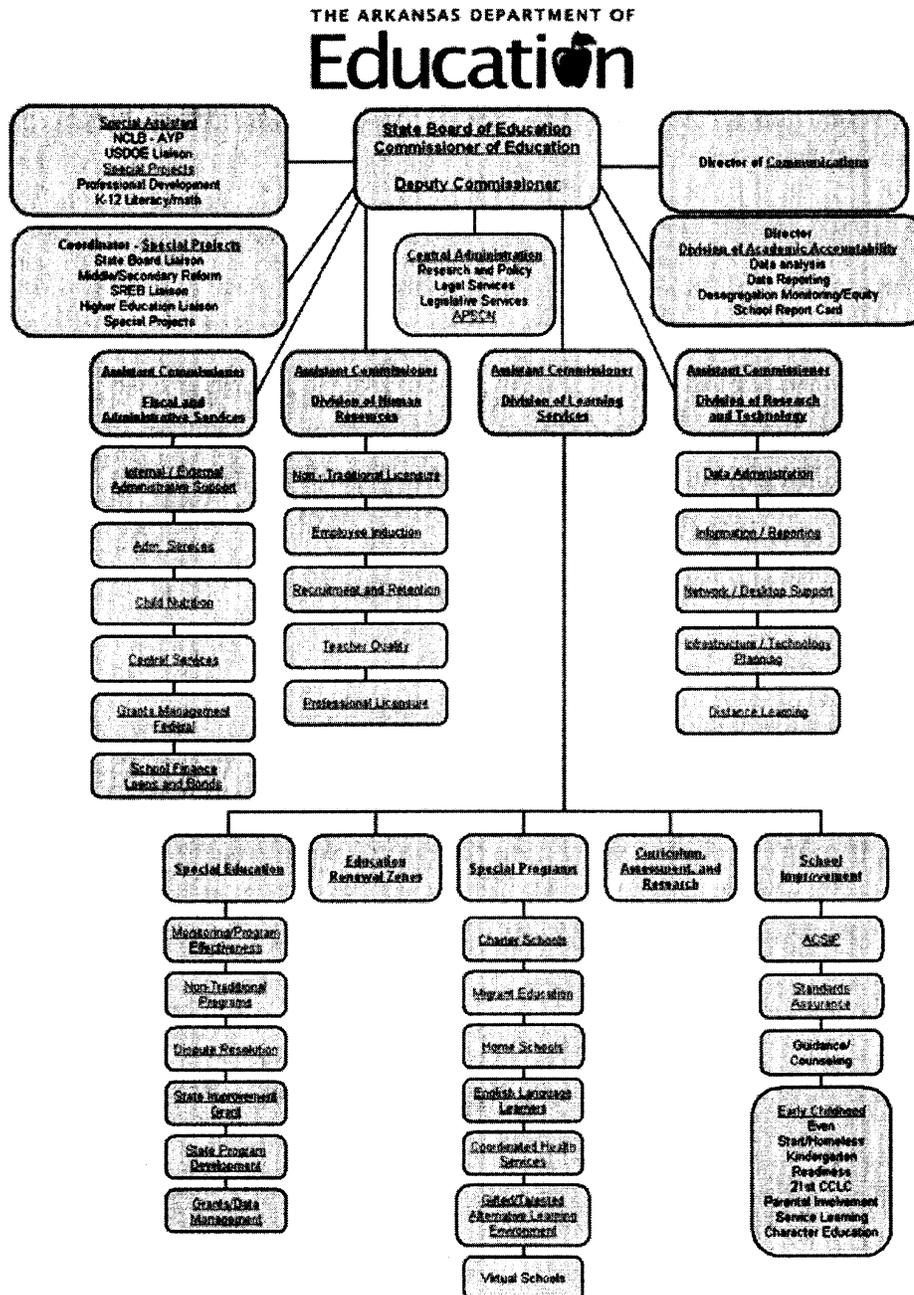

STATE BOARD OF EDUCATION - OVERSIGHT AND AUTHORITY

Statutory authority for the Arkansas State Board of Education is found in Ark. Code Ann. §6-11-101 (1999 Repl.). As set forth in various subsections of this code cite, the State Board of Education is in the process of reducing the number of its members from twelve (12) to nine (9) members over a three-year period ending with the nine-member board as of July 1, 2001, two from each congressional district of the State and the remainder to be appointed at large from within the State. The term of office is set at six (6) years with the terms of outgoing member(s) expiring on June 30 of each year. The Governor, subject to the confirmation of the Senate, appoints the members of the State Board of Education. The members take the oath of office prescribed by the Constitution of the State of Arkansas for officers.

The State Board of Education's powers and duties are outlined in Ark. Code Ann. §6-11-105 (1999

Repl.). These powers and duties include such things as general supervision of the public schools of the State, recommending courses of study for the public schools, issuing licenses to qualified persons to teach in the public schools, and performing "all other functions which may now or hereafter be delegated to the State Board of Education by law."

In addition, "the State Board of Education may organize and, from time to time, change and alter the Department of Education into such branches or sections as may be found necessary and desirable by the Director of the Department of Education . . ." These changes are to be brought forward in order for the Department of Education " . . . to perform all proper functions and to render maximum service relating to the operation and improvement of general education programs of the State."

Agency Commentary

ARKANSAS DEPARTMENT OF EDUCATION GENERAL DIVISION

The following is a summary of Change Level requests by appropriation:

Fish/Wildlife Conservation - 1XY

ACA § 6-16-1101, redirects money from Game and Fish Commission fines to educational programs in the counties in which the fines were collected. It requires the ADE to be the pass through agency to get the funds from the Commission to the counties. The Base Level for the 2007-2009 biennium is \$600,000 each year. The ADE is requesting a Change Level of \$100,000 each year to restore appropriation that was obtained in the FY07 fiscal year from the DFA - Cash Holding Appropriation.

NGA Honor States Grant Program - 4GT

In FY06 the Department of Education received a two-year grant award from the National Governor's Association (NGA) Center for Best Practices. The purpose of the grant is for the State of Arkansas to participate with nine other states in a project to develop and implement comprehensive plans for high school redesign and increase college-ready high school graduation rates. This request for \$500,000 is made for FY08 only in case there are some residual expenses that need to be made as the grant is finalized.

Medicaid Administration Claiming - 4HF

In FY06 The Arkansas Department of Education, Special Education Unit (ADE) along with the Department of Health and Human Services - Division of Medical Services (DMS) received federal approval from the Centers for Medicare and Medicaid Services (CMS) to coordinate and manage a statewide Medicaid administrative claiming program.

Medicaid Administrative Claiming is a federally funded program administered by CMS. This program provides school districts with the ability to receive reimbursement for certain administrative activities (most, if not all of which are already being performed without any reimbursement). School districts will be reimbursed for administrative costs incurred which directly support the Arkansas Medicaid program. This program includes all students, not just students in Special Education.

The Change Level request for this program is for \$15,000,000 each year of the 2007-2009 biennium for a cash fund appropriation, which will allow the Department of Education Special Education Unit to distribute the reimbursements received from the Medicaid program to the public schools.

ADE - State Operations - 620

The Change Level requests for the Department of Education State Operations appropriation total

\$828,700 in each year of the 2007-2009 biennium. The Change Level requests are summarized as follows:

1. Restoration of seven (7) positions - Section 24 of Act 2126 authorized a "Position Pool" of twenty-five (25) positions for the Department of Education for the 2005-2007 biennium. During the 2006 fiscal year the Department of Education utilized this authority to create seven (7) positions in the State Operations appropriation and one (1) position in the Arkansas Public School Computer Network (APSCN) appropriation. Language in this same section also requires that if any "Position Pool" position(s) is requested for continuation in the next biennium, the position(s) must be requested as a new position(s) in the agency's biennial budget request. The positions established by this authority are: (ADE Special Advisor, ADE Coordinator of Special Projects, ADE Special Assistant, Psychometrician, ADE Coord Sch. Imp. / Standards Assurance, and ADE Coordinator Special Programs). The cost of the restoration of these positions is \$674,845 of which \$530,314 is Regular Salaries and \$144,531 is Personal Services Matching.
2. Unfunded Appropriation - The Department of Education is requesting unfunded appropriation of \$153,855 for Extra Help (\$50,000) and associated Personal Services Matching (\$3,855) and Capital Outlay (\$100,000). These requests are being made primarily as a precaution for needs that may arise in the 2007-2009 biennium.

Child Nutrition - 637

The appropriation for the Child Nutrition Program is funded by federal funds received from the US Department of Agriculture. The Change Level request for the Child Nutrition Program for the 2007-2009 biennium is \$15,006,210 in FY08 and \$16,503,831 in FY09. In anticipation of additional federal funds that may become available in the 2007-2009 biennium for the Child Nutrition program, a 10% Increase is requested each year for all non-payroll commitment Items, as well as, requests for Capital Outlay and Data Processing. The major component of this Change Level request is Grants & Aid (\$14,880,000 in FY08 and \$16,368,000 in FY09).

Federal Elementary and Secondary Education - 650

The appropriation for the Federal Elementary and Secondary Education appropriation is funded primarily by federal funds received from the U.S. Department of Education. The Change Level request for this program for the 2007-2009 biennium is \$47,213,627 in FY08 and \$51,918,990 in FY09. In anticipation of additional federal funds that may become available in the 2007-2009 biennium for the Federal Elementary and Secondary appropriation, a 10% Increase is requested each year for all non-payroll commitment Items, as well as, requests for Capital Outlay. The major component of this Change Level request is Grants & Aid (\$47,213,627 in FY08 and \$51,918,990 in FY09).

Gates Foundation Grant-684

This cash funded appropriation was established by a grant from the Gates Family Foundation and relates primarily to technology training and improvements at the local school districts.

The Base Level request is \$786,500 in each year of the biennium. The Change Level request is to discontinue the program. It is anticipated that the remaining funds in the grant will be used during the 2007 fiscal year.

Alternative Certification Program - 899

The Alternative Certification Program is cash funded from fees paid by participants who are seeking alternative teacher certifications to cover the cost of training.

The total Change Level request for the program is \$299,966 in FY08 and \$307,612 in FY09. The request provides for the restoration of appropriation (Operating Expenses -\$206,505, Professional Fees-\$9,100) that was obtained from the DFA - Cash Holding Appropriation for FY07 and a 10% increase for program growth. The request for Grants & Aid is due to a change in the method of providing training requiring an increase in Grants & Aid (\$200,000 each year) and a corresponding decrease in Operating Expenses. The request also provides \$8,000 each year for training for the Non-Traditional Licensure Program staff. It is important that they interact with colleagues from other states to share ideas for improving the program.

Audit Findings

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF :
DEPARTMENT OF EDUCATION
FOR THE YEAR ENDED JUNE 30, 2004

Findings

The Agency does not conduct student attendance audits in a systemic manner to provide assurance that enrollment and attendance data supplied by school districts is reliable. The Agency does review certain aspects of student attendance records at the school districts, but the attendance audit procedures are not applied to all districts consistently. Average daily membership, which is partly based on the number of students present and absent as reported by the school district, is a significant component of the formula used to calculate state funding for school districts. Additionally, the Agency has not verified that school districts have retained student attendance records in compliance with A.C.A. 6-20-2305(f)(5).

The Agency failed to establish adequate controls to ensure that monies deposited in the Federal Forest Reserve Fund (FZF) were distributed in a timely and accurate manner. Mineral leasing receipts generated on military and non-military lands and flood control revenues, which were received in previous fiscal years and totaled \$925,314, had not been distributed to the appropriate school districts and/or counties. Numerous clerical errors contributed to the under-distribution of \$237,156 of federal forest reserve funds and the over-distribution of \$56,053 of military mineral leasing money during the year.

Recommendations

Establish an audit plan to systematically review enrollment and attendance data to gain assurance about the reliability of information provided by school districts. The plan should include consistently applied procedures that verify the existence of students and evaluate the districts' adherence with applicable laws.

Strengthen internal controls over the calculation and distribution of all monies in the Federal Forest Reserve Fund (FZF). Additionally, the Agency should make corrections for the errors that resulted in underpayments and overpayments to school districts and counties.

DIVISION OF LEGISLATIVE AUDIT
 AUDIT OF :
 DEPARTMENT OF EDUCATION
 FOR THE YEAR ENDED JUNE 30, 2004

Findings

There were no formal monitoring and reporting procedures established in the rules and regulations governing the Limited English Proficiency (LEP) program. As a result, there is no documentation to support that recipients spent funds in a manner that was appropriate for the program.

Enrollment documentation obtained during the audit did not always support the enrollment figures that were used by the Agency during the year to calculate state aid.

- School districts report their enrollment data through the Arkansas Public School Computer Network (APSCN). Poverty index funding is based upon a school district's percentage of free and reduced price eligible students in kindergarten and first grade as of October 1 of the previous school year. Six (6) school districts were selected for testing. One (1) of those districts received \$23,426 because APSCN reports showed that the district had an index of 73% as of that date; however, APSCN reports obtained during the audit indicate that the index as of that date was only 71%. The minimum percentage necessary to qualify for funding for the year was 72%.
- The Alternative Learning Environment (ALE) annual report for two (2) of the eleven (11) school districts selected for testing indicated fewer students than was reflected in APSCN for the final third quarter installment payment of ALE funding. The annual report identifies the cumulative number of students served and so the enrollment on annual report should at least be equal to the number reflected in APSCN for the third quarter.

Recommendations

Establish Limited English Proficiency (LEP) rules and regulations for the effective monitoring and accurate reporting of student enrollment and expenditures.

Strengthen internal controls relating to the school districts' reporting of timely, accurate student enrollment data in the Arkansas Public School Computer Network (APSCN) to ensure proper funding of state aid.

Budgeted Number of Positions may exceed Authorized Number due to the flexibility inherent in the authorization of all positions through one salary section in the appropriations acts. Actual and Budget exceeds Authorized Appropriation in Fish/Wildlife Conservation, National Governor's Association Honor States Grant, Medicaid Administration Claiming and the Alternative Certification Program due to a transfer from the Cash Fund Holding Account.

FY07 Budget exceeds Authorized Appropriation in Federal Elementary and Secondary Education due to a transfer from the Miscellaneous Federal Grants Holding Account.

Appropriation: 1XY - Fish/Wildlife Conservation

Funding Sources: NED-Cash in Treasury

Act 799 of 2003, redirected money collected from Game and Fish Commission fines to educational programs in the counties in which the fines were collected. The act required the ADE to be the pass through agency to get the funds from the Commission to the counties.

The Department of Education requests Base Level of \$600,000 plus additional appropriation in Grants and Aids of \$100,000 for both fiscal years. This appropriation was obtained from the DFA Cash Holding appropriation for FY2007.

The Executive Recommendation provides for the Agency Request.

C01 | This request is to restore Cash Appropriation that was obtained from the DFA Cash Holding Appropriation for FY 2007.

Analysis of Budget Request

Appropriation: 2DD - Conference-Treasury

Funding Sources: NED-Cash in Treasury

The Department of Education is requesting Base Level Cash Fund appropriation of \$475,000 each fiscal year to pay expenses of conferences sponsored by the Department. Funding is provided from registration fees charged to participants. During the 2005-2007 biennium the ADE moved the account from a local bank to the State Treasury. Prior to the move this type of account was considered a non-appropriated expenditure. The appropriation will only be used if cash funds are available.

The Executive Recommendation provides for Agency Request.

Appropriation Summary

Appropriation: 2DD Conference-Treasury

Analysis of Budget Request

Appropriation: 435 - Federal Grants Administration
Funding Sources: FHA-Federal Indirect Costs

This appropriation for the Department of Education provides administration, accounting, purchasing and record keeping services for federal programs. It is funded by indirect cost charges levied against the federal programs operated by the Department.

A cost of living increase is not incorporated in Base Level pending the outcome of the Classification and Compensation Study. FY07 salary levels have been held flat each year for all incumbents. Personal Services Matching may reflect increases in Base Level due to the Social Security Tax maximum income limit and certain increases in Worker's Compensation and Unemployment Tax rates. Personal Services Matching also includes a \$30 increase in the monthly contribution for State employee's health insurance for a total State match per budgeted employee of \$350 per month.

The Agency is requesting Base Level of \$627,285 for the 2007-2009 biennium.

The Executive Recommendation provides for Agency Request.

Analysis of Budget Request

Appropriation: 4GT - NGA Honor Treas Cash

Funding Sources: NED-Cash in Treasury

In FY2006 the Department of Education received a two-year grant award from the National Governor's Association (NGA) Center for Best Practices. The purpose of the grant is for the State of Arkansas to participate with nine other states in a project to develop and implement comprehensive plans for high school redesign and increase college-ready high school graduation rates.

The Change Level appropriation request is \$500,000 for only FY08. This request is made in case there are some residual expenses that need to be paid.

The Executive Recommendation provides for Agency Request.

Analysis of Budget Request

Appropriation: 4HF - Medicaid Adm-Treas C

Funding Sources: NED-Cash in Treasury

Medicaid Administrative Claiming is a federally funded program administered by the Centers for Medicare and Medicaid Services (CMS). This program provides school districts with the ability to receive reimbursement for certain administrative activities. School districts will be reimbursed for administrative costs incurred which directly support the Arkansas Medicaid program. The program includes all students, not just students in Special Education.

In FY06, The Department of Education, Special Education Unit along with the Department of Health and Human Services-Division of Medical Services received approval from CMS to coordinate and manage a statewide Medicaid administrative claiming program.

The appropriation for this program in FY06 and FY07 was received by PEER approval from the DFA Cash Holding appropriation. For FY08 and FY09, the Department of Education requests appropriation of \$15,000,000 each year. This is an estimate of the amount that could be needed once all schools are participating. Expenditure of appropriation will be contingent on funds being available.

The Executive Recommendation provides for Agency Request.

Justification

C01 Medicaid Administration Claiming is a new cash funded program that began in FY06 . The appropriation for FY06 and FY07 was obtained from the DFA Cash Holding appropriation. It allows the Department of Education to distribute to school districts reimbursements received from the Medicaid program for administrative costs incurred by the schools which directly support the Arkansas Medicaid program. The amount requested is an estimate of the amount that could be needed once all schools are participating.

Analysis of Budget Request

Appropriation: 620 - State Operations

Funding Sources: EGA-Department of Education-State Operations

This appropriation provides resources for the operation of the Department of Education and assistance to Arkansas' public schools. Operational activities include legal services, information technology, public relations and fiscal management. Assistance to school districts includes the "School Report Card," fiscal and administrative support, curriculum and instruction, and special education assistance and compliance monitoring. For FY06, funding was provided from general revenue, the Educational Excellence Trust Fund, Merit Adjustment funds, the Educational Adequacy Trust Fund, and a transfer from the Public School Fund.

A cost of living increase is not incorporated in Base level pending the outcome of the Classification and Compensation Study. The Base Level request of \$10,755,048 for FY08 and FY09 for Regular Salaries does include board member stipend payments. FY07 salary levels have been held flat each year for all incumbents. Personal Services Matching may reflect increases in the Base Level due to the Social Security Tax maximum income limit and certain increases in the Worker's Compensation and Unemployment Tax Rates. Personal Services Matching also includes a \$30 increase in the monthly contribution for State employee's health insurance for a total State match per budgeted employee of \$350 per month.

Agency general revenue requests include: \$530,314 in Regular Salaries and \$144,531 in Personal Services Matching for both fiscal years for the restoration of seven pool positions authorized by Section 24 of Act 2126 of 2005. Additional language in Act 2126 requires the Department of Education to request these positions as new positions during the next biennium.

The Department of Education also requests \$153,855 of unfunded appropriation for both fiscal years in Extra Help \$50,000, associated Personal Services Matching \$3,855 and Capital Outlay \$100,000 to address unforeseen concerns in a timely manner.

The Executive Recommendation provides for Agency Request.

In summary the Executive Recommendation of new general revenue above the Base Level is:

- \$530,314 for both fiscal years in Regular Salaries for restoration of seven pool positions authorized by Section 24 of Act 2126 of 2005.
- \$144,531 for both fiscal years in Personal Services Matching for fringe benefits of the seven pool positions.

Agency used pool positions during FY2007. The pool positions are required to be requested as new positions during biennium request. FY06 Actual exceeds Authorized Appropriation in Capital Outlay by authority of Budget Classification Transfer. Budget exceeds Authorized Appropriation in Operating Expenses and Professional Fees by authority of Budget Classification Transfer and Special Language in Act 20 Section 9 of the 1st Extraordinary Session 2006, which allowed for carry forward of appropriation for Enhanced Professional Development Programs.

Justification

C01	This request is for unfunded appropriation for State Operations as a precaution for needs that may arise in the 2007-2009 biennium for Capital Outlay -\$100,000.
C05	This request is for unfunded appropriation for State Operations as a precaution for needs that may arise in the 2007-2009 biennium for Extra Help and associated Personal Services Matching -\$50,000, 03-\$3,855.
C06	This request provides for the restoration of salaries and matching for 7 positions (ADE Special Advisor, ADE Coordinator of Special Projects, ADE Special Assistant, Psychometrician, ADE Coord Sch. Imp. / Standards Assurance, and ADE Coordinator Special Programs) authorized by Section 24 (Establishment of a Position Pool) of Act 2126 of 2005 . All of these positions are budgeted in FY07 and normally would be included in Base Level. However, language in Section 24 requires that positions created by this language that are requested to be continued in the next biennium must be requested as new positions. Regular Salaries - \$530,314 Personal Services Matching - 144,531

Analysis of Budget Request

Appropriation: 630 - Building Maintenance

Funding Sources: TEB-Education Building Revolving Bond

The Department of Education is requesting Base Level of \$500,000 for the 2007-2009 Biennium for the Building Maintenance program which provides financing for building and grounds maintenance, equipment maintenance contracts, insurance and janitorial services for the various buildings in the Education complex. This appropriation is funded from rent charged to the various non-federal units at the Department.

The Executive Recommendation provides for Agency Request.

Analysis of Budget Request

Appropriation: 631 - Revolving Loan Certification

Funding Sources: TEM-Education Revolving Loan Certificates Fund

The Revolving Loan Certificates program within the Department of Education issues revolving loan certificates through the State Treasury in order to finance loans up to \$500,000 each to school districts for construction and the purchase of equipment or buses.

A cost of living increase is not incorporated in Base level pending the outcome of the Classification and Compensation Study. FY07 salary levels have been held flat each year for all incumbents. Personal Services Matching includes a \$30 increase in the monthly contribution for State employee's health insurance for a total State match per budgeted employee of \$350 per month.

The Agency is requesting Base Level of \$13,158,273 for the 2007-2009 biennium.

The Executive Recommendation provides for Agency Request.

Analysis of Budget Request

Appropriation: 637 - Child Nutrition

Funding Sources: FHB-DOE Food Service Federal Fund

The Child Nutrition Program of the Department of Education provides administrative services and reimbursement to the local school districts that participate in the school lunch, school breakfast or special milk programs. This program also promotes nutrition education by conducting courses in methods and materials for teaching nutrition education. The Child Nutrition Program is funded with federal funds from the United States Department of Agriculture.

A cost of living increase is not incorporated in Base level pending the outcome of the Classification and Compensation Study. FY07 salary levels have been held flat each year for all incumbents. Personal Services Matching may reflect increases in the Base Level due to the Social Security Tax maximum income limit and certain increases in the Worker's Compensation and Unemployment Tax Rates. Personal Services Matching also includes a \$30 increase in the monthly contribution for State employee's health insurance for a total State match per budgeted employee of \$350 per month.

The Agency Request totals of \$15,006,210 in FY08 and \$16,503,831 in FY09. The requests will provide for a projected 10% increase in the program each of the next two fiscal years. The growth is primarily in Grants and Aid, which totals \$14.8 million in FY08 and \$16.3 million in FY09. This appropriation 100% federally funded and the appropriation will only be used if funds become available.

The Executive Recommendation is for Base Level except for the Grants and Aid line item which is recommended at the Agency Request of \$14,880,000 for FY08 and \$16,368,000 for FY09.

Justification

C01 In anticipation of additional federal funds that may become available in the 2007-2009 biennium for the Child Nutrition program, a 10% Increase is requested each year for all non-payroll commitment Items, as well as, requests for Capital Outlay and Data Processing.

Analysis of Budget Request

Appropriation: 639 - Federal Turnback for School

Funding Sources: FZF-Federal Forest Reserve-DOE

The Department of Education is requesting a Base Level of \$11,000,000 each year of the 2007-2009 biennium for this program which distributes federal turnback money from mineral leasing, forest reserve and flood control to the appropriate school districts.

The Executive Recommendation provides for Agency Request.

Analysis of Budget Request

Appropriation: 650 - Fed Elem & Sec Education
Funding Sources: FEE-Dept of Education Federal Fund

The Federal Elementary and Secondary Education appropriation for the Department of Education contains the majority of the federal entitlement programs for elementary and secondary education. These programs include Title 1 Compensatory Education for the educationally disadvantaged, Title 2 Block Grant, Special Education programs, Early Childhood programs, AIDS Education, Drug Education, and Migrant Education.

A cost of living increase is not incorporated in Base level pending the outcome of the Classification and Compensation Study. FY07 salary levels have been held flat each year for all incumbents. Personal Services Matching may reflect increases in the Base Level due to the Social Security Tax maximum income limit and certain increases in the Worker's Compensation and Unemployment Tax Rates. Personal Services Matching also includes a \$30 increase in the monthly contribution for State employee's health insurance for a total State match per budgeted employee of \$350 per month.

The Agency Request for Federal Elementary and Secondary Education totals \$47,213,627 in FY08 and \$51,918,990 in FY09. The requests will provide for a projected growth of 10% each fiscal year. The majority of the request is in the Grants and Aid line item which totals \$44.6 million in FY08 and \$49.1 million in FY09. This appropriation is 100% federally funded and will only be used if funds become available.

The Executive Recommendation is for Base Level except for the Grants and Aid line item which is recommended at the Agency Request of \$44,693,276 in FY08 and \$49,162,604 in FY09.

Budgeted Number of positions may exceed Authorized Number due to the flexibility inherent in the authorization of all positions through one salary section in appropriations acts. The FY07 Budget amount in Regular Salaries exceeds the authorized amount due to salary adjustments during the 2005-2007 Biennium. Budget exceeds Authorized Appropriation in Professional Fees and Refunds/Reimbursements by authority of Budget Classification transfer. FY06 Actual and Budget exceeds Authorized Appropriation in Capital Outlay by authority of Budget Classification Transfer.

Analysis of Budget Request

Appropriation: 885 - Multiple Grant Award Program

Funding Sources: NED-Cash in Treasury

The Department of Education receives grants and awards from private foundations or individuals for program, such as, Teacher of the Year, Minority Teacher Recruitment, Dean's Symposium and Play it Again Arkansas. The Department currently administers approximately 16-20 such grants each year.

The Department of Education requests Base Level of \$2,626,375 for the 2007-2009 Biennium.

The Executive Recommendation provides for Agency Request.

Analysis of Budget Request

Appropriation: 893 - Medicaid Reimbursement

Funding Sources: NED-Cash in Treasury

The Department of Education collects from the various school districts their match as Medicaid providers and then transmits this quarterly to the State Medicaid Office. Reimbursements are for targeted case management and psychological services in addition to the reimbursement for speech-language pathology, physical therapy and occupational therapy.

The Agency is requesting Base Level of \$5,010,500 for the 2007-2009 Biennium.

The Executive Recommendation provides for Agency Request.

Analysis of Budget Request

Appropriation: 899 - Alternative Certification Program
Funding Sources: NED-Cash in Treasury

The Department of Education has developed alternative methods for certifying individuals within the State who have expertise and knowledge in particular subject areas but do not have the standard teaching certificate. The prospective teachers are charged a fee for training workshops with the funds used to pay workshop expenses.

The Department is requesting Change Levels totaling \$299,966 in FY08 which includes: \$78,766 in Operating Expenses, \$8,000 in Conference and Travel Expenses and \$13,200 in Professional Fees. Also the request includes \$200,000 for Grants and Aids due to a change in the method of providing training. For FY09, the total request is \$307,612 and includes: \$85,992 in Operating Expenses, \$8,000 in Conference and Travel Expenses, \$13,620 in Professional Fees, and \$200,000 in Grants and Aids. The Department continues to see growth in the alternative certification program. The appropriation is 100% funded by workshop fees and will only be used if funding is available.

The Executive Recommendation provides for the Agency Request in all line items with the exception of Conference and Travel Expenses, which is recommended at Base Level.

Justification

C01	This request provides for the restoration of appropriation (Operating Expenses -\$206,505, Professional Fees-\$9,100) that was obtained from the DFA - Cash Holding Appropriation for FY07 and a 10% increase for program growth. The request for Grants & Aid is due to a change in the method of providing training requiring an increase in Grants & Aid and a corresponding decrease in Operating Expenses.
C02	There has never been a travel budget for the Non-Traditional Licensure Program staff. It is important that they interact with colleagues from other states to share ideas for improving the program.
C03	This request is due to a change in the methodology for providing training for this program requiring an increase in Grants and a corresponding decrease in Operating Expenses.

Analysis of Budget Request

Appropriation: 684 - Gates Grant Treasury

Funding Sources: NED-Cash in Treasury

This appropriation is 100% cash funded from grants received from the Gates Family Foundation to continue technology training and improvements at the local school districts. It is anticipated that the remaining funds for this program will be used during the 2007 fiscal year. Therefore, the Department requests this appropriation not continue during the 2007-2009 biennium.

The Executive Recommendation provides for Agency Request.
