

ARIZONA JUDICIAL SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001

Central Agency

The Department of Workforce Education has limited its requests for increases in state funding for the 1999-2001 biennium budget to one request, that of \$10,000 each year of the biennium to be used to replace office machines, furniture and equipment as needed.

Other requests involving general revenue accounts include a restructuring of the Agency. Five positions currently charged with the data processing functions are being removed from our request. The employees holding these positions are being absorbed by the Department of Information Services. The resulting savings in salary and personal services matching are requested to be removed from those line items and an equivalent amount of increase in character 12, data processing services, is requested, resulting in no change in total funding or appropriation. Funding will be used to purchase the data processing services needed by our agency from the Department of Information Services. This arrangement is encouraged by the provisions of Act 914 of 1997 and should result in more efficient and economical data processing services for our agency.

A second adjustment to our general revenue budget involves removing two positions currently charged with the administration and operation of the Youth Opportunities Unlimited (Y.O.U.) Program. The employees holding these positions will be requested to be moved to the Department of Higher Education and the Y.O.U. program will be continued by that agency. While appropriation for salary and personal services matching will be reduced, our agency funding level should remain unchanged.

Other requests relate to appropriation increases for the implementation of the proposed Career Ladder Incentive Program.

A major request for appropriation only increase is for a special revenue operation, the Federal Surplus Property program. This program is the state office designated to acquire federal surplus property and transfer this property to eligible donees within the state. The program is completely supported by handling fees paid by donees to acquire this property. Appropriation is being requested to allow the most efficient utilization of these funds to pay for freight costs and other costs associated with locating property and transporting it to our agency. A modest increase is requested for conference fees and travel appropriation to allow additional in-service for our employees. Finally, an increase is requested to restore capital outlay appropriation and increase that appropriation to allow for the purchase of a new semi-tractor.

Two miscellaneous federal grant positions are being requested to be continued. One position, a Grade 19, Grants Coordinator II, provides support to the Career Opportunities Program. The other position, a Grade 22, Vocational Education Program Support Manager, provides administrative direction for the Job Training Partnership Act Program. Both positions are funded by federal grants and are expected to continue during the biennium.

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001**

Public School Fund

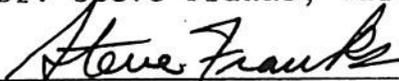

The Department's request for the Public School Fund involves the transfer of two line items located in the Department of General Education Section One to the Department of Workforce Education Section Two. One of these line items, Vocational Start-Up, is requested at base level funding of \$2,370,000. These funds are used to assist local school districts and vocational centers to purchase equipment when new vocational programs are started.

The second line item is for Vocational Center Aid. This item is presently administered by the Coordinating Council of the Education Service Cooperatives. The request is to include the base level of \$7,800,000 in Section Two of the Public School Fund and provide an increase of \$2,000,000 in 1999-2000 and \$3,985,000 in 2000-2001. Four new centers are to start during the 1998-1999 fiscal year. The Department of Workforce Education is charged with extending Vocational Center services to unserved areas of the state. We anticipate that this goal will require two to four additional centers be established during the biennium.

Two other line items in the Public School Fund are requested to increase. An inflationary adjustment to the adult education line item is requested to assist programs to meet their steadily increasing costs.

The last increase is a request for additional funding and appropriation for capital equipment aid for local vocational programs. It is estimated that our current base level of aid meets only an eight percent of the minimum need for equipment replacement in our public schools. The requested increase would allow the agency to fund sixty-five percent of the estimated need.

Please note that all requested increases are for funding for direct educational services. No additional administrative funding is being requested.

Findings

EXTRA HELP - (Review of payroll disbursements revealed that one (1) employee paid as extra help had worked in excess of the maximum hours allowed for extra help positions. The employee, assigned to the Agency's Dislocated Workers Program, worked 1,403 hours during the year ended June 30, 1997. Ark. Code Ann. 19-4-521 defines extra help as those who are employed 1,000 hours per year or less.)

The Agency's Appropriation Act 1347 of 1997 authorized extra help employees assigned to the Dislocated Workers Program to work up to 1,800 hours in a fiscal year, effective July 1, 1997.

Recommendations

Strengthen procedures to assure compliance with laws relating to extra help employees.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Department of Workforce Education uses this cash appropriation for administration of the various retirement plans available to their employees. Funding for this appropriation is in the form of employee deductions and matching for retirement. The agency pays the employee premiums to the various companies offering retirement plans.

The Agency is requesting Base Level, which includes a cost of living increase of 2.8% each year over the FY99 salary levels and related Personal Services Matching costs for the one position found in this appropriation.

The Executive Recommendation provides for Agency Request.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Governor's Commission on Adult Literacy was transferred to the Department of Workforce Education during the 81st General Assembly. Prior to that time, the Commission was a stand-alone agency. The Governor's Commission on Adult Literacy receives private grants for the development of Family Literacy Projects.

Funding for this appropriation is budgeted and requested based on the current fund balance resulting from an award made by the Walton Foundation. No additional grants are anticipated at this time, and therefore are not requested. In the past, grants have been received from Rockefeller and Toyota in addition to the Walton grant.

The Agency is requesting Base Level. No changes are requested due to the uncertainty of securing additional funds.

The Executive Recommendation provides for Agency Request.

ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Arkansas Advisory Council for Vocational Education was transferred from the Arkansas Department of Industrial Development (now the Arkansas Economic Development Commission) to the Department of Workforce Education during the 81st General Assembly. This appropriation is funded from General Revenues and provides the required state match for federal dollars received from the U.S. Department of Education. Base Level is \$16,550 each year of the biennium and is comprised of operating expenses only. No Change Level additions are requested.

The Executive Recommendation provides for the Agency Request.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Federal Surplus Property program acts as a broker in securing excess property from the federal government. This surplus property is made available to state and local governmental units as well as certain eligible schools and hospitals for the actual fees associated with transportation plus the costs assessed for handling. Operating funds are derived from fees charged for services, which consists of the actual transportation fees and an amount charged for handling to provide operating funds for the program.

Base Level for this special revenue appropriation includes twelve positions, Extra Help, and Maintenance and Operations. Also included is a cost of living increase of 2.8% each year over the FY99 salary levels, and related Personal Services Matching costs.

Change level requests are for Operating Expenses to pay the freight cost for property that is shipped, Conference Fees and Travel to provide more meetings with donees to promote the program, and Capital Outlay to purchase a new semi-tractor and to continue to upgrade equipment.

The Executive Recommendation provides for the Agency Request.

<p>As bases close and we have to go further to get quality property, our freight costs obviously are increasing. We are receiving more and more property from overseas. We are having more property shipped (rather than us transporting it) from bases within the continental United States. Freight cost have been escalating and we expect them to be even higher. We believe additional appropriations would keep Arkansas competitive with other states that are competing for this property. Therein lies the rationale for the specific request for an increased appropriation for Character 02.</p>

APPROPRIATION SUMMARY

BR 215

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This appropriation provides the majority of General Revenue support for the administrative functions of the Department of Workforce Education. Programs such as the Youth Opportunities (Y.O.U.) project, Plumbing Apprenticeship program, Industrial Coordinators, and Tech Prep program are included in this appropriation. In addition to stabilized General Revenue, which is used to support the administrative functions of the agency as well as the programs mentioned above, Education Excellence Trust Funds are used to provide support for the Apprenticeship Program.

The Base Level request includes 66 positions. A cost of living increase of 2.8% each year over the FY99 salary levels, and related Personal Services Matching costs are also included. Supporting operations expenses as well as the Apprenticeship Program are included as well.

The Change Level request submitted by the Agency reflects reallocation of resources with no additional requests for funds or appropriation. Five positions are reallocated to purchase needed Data Processing services. Additionally, two positions are forfeited as Higher Education has requested the Youth Opportunities Program (Y.O.U.) be returned to that agency. At the time this program was transferred to Workforce Education only the positions, without funding, were transferred. Through reallocation efforts, Workforce Education was able to pay the salaries of these employees. Now the department has requested that various operating expenses be increased to again reallocate resources.

Requests were made to utilize the CLIP Program for the secretarial positions.

The Executive Recommendation provides for the Agency Request and two additional position reclasses. The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications, which may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress with the new biennium, based on the experience and other competency-based criteria required under the Program. The recommendation also includes position upgrades/reclasses not requested, but which more accurately reflect the nature of the work performed.

<p>This request is to remove five positions from the agency's base level along with the associated salary and personal services matching appropriation. An equal amount of appropriation is being requested in character 12. The Department of Workforce Education will purchase data processing services from the Department of Information Services (DIS). DIS in turn will assume the positions. This request at worst is cost neutral and should result in better service.</p>																		
002		EGB	590 640 100 WORKFORCE EDUCATION AND CAREER	C06			108,098 0		111,142 0		108,098	111,142						
<p>This request is for restoration of appropriation and funds which were utilized to support the Youth Opportunities Unlimited Program during the last biennium. When our agency assumed responsibility for this program, we used base level funding and appropriation. Now that this program is being assumed by Higher Education, we are asking for this increase to balance the decrease of funding and appropriation supporting the Youth Opportunities Unlimited program.</p>

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This appropriation is the federal counter part to the General Revenue appropriation (640) and together they serve as the basis for the administrative support of the agency. Funds are received from the federal Department of Education from the following program sources:

- Carl D. Perkins Vocational & Applied Technology Education Act - Basic Grant
- Jobs Training Partnership Act - School-to-Work Opportunities Program
- Carl D. Perkins Applied Technology Education Act – Tech Prep Education.

Only the 5% administrative funds in the Carl Perkins Basic Grant have to be matched, and this is provided in the state funded Vocational, Technical and Adult Education appropriation (640).

Base Level for this federally funded appropriation includes twenty-four Regular Salary positions, Extra Help, Grants, and Maintenance and Operating Expenses. The Base Level includes a cost of living increase of 2.8% each year over the FY99 salary levels, and related Personal Services Matching costs.

Change Level requests include one position, a grade 19 Grants Coordinator, currently authorized by authority of a Miscellaneous Federal Grant as well as restoration of Capital Outlay. CLIP requests were made for secretarial positions.

The Executive Recommendation provides for the Agency Request.

The Career Ladder Incentive Program (CLIP) requests reflected in the agency budgets are intended to provide appropriate job classifications, that may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency-based criteria required under the Program.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This federally funded appropriation provides for the administrative expenses associated with the JTPA program. Funds are received from the Jobs Training Partnership Act through the state Employment Security Division and require a 100% match. Matching is provided from the state funded appropriation for agency administration.

Base Level includes two positions and supporting Maintenance and Operations expenses. The Base Level also includes a cost of living increase of 2.8% each year over the FY99 salary levels, and related Personal Services Matching costs.

The agency is requesting partial restoration of Capital Outlay in the amount of \$5,000 each year as a Change Level request to purchase office machines, data processing equipment, and other such equipment as may be needed to respond to the job training requests. CLIP requests are also made for secretarial positions.

The Executive Recommendation provides for Agency Request.

The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications, that may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency-based criteria required under the Program.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This appropriation provides federal funding to dislocated workers for services such as evaluation, testing, identification of skills, as well as actual training needed for job placement. Funding for this appropriation is received from the Jobs Training Partnership Act – Dislocated Workers through the state Employment Security Division. The 8% funds are matched 100%.

Base Level includes seven positions, Extra Help, supporting Maintenance and Operations expenses, and Grants/Aids. Also included in the Base Level is a cost of living increase of 2.8% each year over the FY99 salary levels, and related Personal Services Matching costs. This appropriation provides funding for services to dislocated workers including evaluation, testing, identification of skills, and providing the actual training needed for job placement.

The agency is requesting one position, a grade 22 Program Support Manager, currently authorized by authority of a Miscellaneous Federal Grant, and partial restoration of Capital Outlay to purchase office machines and equipment and data processing equipment to be used in the JTPA programs. CLIP requests for support personnel are also included.

The Executive Recommendation provides for the Agency Request.

The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications, that may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency-based criteria required under the Program.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This General Revenue appropriation is utilized by the agency to administer the state's adult education programs. Approximately 65,000 students are served in these programs each year, primarily in adult education centers, community colleges, post-secondary vocational institutions, and area high schools.

The Base Level includes six positions, a cost of living increase of 2.8% each year over the FY99 salary levels, related Personal Services Matching, and supporting Operating Expenses.

The Agency is requesting Base Level and personnel changes with the CLIP Program.

The Executive Recommendation provides for the Agency Request.

The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications, that may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency-based criteria required under the Program.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

This federal appropriation is utilized by the agency to administer the adult education programs. Funding is received from the federal Department of Education – Basic State Grant and requires a 25% match. Funds from the state funded counter part for the program (appropriation 644) as well as Public School funds received by the department (appropriation 453) are used to meet this requirement.

Base Level includes five positions, a cost of living increase of 2.8% each year over the FY99 salary levels, related Personal Services Matching costs, supporting Operating Expenses, and Grants/Aids. This provides for the administration, supervision, monitoring and technical assistance for all adult education programs in the state.

The Change Level request, restoration of Capital Outlay in the amount of \$2,500 each year, is made to allow the agency to replace office equipment if the need arises.

The Executive Recommendation provides for the Agency Request, with some changes in the position classifications.

**ARKANSAS BUDGET
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

Any educational program or course at a school or training facility other than an installation of the federal government must be approved by this agency before an eligible veteran, service person, or eligible dependent can receive educational benefits. The Arkansas Approving Agency evaluates public and private schools, as well as specialized training programs such as apprenticeship and on-the-job training programs. Federal funds are received from the Veterans Administration. A contract provides for expenses for salary and matching, some covered travel, and 5% to be used for expenses associated with rent, M&O, uncovered travel and other administrative expenses.

Base Level in this federally funded appropriation, which is used to monitor, supervise and certify programs of study that Veterans can enroll in and be eligible to receive benefits, includes three positions, supporting Maintenance and Operations expenses, and a cost of living increase of 2.8% each year over the FY99 salary levels, with the related Personal Services Matching costs.

The agency is requesting restoration of Capital Outlay in the amount of \$5,000 each year to replace obsolete equipment and to purchase office machines. Requests are also made for the CLIP Program.

The Executive Recommendation provides for Agency Request.

The Career Ladder Incentive Program (CLIP) requests reflected in agency budgets are intended to provide appropriate job classifications, that may be utilized to promote classified employees who complete competency-based criteria during the biennium. The Executive Recommendation may reflect an adjustment in the requested CLIP levels for certain positions. These changes are to indicate the maximum job classification to which an employee would be expected to progress within the new biennium, based on the experience and other competency-based criteria required under the Program.

APPROPRIATION SUMMARY

BR 215

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1999 - 2001**

The vocational institutes and vocational technical schools are requesting additional dollars for maintenance and operations for the 1999-2000 biennium.

For the last several biennia, the vocational institutes and vocational technical schools have not received any increases in funding for operations. During this period, costs have increased for such items as utilities and educational supplies. Advances in technology have resulted in increased costs. For example, inkjet cartridges for computers are more expensive than the printer ribbons in use just a few years ago. Software must constantly be updated to keep abreast of new technology. There has also been an increase in the number of students served. Many schools have seen either an increase in size of their facilities or increased hours of operation, or both. To meet these additional costs, the schools have been forced to divert cash and Workforce 2000 Funds that would otherwise be used to fund courses and services for business and industry and use it for repairs, supplies, utilities, and general maintenance.

The schools still provide the courses traditionally associated with Vo-tech, such as automotive repair and welding. In addition to these traditional courses, however, the schools are increasingly being called upon for specialized courses which fill a particular niche in their area of the state. Just a few of the programs and courses offered by the schools include the following: Delta Technical Institute's Workforce Training Center, Forest Echoes' Pulp and Paper Science, EPA training for air conditioning equipment at Quapaw, Northwest's refrigeration technology for the food processing industry, Riverside's new Newport facility for women, Great Rivers' nursing consortium, Foothills entry level training offered at nontraditional hours for working people, Industrial Equipment Technology at Crowley's Ridge, Cotton Boll's industrial extension classes, and Arkansas Valley's Business-Industry productivity center. In cooperation with the colleges and universities, many of the schools are now offering college courses, making a college education available to many people in small communities who otherwise could not afford the time or expense of attending a traditional college.

Additional funding is badly needed so that the schools can continue to provide much needed services to the people of Arkansas and especially business and industry.

8%	71%	15%	6%	100%	13%	50%	11%	0%	26%	10

Findings

1. ACCOUNTS RECEIVABLE - The Agency had inadequate control over accounts receivable transactions. We noted that payments due for contracted services under the Existing Workfor Training Program were not properly reviewed for payment resulting in one (1) contract for \$13,920 not being billed or collected. We also noted that bookstore charge sal were not reconciled to the accounts receivable subsidiary record.

Findings

1. EQUIPMENT - As reported in the years ended June 30, 1991 through 1996, the fixed asset controls for equipment were not adequate. The following was noted during our examination:
 - A. \$10,049.51 in net equipment purchases were not capitalized by the Agency.
 - B. (The subsidiary equipment ledger for the year ended June 30, 1997 differed from the equipment control account in the general ledger. This difference at June 30, 1997 was \$1,799.18.)
 - C. (Our examination of equipment also included vouching equipment deletions. This examination disclosed that deletions posted to the equipment control account were overstated. The overstatement at June 30, 1997 was \$1,160.84.)
2. UNINSURED/UNCOLLATERALIZED DEPOSITS - Our examination of cash deposits disclosed that the Agency had uninsured, uncollateralized deposits at January 31, 1997 in the amount of \$9,878.87.
3. ACCOUNTS RECEIVABLE - (Accounts receivable at June 30, 1997 totaled \$48,507.92. We noted that several of the items included in this total were quite old, with the oldest dating back to fiscal year 1983. The Agency identified \$7,083.90 of this balance as incurred prior to fiscal year 1996.)

Note: The Agency abated \$1,888.99 of the above amount during fiscal year 1998.

Findings

1. (FIXED ASSETS - As was reported for the years ended June 30, 1996, 1995, 1994 and 1993, we noted that the Agency's fixed asset controls for equipment were not adequate and the records were not maintained in a manner to ensure accountability. The following was noted during our examination:
 - A. The Agency's general ledger balance for equipment at June 30, 1997 was \$1,195,175.90. This balance was not reconciled to the subsidiary records. The difference at June 30, 1997 was \$155,795.46.
 - B. The Agency did not post any equipment deletions to its general ledger for the year ended June 30, 1997. The Arkansas Property Management System "Inventory Control System Transaction Report" reflected equipment deletions totaling \$55,697.92.

As noted in the prior audit, the report mentioned above reflected equipment deletions totaling \$21,112.83 for the year ended June 30, 1996 which were not reflected in the Agency's general ledger for the year ended June 30, 1996. These deletions had still not been posted to the general ledger as of the date of our fieldwork.
 - C. Our sample of fixed asset additions included vouching five (5) equipment purchases. This sample revealed that \$3,237.87 in purchases were capitalized and added to the equipment account in the general ledger; however, none of the items had been added to the subsidiary equipment ledger. This sample also revealed one (1) purchase which had been incorrectly posted to the subsidiary equipment ledger by \$780.00.

As noted in the prior audit, the Agency had not properly added \$21,370.22 of equipment purchases for the year ended June 30, 1996 to the subsidiary equipment records. As of the date of our fieldwork, these purchases still had not been added to the subsidiary equipment ledger.

() Noted in previous year's audit report.
 _____ The auditee has indicated the finding has been or will be corrected.

GREAT RIVERS VOCATIONAL TECHNICAL SCHOOL - McGEHEE, ARKANSAS
SUMMARY OF AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 1997

Findings (Continued)

1. FIXED ASSETS (Continued)

- D. (During the year ended June 30, 1997, the Agency received permission from the Department of Finance and Administration to delete ten (10) equipment items costing \$14,775.25, which had previously been reported missing or sold. None of these deletions were posted to the general ledger, nor were these items removed from the Agency's subsidiary equipment ledger.
- E. We noted that equipment additions per the Arkansas Property Management System "Inventory Control System Transaction Report" for the year ended June 30, 1997 totaled \$97,395.81, while additions per the Agency's general ledger totaled \$139,412.39, for a difference of \$42,016.58.)
2. UNINSURED/UNCOLLATERALIZED DEPOSITS - The Agency had uninsured, uncollateralized deposits at June 30, 1997 and January 31, 1997 in the amounts of \$8,710.52 and \$5,915.68, respectively.
3. STATE TREASURY REVENUES - The Agency overstated state treasury revenues in the amount of \$12,918.37 in its general ledger for the year ended June 30, 1997.
4. PAYROLL - During our examination of payroll, we noted that the Agency had thirty-one (31) regular authorized positions. This examination disclosed that one (1) employee was paid out of position, which is not in compliance with Ark. Code Ann. 21-5-203 according to the Office of Personnel Management (OPM).

	100,000.00	C.D.	Farmer's Bank Blytheville, AR	
	100,000.00	C.D.	Farmer's Bank Blytheville, AR	
				REVENUE RECEIPTS CYCLE: Bank interest is paid throughout the year and deposited in cash bank account.
				FUND BALANCE UTILIZATION: Tuition is collected throughout the year, but primarily in August, January, and May. Cotton Boll rarely receives capital funds or equipment funds from EJA funds. Therefore, local funds have to be accumulated over many years to make renovations, repairs, and purchase major equipment. The commitment this year from these funds are: \$150,000 in MOF to remove and replace underground fuel storage tanks; \$123,687 in MOF for roof repairs; and \$150,141 to supplement M&O due to insufficient state revenues.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

The Technical Institutes are under the Department of Workforce Education. Act 803 of 1997 abolished the Division of Vocational Technical Education under the Department of Education and created the Department of Workforce Education.

All requests made by the Institutes for cash appropriation are combined and presented in one appropriation request. This appropriation is funded from resale from the bookstores, reimbursements such as JTPA, Sex Equity, and Apprenticeship, and from tuition which generally is charged at a rate of \$25 to \$30 per hour.

The Institutes are requesting approximately \$3.2 million each year above Base Level, which includes a 2.8% cost of living increase over the FY99 salary level and related Personal Services Matching costs. Extra Help is requested, primarily for instruction, due to increased enrollment and an increase in business and industry classes. These classes are provided on a reimbursement basis. Appropriation is requested for Capital Outlay to replace equipment and to purchase new equipment needed with the advancement in technology. Professional Fees and Services is requested for apprenticeship programs and for contracts. Most contracts are made with entities under the Higher Education umbrella. Additional resale appropriation is necessary for the bookstores, and is requested in part to reflect the increased costs of educational materials and textbooks. Deferred Maintenance is targeted for roof replacements at the various schools. Conference Fees and Travel is for continued staff development, and Operating Expenses is requested for administrative costs and educational supplies. Requests for the Career Ladder Incentive Program are also included.

Executive Recommendations were made for each Institute on an individual basis and are not reflected in this holding account.

The FY99 Budgeted amounts in Regular Salaries and/or Personal Services Matching may exceed the Authorized amounts due to the implementation of the pay plan during the 1997-99 biennium. Actual and/or Budgeted Number of Positions may exceed the Authorized Number due to the flexibility inherent in the authorization of all positions through one salary section in appropriation acts.

APPROPRIATION SUMMARY
 BR 215
 Budgeted exceeds Authorized in Operating Expenses due to a transfer from Cash Fund Holding Account.

FY99 Budgeted Level reflects two positions that are not carried into FY00/01 Base Level. These positions are requested as a Change Level in the State Funded Holding Account (141).

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

Act 803 of 1997 created the Department of Workforce Education and abolished the former Division of Vocational Education, which was under the Department of Education. The Technical Institutes are now under the authority of the newly created Department of Workforce Education.

The Technical Institutes receive appropriation authority through a holding account. Individual requests are submitted and combined into one appropriation for the purpose of drafting legislation and enacting such authority.

The institutes receive funding from several sources to support this General Revenue appropriation:

- Stabilized General Revenue
- Public School Fund Reimbursements
- Workforce 2000 Funds

Unfunded appropriation, primarily in the New Programs and Adult Education Reimbursement line items, provides the Institutes with flexibility needed to maximize the available funding.

The Technical Institutes requested approximately \$3.2 million each year above the Base Level, which includes a 2.8% cost of living increase over the FY99 salary level with related Personal Services Matching costs. The additional 33 positions reflected in Base Level above Budgeted Level were transferred from the Vo Tech position pool as authorized by Section 8 of Act 1347 of 1997. The majority of the request is for Operating Expenses. The Institutes currently depend on the funds received from the Workforce 2000 Fund to operate the schools for most of the year. The request for additional Operating Expenses would allow Workforce 2000 funds to be used for program enhancements. In addition to this request, a small amount was requested for Conference Fees and Travel for staff development. Five positions are requested for new programs at Forest Echoes and Northwest Institutes. Requests for the Career Ladder Incentive Program are also included in the request.

Executive Recommendations were made for each Institute on an individual basis and are not reflected in this holding account.

<p>The vocational technical schools are requesting additional state funding for maintenance and operations. For the last several biennia, the schools have seen an increase in students and some inflation in the cost of doing business. During this time, there has been no increase in state funding for maintenance and operations. This funding would help to ease this burden on the schools.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1999 - 2001**

Act 803 of 1997 abolished the Division of Vocational Technical Education under the Department of Education and created the Department of Workforce Education. The Technical Institutes are under this newly created department.

The Institutes prepare and submit a budget request individually. All requests are combined into one appropriation holding account for purposes of legislative enactment. At the beginning of each fiscal year transfers are made from the holding account to the individual schools.

Federal funds are received from the U.S. Department of Education.

Minimal requests were made for use of federal funds above the Base Level, which includes a 2.8% cost of living increase over the FY99 salary levels and related Personal Services Matching costs. Salary and supporting matching appropriation are requested to implement the Career Ladder Incentive Program. Capital Outlay is requested to replace equipment should funds be available.

Executive Recommendations were made for each Institute on an individual basis and are not reflected in this holding account.

The number of Base Level positions exceeds the number in the 1999 Budgeted due to the agency's authority to transfer positions from the Vo Tech pool, pursuant to Act 1347 of 1997.
