
ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

The Department of Pollution Control and Ecology's budget request for the 1997-99 biennium carries forward the basic programs operated during past years but reflective of a charge from the Director for each division chief or program manager to be responsible for its budget, both annually and biennially. In order to accommodate this mandate, the cost center structure of the Department was enlarged to better account for program areas. In previous years, all overhead costs of the Department was reflected in the Administration Division's budget. A new account, called Shared Resources, will better account for these expenditures, and can more easily be split, based on headcount, to divisions for a more accurate reflection of a Division's total costs. A Legal Services account was established, also previously paid from the Administration Division, with the Asbestos/Lead Paint program and the Small Business Assistance Program also segregated. During FY96, the Department instituted a Customer Service Division, with great success in assisting industries, government, and citizens through the environmental regulatory processes.

During the 1995-97 biennium the Department has maintained or increased its efforts in the program areas of water, air, solid waste, hazardous waste, along with substantial involvement in the Federal Superfund program. The budget request found in the following pages continues the currently mandated programs, while striving to reallocate resources in order to accommodate the Department's needs. The most obvious reflection of this reallocation is found in the General Revenue funding of the Department. **The Department has requested a 25.7% decrease in its current general revenue allocations.** While requesting priorities for divisional programs, the Department has reduced its overall general revenue requirements by a major reduction in the state match allocation for the Revolving Loan Fund used for construction of waste water treatment facilities. A reduction to \$1.5 million from the \$4.7 million Base Level is requested for this program.

Other budgetary highlights include the following:

- The Air Division is working on the first Title V air permit to be issued under the recently revised Clean Air Act, which is anticipated to require major budgeting increases both in position authorization levels, and special revenue funded appropriation.
- The Data Processing Section of the Technical Services Division is undertaking the task of moving the Department from an environment utilizing terminals through the VAX computer to furnishing departmental employees with personal computers. This direction is dictated through requirements for connectivity to EPA, as well as the future plans to allow the regulated community access to the Department through the Internet. This major move is also accommodated in this budget request, with revenues supporting this process from general revenues, federal funds, and special revenues.
- The Solid Waste Division, while being supported from special revenues, does not collect adequate revenues to support its programs, and has requested general revenue funding for this support (see paragraph to follow on Solid Waste Division).

*ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999*

For the upcoming biennium the number of priority positions requested over the Base Level of 395 is categorized as follows:

FUNDING CATEGORY	FY1998	FY1999
General Revenue	23*	25*
Special Revenue	25	34
Trust Funds	2	2
Federal Funds	6	6
Unfunded	9**	9**
Total	65	76

* Includes a duplication of 7 positions currently found in the Solid Waste Division's special revenue funded Base Level budget request which would not need to be approved.

** Nine positions requested for flexibility purposes in the unknown needs as the Department moves toward a Block Grant approach to its federal funding for the Air and Hazardous Waste Programs, with no appropriation or funds requested for these positions.

If approved as requested, the Department's number of authorized positions would total 444 funded positions for FY98 and would total 455 funded positions for FY99. This is a reduction from the currently authorized level of 459 funded positions.

The following charts graphically depict the Department's budget request, both in funding to support programs, and the percentage those programs make up of the total budget request.

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

Estimated federal monies available to the department for this biennium are listed below, although full utilization of these funds is contingent on actual Congressional appropriations, availability of matching funds, if required, and specific grant requirements.

PROGRAM	ANNUAL AMOUNT
105 Air Program	\$750,000
Abandoned Mine Program (Admin)	\$385,000
State Revolving Loan Fund Program	\$800,000
RCRA Hazardous Waste	\$875,000
Permanent Mining Program	\$170,000
604(b) Water Quality Planning	\$100,000
104 (b) Stormwater Program	\$280,000
Underground Injection Control	\$90,000
106 Water Pollution Control	\$1,015,700
Superfund Program	\$465,000
Abandoned Mine Reclamation	\$2,200,000
106 Groundwater Program	\$135,000
Underground Storage Tanks	\$520,000
Small, Various Grants	\$340,000
Total	\$8,125,700

As the Department implements the requirements of Title V of the Clean Air Act, and approaches a block grant concept with the Section 105 Air Grant and the Hazardous Waste program, many areas are uncertain at this time as the exact impact of these measures. It is known at this time that any

revenues received under the Title V permitting functions can only be used for Title V approved activities. In one sense, this means that the federal government will be dictating to the state the utilization of special revenue funding. To account for this, the Department is taking steps to insure funding of other special revenue funded programs such as Solid Waste be supported through general revenue funding.

The department currently has several appropriations or line items within an appropriation which are utilized for specific purposes, as needed and funded, such as cleanup, remediation and closure activities, reclamation work, and provision of grants for Solid Waste, Recycling, and Waste Tires. While monies may become available during the biennium from existing or alternate sources to fully fund any or all of these, they currently reflect appropriation in excess of estimated funding. However, they are requested for approval at the total amount shown on the BR215 forms following, for contingency purposes and bond forfeitures, and are shown below (reflective of FY99 amounts):

APPRO #	TOTAL REQUESTED	CONTINGENCY	PURPOSE
059	\$9,000,000	\$9,000,000	Landfill Post-Closure Program (Contractual services)
1HR	\$4,650,000	\$2,315,000	Solid Waste & Recycling Program (Recycling Grants)
218	\$5,371,000	\$2,371,000	Waste Tire Recycling Program (Grants)
244	\$1,520,000	\$1,520,000	Mine Reclamation-Bond Forfeitures (Contractual Services)
245	\$6,500,000	\$6,000,000	Hazardous Waste Clean Up (Contractual Services)
248	\$500,000	\$500,000	Landfill Closure-Bond Forfeiture (Contractual Services)
250	\$43,474	\$30,000	State Marketing Bd for Recyclables (Professional Fees)
360	\$950,000	\$950,000	Non-Coal Reclamation-Bond Forfeiture (Contractual Services)
542	\$19,000,000	\$16,000,000	Petroleum Storage Tank Remediation (Operating Expenses)

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

The following paragraphs briefly describe the divisional needs requested as priorities over the Base Level budgets:

ADMINISTRATION

This group is composed of the Office of the Director and Deputy Directors; the Management Services Office comprised of the Fiscal Division, Personnel Section, Records Management Section, Operations Section, and the Emergency Response Section. Overhead support for all divisions and program areas is reflected in FY96 expenditures, but moved to Shared Resources for the remaining fiscal years. Further, during FY96 and previous years, the Legal Services Division was incorporated in the Administration Division, as well as the Wastewater Licensing Program and the Small Business Assistance Program. All these programs have been moved from the Division in an effort to better reflect a truer picture of the administrative functions of the Department.

The General Revenue (357) priority requests consists of four positions to assist in the various programs of the Division. One position will be utilized to create a Public Information Division; one position will be utilized by the Director's Office for clerical support; one position will address the vastly increased area of departmental personnel issues; and one position will be utilized for the property management team that currently keeps the Department running through 4 locations, soon to include the Water Division's move to the new State Police Headquarters. Equipment and support costs have also been requested to support these positions, and other areas of the Division.

Federal funds (358) totals \$2,000 each year, and would allow for the purchase of replacement furniture and/or office equipment.

The Special Revenue (246) request totals \$ 5,400 each year and covers minimal increases in operating expenses and equipment authorization that may be needed during the next biennium to handle the various program areas responses to departmental needs.

SHARED RESOURCES

This cost center reflects the Department's overhead costs, such as rent, utilities, phone services, vehicle maintenance, and other costs that are necessary for all the programs to operate. These costs are shared by funding sources allocated through general revenue distribution, federal programs, and special revenue generating programs. The FY97 budget reflects general revenues as supportive of approximately 18% of these costs; federal funding, approximately 45% of these costs; and special revenues, approximately 36% of these costs. A balance between these funding sources must be maintained to assure that the regulated communities are not unduly burdened by these costs as well as the program costs that they support; and between the federal funding sources that allow "indirect cost" rates to be applied to grants. General revenues and federal funding have

COMMENTARY

BR21

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

historically supported departmental overhead costs, with special revenues added within the last few years.

The priority requests for this area include costs from all three funding sources, and will cover the rental increase and phone service charges felt by the Department as some programs are relocated to the new State Police Headquarters. Federal funds have been requested as a contingency measure as the Department moves toward a block grant approach in several of its program areas. Special revenue funded increases will cover the overhead costs assumed when other divisions add additional employees, and the standard increases anticipated in vehicle maintenance, utilities, office supplies, etc.

LEGAL SERVICES DIVISION

This Division is responsible for all legal aspects of the Department, from contested permit actions, disputes between the regulated entities and the communities they are located, to internal personnel matters.

The Division's priority requests include an increase in Extra Help authorization, and an overall inflation of all operating categories. Capital Outlay has requested to be authorized in an effort to provide updated personal computers for the professional staff.

WATER POLLUTION CONTROL DIVISION

This division is responsible for the operation and management of ten water quality related programs 106 water pollution control, salt water disposal, underground injection control, water quality planning/standards, groundwater, clean lakes, confined animal wastes, the National Pollutant Discharge Elimination System (NPDES) Program, which includes the Federal stormwater program, and is seeking authorization for operation of the Part 503 Sewage Sludge program.

The division has requested increases in each of its three funding sources--general revenue, special revenue, and federal funding--as anticipated to handle its current program projected into the next biennium. This will include a larger in-state travel budget to be able to respond to its program requirements for extensive travel within Arkansas to cover program mandates. Equipment budgets have been included to cover replacement equipment and/or office furnishings.

General revenues have been requested to support an effort to address the brine pit closures program as found in south Arkansas. While the Division requested and received this authorization in the current biennium from special revenue sources, funding was not available to initiate this effort. The Water Division has requested an Engineer and 2 Inspector positions to be utilized in this program, along with the necessary support costs.

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

AIR POLLUTION CONTROL DIVISION

Responsibilities of this division involve implementation and operation of delegated permit programs in accordance with the provisions of the Federal Clean Air Act (CAA), maintenance of a program to assure attainment of Federally mandated ambient air standards in the State, with Arkansas being one of seven states in the nation to be in compliance with these standards, and provision of air quality monitoring, modeling, and development of emission standards. The program currently operated by the Department was delegated under the authority of the Clean Air Act of 1967; however, amendments in 1990 have substantially changed the requirements of the program and responsibilities of the Department.

The Air Division's budget request is centered upon continued implementation of Title V requirements of the Clean Air Act. The Division has requested special revenues to support an additional 18 positions in FY98, and another 9 positions in FY99 for this program. Funding is to be provided through Title V permit fees, which are regulated by the Environmental Protection Agency. These permit fees may only be used for Title V activities, and will have an allowable "indirect cost" rate which the Department will utilize to fund Shared Resources overhead costs, and part of other programs such as the Commission's Hearing Officer, the Customer Service Division, and the Small Business Assistance Program.

The Air Division also requested federal funding to support its Section 105 permitting program, which is tied to the Title V program indirectly. Appropriation was requested to allow authorization for operating expenses, travel, and capital outlay to accommodate program needs in the upcoming biennium.

ASBESTOS/LEAD PAINT PROGRAM

The Asbestos/Lead Paint Program area works with the asbestos licensing program as mandated through Act 395 of 1985, as amended. This Act called for the Department to adopt, administer, and enforce a program for licensing contractors engaged in the removal of friable asbestos materials from facilities. The Department is currently working on the establishment of a Lead Paint program, similar to the Asbestos Program. Legislation is anticipated to be introduced during the 1997 General Assembly for this program.

The priority requests for this program is centered on increased operational costs supported by special revenues, and Extra Help authorization to allow for flexibility in meeting program demands without employing additional full time personnel.

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

SOLID WASTE DIVISION

This division is responsible for programs necessary to provide for the siting, permitting and inspection of existing and proposed solid waste disposal facilities in the state. Acts 934 and 870 of 1989, Acts 747, 748, 749, 750, 751, 752, 319, and 1183 of 1991, and Act 1127 of 1993, placed additional responsibilities on the division in the areas of recycling grants, waste tire disposal, landfill operator licensing, and landfill post closure activities.

General revenue funding has been requested to support part of this program's current operations, by the duplication of seven special revenue funded positions. The bulk of the Division's budget is currently found in Appropriation 246, which is funded through permit fees on landfill owners/operators, landfill fees, and waste tire fees. The current revenue stream only provides approximately \$575,000 of the approximately \$850,000 budget found in this appropriation. As the other revenue producing permit fees from this fund source are needed for program areas, such as the Water program, and are restricted in use, such as the Air's Title V funding, alternative revenue sources must be found if Arkansas is to continue to have one of the best solid waste programs in the nation. Fees are felt to be at a maximum for landfill owners/operators, and as the solid waste loads in the landfills are reduced due to the strong recycling efforts of the Department and Arkansas communities, special revenue generating resources are scarce.

Additionally, the Solid Waste Division requested general revenue funding to support another 6 positions and support cost to enhance and expand its program. Program support costs through operating expenses, travel, and capital outlay were also requested.

The Solid Waste Division also requested retention of its current authorized level for the Waste Tire Grant program. The FY97 authorized level for this program is \$5,371,000, with Base Level reflecting \$4,500,000. The additional \$871,000 would be utilized if revenues are available to provide grants to the Solid Waste Management districts.

HAZARDOUS WASTE DIVISION

This division operates, under delegation from EPA, the Federal RCRA program, and the program authorized by the Hazardous and Solid Waste Amendments (HSWA) to the RCRA Act. During the 1993-95 biennium, the division assumed the lead in completion of remedial action at one Superfund site, and the possibility exists that additional projects, either under State or Federal funding, could be initiated during this biennium.

The Hazardous Waste Division requested 9 additional positions for efforts to reorganize the Division to make it more efficient and effective in meeting its federal and state mandates. The positions and supporting costs will come from special revenue fund sources, federal funding, and from the Remedial Action Trust fund. Data processing equipment was also requested to continue the Department's efforts began during FY96 to move from a VAX environment to a personal computer environment.

PROGRAM

COMMENTARY

BR21

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

REGULATED STORAGE TANK DIVISION

This division, which was created in response to the mandates of Acts 172 and 173 of 1989, as amended, is responsible for the implementation of state and federal laws and regulations concerning the installation, removal, modification and upgrading of both underground and aboveground petroleum product storage tanks in the state and currently estimated at some 20,000, including oversight of remedial activities to correct environmental problems at leaking tank sites. In addition to these duties, the division handles programs dealing with certification, licensing, financial liability, and appropriate reimbursement to parties taking corrective actions for leaking tanks utilizing revenues dedicated for this purpose.

The Regulated Storage Tank Division requested 2 additional positions and support costs funded through federal sources to provide technical assistance in remediation plan review and other program areas. Special revenue funding supports priority increases operational and equipment needs of the Division's programs.

CONSTRUCTION ASSISTANCE DIVISION

This division provides management of the municipal wastewater treatment construction program which has been delegated to the department by EPA and currently encompasses 77 active projects which are funded through the State Revolving Loan Fund. Estimates are that 4 additional projects will be initiated in FY98 with a comparable number in FY99, at a cost of some \$36 million. Federal funding plus financing fees resulting from bond issues will be available to fund division operations for this biennium.

Federal funding for Division operations is limited to 4% of the Federal Capitalization Grant. The 4% makes up approximately 50% of the Division's operating budget and the remaining 50% is acquired through financing fees paid by loan recipients.

During the current biennium, the Construction Assistance Division received general revenue funding for utilization in providing the state matching of Federal funds that provide financial assistance to communities in the construction of waste water treatment facilities. During FY97, a total of \$4,700,000 has been allocated and totally funded for this program. The Department has evaluated the program requirements for the upcoming biennium, and has reduced accordingly its general revenue need for this program to a level of \$1,500,000 each fiscal year. This allocation should be sufficient, along with the allocations distributed during FY96 and FY97, to meet the state match for the upcoming biennium.

COMMENTARY
BR21

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

SURFACE MINING AND RECLAMATION DIVISION

This division is responsible for all permitting, inspection and enforcement activities necessary to provide for appropriate land reclamation of open cut mining operations producing coal and lignite, as well as administration and operation of the Federal Abandoned Mine Lands (AML) program for reclamation of mining operations abandoned prior to 1977. Act 827 of 1991 required the Department to revise and update its regulations and procedures relative to non-coal mining; this legislation, was amended by Act 378 of 1993 to include regulatory authority over gravel removal from streams, and regulations for these provisions are currently being developed.

The division has requested federal funding to support its program's operational and equipment needs, as projected through its grant agreements. Non-revenue receipts as collected on coal and lignite mining operators supports a minimal increase for operational costs.

General revenue funding has been requested to support a Senior Geologist position and support costs to address stream bed mining operations in Arkansas.

TECHNICAL SERVICES DIVISION

This division is responsible for basic data acquisition, accompanying analytical services, and provision of data processing services for the entire department. Included in these programs are laboratories (water, air, hazardous waste), field surveys, computer services, operation of statewide network of air and water quality monitoring, and an environmental testing laboratory certification program created by Act 322 of 1993.

Priority requests for this Division are numerous, with an emphasis placed on the automation requirements of the Department. General revenue has been requested to cover the addition of a position and associated costs for the Department to provide information to the regulated community and the residents of the state via the Internet. As the Department continues to move from an environment of the VAX mini-computer to a large network of personal computers, training of existing and new staff will be crucial. General revenue has also been requested to support 1 position for this support in FY98 and 2 more positions in FY99. The necessary computer equipment to accommodate both of these requests is also found within the respective priorities. Special revenues has been requested to cover the training component of the data processing migration that is essential for the Department's continued smooth transition. The interest earnings of the Remedial Action Trust Fund (245) will continue to support the major hardware and software needs of the Department.

The Laboratory Section of Technical Services has requested 3 additional positions and associated costs, funded through special revenue. Two Ecologist positions would be used for sampling of trace level contaminants in waters of Arkansas, and on-site testing for bacterial quality at each sample site, thereby greatly contributing to the health and safety of all Arkansans. A Geologist position would be centrally located in the Technical Services Division for provision of ground water sampling, with a coordinated effort with other Departmental divisions. Operating and equipment

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

costs were requested along with the positions. The interest earnings of the Remedial Action Trust Fund will also supply the highly technical equipment required for accurate laboratory analysis. Appropriation supported by federal funding has been requested for maintenance contracts and laboratory supplies.

ENVIRONMENTAL PRESERVATION DIVISION

This division, originally authorized by Act 38 of 1971, was reactivated due to current complexities inherent in many programs and projects which directly or indirectly affect the environment, as well as the multiplicity of state and federal agencies and other parties that may become involved in one project or issue. The responsibility of this division is acting as a coordinating point, both within and outside the agency, to address these issues and to review and comment on projects proposed by other agencies and the public and private sectors. During 1994 the division assumed joint responsibility with the Arkansas Game and Fish Commission for operation of the Water Education Team (WET) program which involves working with secondary schools in all areas of the state to initiate and maintain programs which involve students and faculty in selected water quality monitoring projects.

The budget request for this Division is reflective of the federal funding anticipated to be received for such projects as the Assessment and Initiation of Improvements of Arkansas Dairy Waste Management Systems and Practices; Dead Animal Composting in the Buffalo River Watershed; and the Buffalo River Liquid Waste Management Demonstration Project. The Division's request covers the operational and equipment needs projected to be available through these federal grants.

The priority request from general revenue funds (696) reflects a **decrease** in needs of \$112,771 in FY98 and a **decrease** of \$177,771 in FY99. The Mercury Task Force requested this phase out of the program, as it has performed various studies including identifying the sources of mercury, examining potential solutions to the problem, and expanding the public information outreach program. The Task Force will attempt to conclude its activities at the end of the upcoming biennium, with its budget request reflecting this plan.

RECYCLING DIVISION

This division was created by Act 749 of 1991, and is responsible for assisting regional solid waste management districts, local governments, schools, and community groups in their development of a viable recycling infrastructure. Additional duties include coordination with other state agencies, school districts, colleges, and universities to assure compliance with the Governor's Executive Order 90-1 which mandates recycling by these entities.

The special revenue funded priority requests would add one position and support costs to continue to provide the educational support to the Regional Solid Waste Districts, local governments, schools and universities, and community groups in the development of a statewide recycling infrastructure. Also requested in additional operational costs for publications and equipment necessary to provide

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

an effective program. Retention of the current authorized level for the Grants line item is requested to have the flexibility to provide funding to the Districts if revenues become available for its disbursement.

STATE MARKETING BOARD DIVISION

This division is responsible for providing assistance to the State Marketing Board for Recyclables to carry out the legislative mandates of Act 749 of 1991 which involve tracking of marketing trends and development of markets for recyclables for use by potential clients. Act 991 of 1993 created the Arkansas Newspaper Recycling Advisory Committee, of which the Division Chief is a member, that acts in an advisory capacity to the Marketing Board.

The State Marketing Board has requested minimal special revenue funded increases in operational costs and equipment needs to continue to support its current programs.

HEARING OFFICER DIVISION

This division was created by Act 921 of 1993, which authorized the Pollution Control and Ecology Commission to hire a full-time, independent administrative hearing officer for purposes of adjudicatory review of Department decisions concerning permit issuance or revocation, assessment of civil penalties, and also serve as legal counsel to the Commission. The Act also specified the transfer of one employee, the Commission Secretary, to this division, and specified that the hearing officer would be independent of and not an employee of the Department. Act 1077 of 1993 provided appropriations for this division payable from the Department Fee Fund (SPE), allowed for transfers of appropriation for operating purposes from the Department's appropriation 246, and designated the Department as disbursing officer for funds appropriated by this Act.

The priority request from special revenues (344) would allow the Hearing Officer to employ a part-time law student to perform legal research for the Commission and the Hearing Officer. Along with this Extra Help position, the Hearing Officer has requested operational and equipment appropriation to support its program through the purchase of office equipment, a computer system, telephone, parking, office supplies, and other operational needs.

The general revenue funded priority would retain the current authorization level of \$10,000 for the Commission's training expenses appropriation. Base Level reflects \$9,500, which indicates a lowered level than authorized due to the requirements of Act 494 of 1993. This appropriation is to be used by the Pollution Control and Ecology Commission members for attendance at education and training seminars concerning environmental matters plus a once per year in-state planning retreat for Commission members. All expenditures from this appropriation are authorized by the Chairman of the Commission.

ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
1997 - 1999

CUSTOMER SERVICE DIVISION

The Customer Service Division was established during FY96, with the goal of providing accurate and reliable information to all the customers of the Department in a prompt and courteous manner. This will be accomplished by providing technical and regulatory assistance for both new and existing personnel meeting with new and existing industry to facilitate the permitting process, the provision of information to elected officials, the provision of education and outreach programs to civic groups, industry associations, etc, the holding of public meetings and hearings as requested, and the assistance in the resolution of complaints. This division was formed through the recruitment of employees within the Department that had an in depth knowledge of a media's processes, such as water, air, and solid waste. A budget was formed through a reallocation of existing resources, with the outcome being a proactive group that provides assistance as requested to strive to meet the environmental quality that is necessary to continue meeting state and federal requirements.

The priorities requested for the Customer Service Division is funded primarily through special revenues as needed for operational and equipment requirements projected into the 1997-99 biennium. A minimal amount of general revenue funding was requested to support the equipment and/or office furnishing needs of one existing position.

The Wastewater Licensing Program was also incorporated into this Division, and currently has its revenue source in a bank account. The Department is requesting a reallocation of the appropriation authorization, resulting in a net decrease, and is further requesting the depositing of these revenues into the State Treasury.

SMALL BUSINESS ASSISTANCE PROGRAM

This program was initiated by the Clean Air Act Ombudsman as an assistance program for those small businesses that may be overwhelmed with the environmental regulations required by both state and federal regulators. This program has sought out varied federal grants for the Department, and currently has a Pollution Prevention grant and a Small Business Leadership grant under its direction. This Program has recently initiated a "Mentor-Protege" program along with the Environmental Federation in which small businesses are paired with a larger business that has environmental experts available to explain and guide these smaller businesses through the regulatory processes.

The priority requests for the Small Business Assistance Program includes retention of currently authorized Miscellaneous Federal Grants, as well as increases in special revenue allocations of operating expenses and travel. As with the Customer Service Division, a budget was carved for this Program through a reallocation of current authorization levels, thereby making it necessary to request a more viable budget for the proper administration of this Program.

ARKANSAS DEPARTMENT OF POLLUTION CONTROL AND ECOLOGY
SUMMARY OF AUDIT FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 1995

Assets				Liabilities			Total Equity
Cash and Investments	Fixed	Other	Total	Current	Long-Term	Total	
\$ 39,896,406	\$ 4,906,038	\$ 3,113,796	\$ 47,916,240	\$ 489,181	\$ 779,235	\$ 1,268,416	\$ 46,647,824

Revenues					Expenditures					Other Source (Uses)
Inter-governmental	Federal	Licenses and Fees	Other	Total	Salaries and Matching	Grants and Aid	Capital	Other Operating	Total	
\$ 7,463,958	\$ 11,914,527	\$ 16,438,086	\$ 2,610,671	\$ 38,427,242	\$ 13,116,578	\$ 6,116,788	\$ 771,239	\$ 13,429,753	\$ 33,434,358	\$ 249,7

Findings

- PERSONAL SERVICES - PAYROLL - Ark. Code Ann. 19-4-521 provides that the extra help payroll classification be used to pay part-time or temporary employees who are employed 1,000 hours or less per year. One employee of the Agency was paid \$1,518.00 through the extra help payroll classification for 200 hours in excess of 1,000 hours.
- EQUIPMENT OBSERVATION - During the audit, the Agency was unable to locate seven [7] equipment items valued at \$493.00 out of eighty-two [82] items valued at \$98,864.18 selected for observation. Good internal controls require that the Agency provide adequate safeguards for assets and perform independent comparisons (physical inventory observations) of assets with recorded accountability. Also, Part V, Chapter I of the State Accounting Procedures Manual provides proper procedures for the investigation of unlocated equipment.

Recommendations

- Review and comply with Ark. Code Ann. 19-4-521.
- Implement improved internal control procedures over equipment and review and comply with Part V, Chapter 1 of the State Accounting Procedures Manual regard to equipment items that cannot be located.

PROGRAM AUTHORIZED	# POS. AUTH.	ADDITIONAL AUTHORIZED APPROPRIATION		STATUS
		FY 95-96	FY 96-97	

APPROPRIATION: A33 - WASTE WATER LICENSE -- CASH

Additional appropriation received to provide training for new and existing wastewater treatment operators		\$12,650	\$7,035	The additional appropriation was not utilized in FY96 but has been fully budgeted in FY97.
---	--	----------	---------	--

APPROPRIATION: 059 - LANDFILL POST-CLOSURE PROGRAM

Additional appropriation provided for equipment replacement and services required to correct and close landfills.		\$1,595,976	\$3,095,017	During FY96, the agency utilized 63% of the additional capital outlay appropriation and none of the contractual services. In FY97, the additional appropriation has been budgeted.
---	--	-------------	-------------	--

APPROPRIATION: 1HR - SOLID WASTE MANAGEMENT & RECYCLING PROGRAM

The Department received operating appropriation authority to promote statewide recycling programs.		\$14,146	\$14,146	The operational line items have not been fully utilized in FY96, nor fully budgeted in FY97
--	--	----------	----------	---

APPROPRIATION: 1HS - EMERGENCY RESPONSE PROGRAM

No new programs or expansions in the 1995-97 biennium.

APPROPRIATION: 1PM - HAZARDOUS WASTE PERMIT PROGRAM

Equipment purchases were approved to allow for site sampling needs of agency. Professional Fees and Services were provided to cover the costs of corrective action oversight by the Department.		\$245,011	\$237,570	In FY96, the Department utilized the capital outlay to provide necessary equipment for site sampling but did not need the additional Professional Fees and Services appropriation. The FY97 budget reflects utilization of 77% of the authorized appropriation.
---	--	-----------	-----------	---

APPROPRIATION: 2JX - HAZARDOUS WASTE MANAGEMENT PROGRAM

No new programs or expansions in the 1995-97 biennium.

SUMMARY
STATUS OF NEW PROGRAMS/EXPANSIONS AUTHORIZED BY THE 80TH GENERAL ASSEMBLY
 AGENCY:DEPARTMENT OF POLLUTION CONTROL & ECOLOGY(930)

PROGRAM AUTHORIZED	# POS. AUTH.	ADDITIONAL AUTHORIZED APPROPRIATION		STATUS
		FY 95-96	FY 96-97	
<u>APPROPRIATION: 218 - WASTE TIRE RECYCLING PROGRAM</u>				
The Department received additional appropriation to provide waste tire recycling grants to local communities.		\$2,500,000	\$2,500,000	The Department did not utilize the appropriation during FY96 but has budgeted 65% of the appropriation in FY97.
<u>APPROPRIATION: 242 - RECLAMATION OF ABANDONED MINES</u>				
		No new programs or expansions in the 1995-97 biennium.		
<u>APPROPRIATION: 243 - SURFACE COAL MINING</u>				
		No new programs or expansions in the 1995-97 biennium.		
<u>APPROPRIATION: 244 - MINING RECLAMATION</u>				
		No new programs or expansions in the 1995-97 biennium.		
<u>APPROPRIATION: 245 - HAZARDOUS WASTE CLEAN UP</u>				
The Department received an additional \$1 million each year in Contractual Services to process the State's 10% share of redemption associated with the State and Federal Superfund Program. Capital Outlay received appropriation authorization of \$429,232 in FY96 and \$245,036 in FY97. Professional Fees received \$200,000 each year to handle future contract needs of the program.		\$1,629,232	\$1,445,036	During FY96, Professional Fees and Contractual Services were not utilized by the Department, while a majority of the Capital Outlay was spent. The Department has budgeted 98% of the additional appropriation in FY97.

AGENCY:DEPARTMENT OF POLLUTION CONTROL & ECOLOGY(930)

PROGRAM AUTHORIZED	# POS. AUTH.	ADDITIONAL AUTHORIZED APPROPRIATION		STATUS
		FY 95-96	FY 96-97	

APPROPRIATION: 246 - FEE ADMINISTRATION

Positions and Operational appropriation were authorized to respond to the needs of the Water, Air and Solid Waste Programs as mandated by state and federal legislation.	33	\$1,451,721	\$1,258,873	During FY96, the Department utilized position and appropriation authority approved by the General Assembly. The appropriation has been budgeted in FY97 in accordance with the Department's funding and Personnel CAP restrictions.
--	----	-------------	-------------	---

APPROPRIATION: 248 - SOLID WASTE PERFORMANCE BONDS PROGRAM

No new programs or expansions in the 1995-97 biennium.

APPROPRIATION: 249 - ASBESTOS CONTROL PROGRAM

No new programs or expansions in the 1995-97 biennium.

APPROPRIATION: 250 - STATE MARKETING BOARD FOR RECYCLABLES PROGRAM

Additional appropriation was provided to contract for research and marketing strategies associated with recycled goods.		\$15,000	\$17,000	The Department did not utilize the additional appropriation in FY96, but has budgeted 79% of the increase in FY97.
---	--	----------	----------	--

APPROPRIATION: 260 - ENVIRONMENTAL EDUCATION PROGRAM

Additional appropriation provided for Professional Fees and Services associated with the Water Education Team Program(WET).		\$31,000	\$31,000	The Department did not utilize the additional appropriation in FY96, but has budgeted 95% of the increase in FY97.
---	--	----------	----------	--

SUMMARY
STATUS OF NEW PROGRAMS/EXPANSIONS AUTHORIZED BY THE 80TH GENERAL ASSEMBLY
 AGENCY:DEPARTMENT OF POLLUTION CONTROL & ECOLOGY(930)

PROGRAM AUTHORIZED	# POS. AUTH.	ADDITIONAL AUTHORIZED APPROPRIATION		STATUS
		FY 95-96	FY 96-97	
<u>APPROPRIATION: 344 - PCE COMMISSION-ADMIN HEARING OFFICER</u>				
The PCE Commission was authorized an appropriation for one legal position and supporting operational costs.	1	\$50,778	\$53,883	The position providing legal advice to the Commission has been utilized in FY96 and budgeted in FY97. The Administrative Hearing Officer utilized 19% of the additional operating appropriation in FY96 and has budgeted 85% of the increase provided in FY97.
<u>APPROPRIATION: 357 - STATE OPERATIONS</u>				
The additional position and operational appropriation were authorized to provide support for the Environmental Preservation Division of the Department.	1	\$63,248	\$54,478	The Division utilized the position in FY96 and has budgeted it in FY97. The operational appropriation was spent in FY96 and has been budgeted in FY97 at the level provided by the General Assembly.
<u>APPROPRIATION: 358 - FEDERAL OPERATIONS</u>				
Additional positions and operational appropriation were authorized to provide for expenditure of anticipated federal funding, covering almost all areas of the Department.	18	\$863,894	\$795,355	During FY96, the Department utilized position and appropriation authority as approved by the General Assembly. The budgeted amounts in FY97 will support 94 positions and operational expenses as authorized and supported by anticipated federal funds.
<u>APPROPRIATION: 360 - LAND RECLAMATION</u>				

No new programs or expansions in the 1995-97 biennium.

DEPARTMENT Department of Pollution Control & Ecology (930)	DIRECTOR Randall Mathis				DEPARTMENT PROGRAM SUMMARY BR 22			

ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999

This appropriation is used to operate the Waste Water Licensing Program, which is funded through licensing fees deposited into a cash fund. The Department's budget request totals \$56,005 in FY98 and \$53,957 in FY99, including one position. The priority request would eliminate the amount authorized for Professional Services, and reallocate the appropriation to Operating Expenses, Travel, and Capital Outlay. The priority request will result in a net reduction to Base Level. This priority request would allow the Waste Water Licensing Section to better serve Arkansas' wastewater operators by attending district meetings, publication of quarterly newsletter, as well as provide closer interaction with the Arkansas Environmental Academy on testing of operators. Funding is anticipated to be adequate to cover the requested budget level.

The Executive Recommendation provides for Agency Request, which includes appropriation for a 2.8% Cost of Living Allowance for the position on July 1 of each year of the biennium along with accompanying employee matching requirements.

<p>The Wastewater Licensing Section has requested to realign the amount listed in professional services, moving the amounts to Operating Expenses, Travel, and Capital Outlay. This will allow better service to Arkansas' wastewater operators by the attendance of district meetings, publication of a quarterly newsletter, and scheduling and conducting wastewater licensing exams. The Wastewater Licensing Committee would be better served by employees attending subcommittee meetings (e.g., Technical Review Committee), by keeping the Wastewater Treatment Plant Operators Handbook up to date, and by performing all the administrative duties of the Committee. Closer interaction with the Arkansas Environmental Academy on testing of the operators would also be accomplished, as would better tests, and the accurate recording of training hours. Attendance of AWEF annual conferences and ABC annual conferences is requested in order to network with other agencies that have similar certification programs.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Landfill Post-Closure Program was created by Act 747 of 1991 (A.C.A. §8-6-1001) to address corrective actions which may be necessary to properly clean up a previously closed landfill, so that no harm is caused to the public health or the environment. Funding is derived from landfill disposal fees and transportation fees, as well as fees imposed on solid waste generated in the state, but not disposed of in a solid waste facility within the state. Funding is capped at \$10 Million, with no additional monies collected once this level is reached, however collections are reinstated once the fund diminishes to \$6 Million. Further, only 4% of the monies received annually can be used for administration of this program.

The budget request for this program reflects a Base Level of \$9,046,053 in FY98 and \$9,046,895 in FY99 and a priority request for Capital Outlay of \$2,000 each year. Capital Outlay will be utilized to provide technical equipment and to replace office furniture and equipment as needed.

The Executive Recommendation provides for Agency Request.

Expenditure of appropriation is contingent on available funding.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Act 849 of 1989 established a Solid Waste Management and Recycling Fund to assist counties, cities, and solid waste authorities in the development of solid waste management plans, programs, and facilities that integrate recycling as a functional part of the solid waste management system. During the 79th General Assembly, further legislation was adopted strengthening the recycling aspect of solid waste management. Funding for this program is from landfill disposal fees collected pursuant to legislative enactments.

The budget request for this program reflects a Base Level of \$3,115,539 in FY98 and \$3,133,148 in FY99, including 18 positions. The majority of appropriation is utilized for payment of Recycling Grants, with a Base Level of \$2,335,000 each fiscal year. Priorities requested total \$2,359,459 and \$2,352,418 each year respectively, and provide 1 additional position. The position and associated support costs would enable the Department to continue to provide educational support personnel to Regional Solid Waste Management Districts, local governments, schools, and universities in the development of a statewide recycling infrastructure. In addition, the Department has requested to retain the FY97 authorized level for Recycling Grants, in the event additional funding becomes available for distribution to the Regional Solid Waste Management Districts.

The Executive Recommendation reflects approval of \$2,315,00 each fiscal for Recycling Grants and Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements.

Expenditure of appropriation is contingent on available funding.

<p>The Recycling Division has requested retention of the currently authorized level of Recycling Grants, in the event that funding becomes available for distribution to the Regional Solid Waste Management Districts. The Division disbursed some \$2,250,000 to the seventeen Districts in FY96, with the same budgeted for FY97. The Districts, in turn, award grants to member cities and counties for recycling programs and facilities, composting operations, public education and awareness programs, and for recycling market development. Prior to the initiation of the grant program in 1991, there were only 3 public recycling programs in the entire state. Today, there are 105 public drop-off programs, 41 curbside recycling programs, and 6 publicly owned material recovery facilities.</p>														
002		TWS	930 1HR 110 RECYCLING DIVISION	P01		0	35,859 1	32,318 1						
<p>The position requested and the accompanying expenses are necessary to continue to provide the education support to Regional Solid Waste Management Districts, local government, schools and university and community groups in the development of a statewide recycling infrastructure. Education is the key to the success of any recycling program and the position is needed to provide the level of assistance required by developing educational curricula for schools to increase environmental awareness; making presentations to various groups and organizations; conducting workshops and training sessions; and the maintainment and development of educational resources. Educational efforts of the Division have been directed by an employee of the State Cooperative Extension Service working with the Division through a cooperative venture. This employee is returning to her agency and a void will be created without the position requested.</p>

<p>The primary function of the Recycling Division is to provide technical assistance and public education to Regional Solid Waste Management Districts, local governments, schools and universities and community groups in the development of statewide recycling infrastructure with an emphasis on quality control of collected materials. To provide this level of assistance requires constant travel. The Division has just recently become fully staffed and existed funds are inadequate to provide the level of service necessary to provide complete and effective assistance. The Division also requires additional funds for publications to keep abreast of latest technologies, equipment and strategies in recycling and additional funding is needed to purchase additional educational materials and supplies used in conducting workshops and training sessions.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

This appropriation was created by Act 452 of 1985 (A.C.A. §8-7-401) in order to give spending authorization to the Emergency Response Program. Funds are appropriated to be used for the purchase/reimbursement of any commodities and/or services necessary in taking response actions in connection with a release or a threatened release of hazardous substances. Further, the Director is not authorized to spend in excess of \$30,000 on any single response action without Commission approval. Funding is derived from penalties levied pursuant to the Air and Water Act, Hazardous Waste Management Act and Solid Waste Act, with no more than \$150,000 in the Fund at any one time. Excesses of this amount are to be deposited into the Remedial Action Trust Fund (Appropriation 245).

The Department has requested a Base Level budget of \$488,211 in FY98 and \$490,878 in FY99.

The Executive Recommendation provides for Agency Request, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements.

Expenditure of appropriation is contingent on available funding.

APPROPRIATION SUMMARY
 BR 215

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

This appropriation is one of two used for operation of the Hazardous Waste Permit Program. Fees were established to recover the costs of processing permit applications and permit renewal proceedings; on-site inspections and monitoring; the certification of personnel to operate hazardous waste treatment, storage, or disposal facilities; and other departmental activities to assure that generators and transporters of hazardous waste and facilities are complying with current law. Funding is derived from fees charged to owners or operators of disposal sites, and generators and transporters of hazardous waste. In addition, the Hazardous Waste Program is supported Federal funds as well as by the ENSCO plant in El Dorado. In 1988, the Department entered into a monitoring agreement with ENSCO, where the Department is responsible for monitoring the incineration of hazardous compounds at the plant. ENSCO reimburses the Department in full for its expense in these activities. Currently, two positions are utilized at ENSCO.

The budget request reflects a Base Level of \$1,242,385 in FY98 and \$1,265,712 in FY99, covering 20 positions. Priority requests total \$289,987 in FY98 and \$282,529 in FY99. Priority requests for three positions and related costs total \$145,912 in FY98 and \$126,680 in FY99. The positions include Technical Assistance Manager (Grade 24), Senior Geologist (Grade 21), and Hazardous Waste Inspector (Grade 20). The Technical Assistance Manager would allow the Hazardous Waste Division to streamline procedures and combine three program areas under one manager. The Senior Geologist would provide expert sampling and evaluation of groundwater for all divisions. The Hazardous Waste Inspector would supply resources for compliance monitoring activities. A request totaling \$2,575 in FY98 and \$2,649 is to reclassify a Grade 10 Data Entry Specialist to a Grade 13 Computer Operator. In addition, Operating Expenses totaling \$10,000 each year are requested to provide lab materials and supplies for the testing of waste materials. A priority request of \$131,500 in FY98 and \$143,200 in FY99 would provide additional appropriation for oversight and cleanup of active hazardous waste sites.

The Executive Recommendation provides for Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. The Executive Recommendation does not address the agency request for Reclassification of a position at this time. Expenditure of appropriation is contingent on available funding.

<p>The Hazardous Waste Division has requested items necessary in order to continue to support the operation of the federally authorized hazardous waste management program. The data processing costs are essential to upgrade or replace aging computers. The sophistication of new software supporting the programs have rendered many of the computers currently in use obsolete. Some 32-bit software will be required beginning in FY97, with many of the existing computers not capable of operating such software. Photographic needs are required in order to replace equipment and/or purchase new technology equipment. Additionally, appropriation is needed to provide oversight for cleanup at active sites (with actual costs to be reimbursed to the Department by site owner/operator).</p>																																			
	SHW	930 1PH 090	TECHNICAL SERVICES DIV	P02		0	10,000																												
<p>This lab supplies budget is needed to cover additional requirements for the testing of waste materials to determine compliance with regulations. Additional costs are anticipated due to purchases of NIST traceable standards and supplies for expanded testing. Testing now includes dioxin and furan testing, which was previously tested by contract labs. Recent changes in the calibration requirements for instruments has increased the number and amount of standards used.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

This appropriation was established by the 77th General Assembly in relation to the passage of Act 643 of 1989. This piece of legislation provided further strengthening of the Hazardous Waste Management laws pursuant to the federal Resource Conservation and Recovery Act of 1976, as amended. Funding is derived from fees assessed on generators, transporters, and owner/operators of hazardous waste management facilities; these same fees also support the Hazardous Waste Management Permit Program.

Base Level for this program totals \$200,856 in FY98 and \$205,354 in FY99, which includes 5 positions. The Department requested an additional \$6,150 in FY98 and \$4,650 in FY99 in Operating Expenses and Capital Outlay. This priority would allow the Department to update computer equipment and software. Salaries and matching totaling \$26,723 in FY98 and \$27,386 in FY99 are requested to hire a Management Project Analyst. This position would provide technical assistance and quality control for data input. Additional increases totaling \$6,690 in FY98 and \$2,765 in FY99 for Operating Expense, Conference Fees & Travel, and Capital Outlay are requested to provide support for the new position.

The Executive Recommendation provides for Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements.

Expenditure of appropriation is contingent on available funding.

APPROPRIATION SUMMARY

BR 215

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Waste Tire Recycling Program was created by Act 749 of 1991 (ACA 8-9-404). The funding for this program is derived from a fee imposed beginning July 1, 1991 on the sale of each new motor vehicle tire sold at retail at a rate of \$1.50 per tire. The fee imposed, less 7.5% retained by the tire retailer, is used for grants to the state's solid waste boards. A total of 10% of the monies collected is transferred to the Department's Permit Fee Fund for administrative program support. In addition to the fee imposed on new tires, a \$1 fee is imposed on all waste tires imported into Arkansas. This appropriation is used to disburse Tire Recycling Grant Funds to the Regional Solid Waste Management Districts.

The Department's budget request reflects a Base Level of \$4.5 million each fiscal year, as well as a priority request of \$871,000 each fiscal year. This priority request would allow the Solid Waste Division to retain the currently authorized level of Waste Tire Grants in the event additional funding becomes available for distribution to the Regional Solid Waste Management Districts.

The Executive Recommendation provides for Agency Request.

Expenditure of appropriation is contingent on available funding.

1997 - 1999**

The Department utilizes the Reclamation of Abandoned Mines appropriation to expend funds received from the U.S. Department of Interior - Office of Surface Mining for reclamation of land that was mined prior to the adoption of mining regulations in 1977. The Department is requesting the Base Level appropriation of \$5,700,000 each fiscal year.

The Executive Recommendation provides for Agency Request.

Expenditure of appropriation is contingent upon receipt of federal funding.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Department utilizes this appropriation to administer and enforce the Arkansas Surface Coal Mining Reclamation Code. The Surface Coal Mining appropriation is funded through permit fees collected from coal and lignite mining operations. The Department requested a Base Level budget totaling \$5,451 each fiscal year, with priority requests for additional Operating Expenses and Capital Outlay totaling \$2,600 in FY98 and \$1,150 in FY99. The Department would use the additional appropriation to sustain the inspection and enforcement program.

The Executive Recommendation reflects approval of the Base Level budget request, with an additional \$1,000 in FY98 and \$500 in FY99 for Operating Expenses.

Expenditure of appropriation is contingent on available funding.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Department utilizes this appropriation for bond forfeitures on coal or lignite mined lands. When a person or persons cut mine land in Arkansas for coal or lignite, a bond must be put up in the amount agreed upon by the Department for reclamation of the area. In the event the person fails in reclamation efforts, the bond is forfeited and the Department is responsible for contracting for the reclamation work.

The budget request reflects a Base Level of \$1,520,000 each fiscal year.

The Executive Recommendation provides for Agency Request.

Expenditure of appropriation is contingent on available funding.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Hazardous Substance Remedial Action Trust Fund was established by Act 479 of 1985 (ACA §8-7-509). Funding is derived from fees on the generation of hazardous waste, and from waste that is either treated, stored or disposed of in Arkansas, plus any penalties collected from the Air, Water, Solid and Hazardous Waste users, and interest accrued to the fund. This appropriation supports the responsibilities placed on the Department through this legislation. The Department utilizes this appropriation for administrative cost and expense, state match portion to federal Superfund clean-up funds, and expenses of providing for inspection, identification, containment, abatement, treatment, and/or control of hazardous substance sites with the State. The appropriation requested for the 1997-99 biennium reflects a large portion of unfunded appropriation, to provide the Department with spending authority in the event clean up activities are required.

The Base Level budget for this appropriation totals \$7,258,623 in FY98 and \$7,262,243 in FY99, and includes 4 positions. The Department has requested priorities totaling \$477,364 in FY98 and \$537,985 in FY99. The requested priorities are reflected by Division as follows:

Hazardous Waste Division

The Hazardous Waste Division requested an Engineer, PE position, with Salary and Matching costs totaling \$43,325 in FY98 and \$44,455 in FY99. Additional increases of \$16,800 in FY98 and \$12,200 in FY99 for Operating Expenses, Conference Fees & Travel, Professional Fees and Capital Outlay are requested to support the new position. This request will provide the resources to implement the Brownsfield redevelopment program.

An Inspector Supervisor position is requested to provide first line supervision of field staff implementing the Brownsfield program. Salary and matching costs total \$35,229 in FY98 and \$36,130 in FY99. Additional increases of \$14,500 in FY98 and \$10,300 in FY99 for Operating Expenses, Conference Fees & Travel, Professional Fees, and Capital Outlay are requested to support the new position.

Operating Expenses and Capital Outlay totaling \$16,510 in FY98 and \$13,400 in FY99 are requested to support ongoing "State Superfund" site cleanup and maintenance activities.

Technical Services Division

The Technical Services Division requested Capital Outlay totaling \$67,000 in FY98 and \$328,000 in FY99, to upgrade computer equipment, and in FY99 the Department plans to change approximately 300 PC's from DEC Pathworks/Novell software to Windows NT software.

In addition, the Technical Services Division requested Capital Outlay totaling \$284,000 in FY98 and \$93,500 in FY99 to provide an automated chemistry system, an argon plasma/mass spectrometer and other lab equipment.

The Executive Recommendation provides for Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements.

<p>The requested equipment will provide for replacement of out-dated equipment and add an instrument for very low level metals testing in environmental samples. The metals values will verify compliance with the EPA's National Toxics Rule, which requires an inductively coupled argon plasma/mass spectrometer (\$150,000) to reach these levels and a clean room (\$25,000) to prepare sample containers that are not lab contaminated. The other major purchase is an automated chemistry system to replace a 20 year old model (\$70,000). The funding for these purchases would be derived from the interest earnings of the Remedial Action Trust Fund.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Act 817 of 1983, as amended, authorized the Commission of the Department of Pollution Control and Ecology to establish and collect permit fees for Air, Water, and Solid Waste permitting, monitoring and inspecting activities. During the 79th General Assembly, various limits on permits were included, with the Commission revising the rate structures. The fees, as established by the Commission in accordance with stipulations set out in the Act, were increased effective in October 1993. Further, the federal Clean Air Act has required a permit fee system to cover the costs of compliance with this law.

Base Level for this appropriation totals \$7,496,939 in FY98 and \$7,66,770 in FY99 and includes 165 positions. Priorities requested total \$1,172,581 in FY98 and \$1,436,769 in FY99. The request by Division is as follows:

Administration Division

Additional increases totaling \$5,400 each fiscal year for Operating Expenses and Capital Outlay are requested to provide support for departmental programs and replace office equipment and furniture.

Shared Resources

Additional increases totaling \$86,500 each fiscal year for Operating Expenses are requested to support overhead costs associated with positions requested by various Divisions.

Air Pollution Control Division

Salaries and Matching costs totaling \$638,045 in FY98 and \$893,776 in FY99 are requested to support a total of 27 positions. Only 18 of the positions are requested during the first year of the biennium. Additional increases totaling \$61,825 in FY98 and \$60,650 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to support these new positions. These positions will be used to develop pollution control strategies for maintaining air quality as authorized by the federal Title V Program.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Additional increases totaling \$121,350 in FY98 and \$106,575 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to provide support costs for 71 existing employees.

Technical Services Division

Additional increases totaling \$33,683 each fiscal year for Extra Help, Matching, Operating Expenses, Conference Fees and Travel, and Capital Outlay to provide training and support services to continue to migrate large systems such as Permit Data System and Invoice Auditing System to a relational data base structure.

Salaries and Matching totaling \$59,850 in FY98 and \$61,358 in FY99 are requested to hire two Ecologist to provide expert sampling skills for trace level contaminants in water. Additional increases totaling \$79,380 in FY98 and \$38,401 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to provide support for these positions.

Water Pollution Control Division

Salaries and Matching costs totaling \$564 in FY98 and \$581 in FY99 are requested to reclassify a Management Project Analyst I, Grade 18 to a Senior Programmer Analyst, Grade 21.

Additional increases totaling \$47,743 in FY98 and \$43,275 in FY99 for Operating Expenses and Capital Outlay are requested to maintain the Department's current level of inspections and complaint investigations.

Asbestos/Lead Paint

Salaries and Matching totaling \$1,140 in FY98 and \$1,170 in FY99 are requested to reclassify two Pollution Control Inspectors, Grade 19 to Hazardous Waste Inspectors, Grade 20.

AGENCY	APPROPRIATION	TREASURY FUND	ANALYSIS OF BUDGET REQUEST	PAGE

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Additional increases totaling \$2,200 in FY98 and \$4,800 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to provide operational and equipment costs associated with licensing and certification of individuals involved in asbestos demolition/renovation projects in compliance with grant requirements.

Solid Waste Division

Salaries and Matching totaling \$755 in FY98 and \$776 in FY99 are requested to reclassify a Program Support Manager, Grade 22 to a Technical Assistance Manager, Grade 24.

Customer Service Division

Additional increases totaling \$13,279 in FY98 and \$7,084 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to provide equipment and supplies for this new Division.

Small Business Assistance

Additional increase totaling \$20,867 in FY98 and \$23,184 in FY99 for Operating Expenses are requested to assist the Division in providing educational workshops on federal and state environmental regulations.

The Executive Recommendations reflects approval for 18 positions, \$80,000 for Capital Outlay each fiscal year, and Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. The Executive Recommendation does not address agency requests for Reclassifications of positions at this time.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Department utilizes this appropriation for payment to contractors for the proper closure of solid waste facilities. If a city, county, or individual in Arkansas were to open a landfill, a performance bond would be put up to insure proper closure of the site once it is complete. If the site does not meet requirements of the DPCE Commission, the bond is forfeited and the work is contracted by the Department. The budget request reflects a Base Level of \$500,000 each fiscal year.

The Executive Recommendation provides for Agency Request.

Expenditure of appropriation is contingent on available funding.

APPROPRIATION SUMMARY

BR 215

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Asbestos Control Program utilizes this appropriation to provide spending authority for responsibilities placed on the Department through Act 394 of 1985. This Act called for the Department to adopt, administer, and enforce a program for licensing contractors engaged in the removal of friable asbestos materials from facilities. Funding is derived from an annual contractors license fee of \$300 and fee of \$25 for asbestos removal workers to cover program costs.

The Base Level budget for this program totals \$129,077 in FY98 and \$131,805 in FY99 and includes three positions. Priority requests total \$15,569 in FY98 and \$16,847 in FY99. The Department has requested the following priorities:

- Additional increases totaling \$9,580 in FY98 and \$10,480 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to provide ongoing operational and equipment costs.
- One Extra Help position with associated matching costs totaling \$5,383 each fiscal year. This position would provide program support as needed.
- Additional increases totaling \$606 in FY98 and \$624 in FY99 for Salaries and Matching costs are requested to reclassify a Pollution Control Inspector, Grade 19 to a Hazardous Waste Inspector, Grade 20.

The Executive Recommendations provides for Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. The Executive Recommendations does not address the agency request for Reclassification of a position at this time. Expenditure of appropriation is contingent on available funding.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The State Marketing Board for Recyclables was created by the 78th General Assembly through Act 749 of 1991 (A.C.A. §8-9-201 and 8-6-607). The Board's responsibilities include the development of a program coordinating all existing marketing programs for recyclables as well as an overall marketing plan for Arkansas recyclables; the establishment of an inventory of markets for recyclables in Arkansas and surrounding states with maintenance of current market prices and trends; the working with new and existing industries to encourage the use of recyclables in the manufacturing processes; and the advising and assisting of state and local officials in all areas of recyclables marketing.

Act 755 of 1991, as amended, provides the Board's funding from 25% of the disposal fees collected from landfills where a private industry bears the expense of operating and maintaining the landfill solely for the disposal of wastes generated by the industry. The remaining 75% of the disposal fees which fund the Solid Waste Management and Recycling Program is found in appropriation 1HR. The Department's budget request reflects a Base Level appropriation of \$66,985 each fiscal year, with a priority request for additional appropriation totaling \$9,500 in FY98 and \$10,500 in FY99. This priority request would provide the Department additional appropriation for professional contracts, educational and training seminars, and other related expenses to successfully develop markets for recyclable commodities.

The Executive Recommendation provides for Base Level.

Expenditure of appropriation is contingent on available funding.

<p>In order for the Marketing Division to meet the legislative mandates found in Act 749 of 1991, these items will be necessary for the biennial budget. Successful Market Development for Recyclable commodities are conditional upon the establishment and nurturing of relationships. In order for the marketing staff to foster relationships with persons of the required caliber, it is necessary to approach them on their turf; hence, the necessity for this budget authorization. In keeping with the task of making the marketing information available to the public, additional monies for professional contracts, educational and training seminars, capital outlay, and the printing of Markets Inventory Directory will be necessary.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The appropriation for the Environmental Education Program was created by the 78th General Assembly to provide environmental educational materials and training. Funding is derived from a 10% set aside of the monies collected for the Hazardous Substance Remedial Action Trust Fund. This set aside cannot exceed \$275,000 per fiscal year (ACA §8-7-509d). The Department's budget request reflects a Base Level of \$180,291 in FY98 and \$181,713 in FY99, and covers one position. In addition, the Department requested an increase in Operating Expenses of \$5,000 each fiscal year. The additional Operating Expenses would provide educational activities to help small business understand federal and state environmental regulations.

The Executive Recommendation provides for Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for the position on July 1 of each year of the biennium along with accompanying employee matching requirements. Expenditure of appropriation is contingency on available funding.

<p>The Small Business Assistance and Ombudsman functions were established through the provisions of Act 251 of 1993; and these budget levels will be necessary for the biennial budget period if legislative mandates are to be accomplished. Essentially this budget section encourages small business to voluntarily comply with environmental regulations without fear of undue enforcement action. Assistance is provided to help small business understand federal and state environmental regulations and to evaluate proposed environmental regulations for impact on small business. Educational activities are conducted through workshops on environmental topics; and direct assistance is provided through the use of retired business managers. All services provided are evaluated by a Compliance Panel appointed by the Senate, the House of Representatives, and the Governor.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Hearing Officer Division was created by Act 921 of 1993, which authorized the Pollution Control and Ecology Commission to hire a full-time, independent administrative hearing officer for the purposes of adjudicatory review of Department decisions concerning permit issuance or revocation, assessment of civil penalties. Act 1077 of 1993 provided appropriations for this Division payable from the Department Fee Fund (SPE). Funding for this appropriation is derived from special revenues transferred from the Department Fee Fund.

Base Level for this appropriation totals \$194,863 in FY98 and \$198,355 in FY99, which includes 3 positions. The Department has one priority request totaling \$37,488 in FY98 and \$39,203 in FY99. The request includes one additional Extra Help position needed to employ a part-time law student to perform legal research for the Commission Hearing Officer. Additional increases in Operating Expenses, Conference Fees & Travel, Professional Fees & Services, and Capital Outlay are requested to provide associated support costs.

The Executive Recommendation provides for Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. Expenditure of appropriation is contingent on available funding.

<p>The Commission's Hearing Officer Division requests increased funding to employ a part-time law student to perform legal research for the Commission and Hearing Officer. This is shown as Extra Help. To support the law student, funds for the purchase of office equipment, a computer system, telephone, parking, office supplies, and personnel matching is requested. Operating Expenses have been increased to reflect anticipated cost increases in all categories. Funds are requested to purchase legal research through Westlaw, LOIS, and the Environmental Law Reporter. Conference fees and travel have been increased slightly to reflect anticipated cost increases during the biennium. Contract fees for court reporters in increased to provide for the purchase of hearing transcripts. Capital Outlay funds are requested to support the part-time law student and to purchase filing cabinets, bookcases, to replace and repair data processing equipment, and to purchase office machines.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Historically, this appropriation has been used by the Department of Pollution Control and Ecology for general operations of various programs and for matching of federal grants. Basically, the appropriation is general revenue funded with a minimal amount from Non Revenue Receipt deposits. Also, \$35,000 each year is contributed by two other state agencies: \$10,000 from Oil and Gas Commission and \$25,000 from Game and Fish Commission. Merit Adjustment Funds were provided during the current biennium to cover the costs of the payplan as enacted by the 80th General Assembly.

The Base Level budget for the 1997-99 biennium reflects appropriation totaling \$3,336,584 in FY98 and \$3,408,778 in FY99, and includes 57 positions. The Department has requested General Revenue to fund priorities totaling \$1,086,090 in FY98 and \$1,077,066 in FY99. The requested priorities are reflected by Division as follows:

Water Pollution Control Division

Salary and Matching costs totaling \$1,208 in FY98 and \$1,241 in FY99 are requested to reclassify a Program Support Manager, Grade 22 to a Technical Assistance Manager, Grade 24.

Salaries and Matching costs totaling \$99,939 in FY98 and \$102,488 in FY99 are requested to hire an Inspection Engineer and two Pollution Control Inspectors. Additional increases totaling \$4,250 in FY98 and \$4,428 in FY99 for Operating Expense and Capital Outlay are requested to support the new positions. The positions will supplement existing staff to address the problem of brine pit closures in the oil fields.

Additional increases totaling \$41,982 in FY98 and \$12,739 in FY99 for Operating Expenses, Conference Fees and Travel, and Capital outlay are requested to maintain current inspection levels and complaint investigation services.

Technical Services Division

Salary and Matching costs totaling \$1,081 in FY98 and \$1,111 in FY99 are requested to reclassify a Senior Programmer/Analyst, Grade 21 to an Applications & Systems Manager, Grade 23.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Salary and Matching costs totaling \$31,704 in FY98 and \$32,505 in FY99 are requested to hire a Senior Programmer Analyst. Additional increases totaling \$65,110 in FY98 and \$38,804 in FY99 for Operating Expenses and Capital Outlay are requested to support the new position. This position will serve as the "Web Master" for the Department's Internet "home page".

Additional increases totaling \$6,460 in FY98 and \$12,970 in FY99 for Operating Expenses and Capital Outlay are requested to support these positions. These positions will provide both hardware and software support to PC and terminal users. Two of the positions are requested for the second year only.

Additional increases of \$10,000 annually are requested in operating expenses to provide laboratory supplies.

Shared Resources

Additional increases of \$128,632 annually are requested in operating expenses to cover overhead costs such as rent, utilities and phone services.

Solid Waste Control Division

Salaries and Matching costs totaling \$226,606 in FY98 and \$232,359 in FY99 are requested to provide general revenue funding for seven positions also requested in the Fee Administration appropriation funded by special revenues. If general revenue authorization is granted, authorization of the positions from the Fee Administration appropriation would not be required. Additional increases totaling \$9,600 annually for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to support these positions. These positions would provide full funding for the Solid Waste Program.

Additional increases totaling \$36,528 in FY98 and \$32,736 in FY99 for Operating Expenses, Conference Fees & Travel and Capital Outlay are requested to provide training and equipment for current staff.

Salaries and Matching costs totaling \$184,883 in FY98 and \$189,557 in FY99 are requested to fill six positions. Additional increases totaling \$37,209 in FY98 and \$15,870 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital

Outlay are requested to support the new positions. These positions would supplement the agency's resources available to deal with the implementation of broad changes brought about by EPA regulations.

Surface Mining Reclamation Division

Salaries and Matching costs totaling \$31,704 in FY98 and \$32,509 in FY99 are requested to hire a Senior Geologist. Additional increases totaling \$7,066 in FY98 and \$4,662 in FY99 for Operating Expenses and Capital Outlay are requested to support the new position. This position will allow the Department to fully implement legislation requiring the regulation of stream bed mining operations.

Additional increases totaling \$2,224 in FY98 and \$700 in FY99 for Operating Expenses and Capital Outlay are requested to continue current programs.

Administration Division

Salaries and Matching costs totaling \$112,326 in FY98 and \$115,137 in FY99 are requested to hire a Division Chief, (Grade 24), Personnel Manager, (Grade 21), Administrative Assistant I, (Grade 15), and a Secretary II, (Grade 13). Additional increases totaling \$17,160 in FY98 and \$13,760 in FY99 for Operating Expenses, Travel and Capital Outlay are requested to support these positions. These positions will allow the Department to address both internal and external Administrative demands.

Additional increases totaling \$2,600 each fiscal year for Operating Expenses, Travel, and Capital Outlay are requested to provide support for departmental programs.

Customer Service Division

Capital Outlay costs totaling \$1,095 in FY98 and \$500 in FY99 are requested to cover office furnishings and equipment for staff.

1997 - 1999**

The Executive Recommendation reflects appropriation totaling \$3,572,789 in FY98 and \$3,650,736 in FY99, with funding totaling \$3,386,584 and \$3,453,778 each respective year. This recommendation reflects approval of the requested Base Level appropriation, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements, and appropriation of seven positions with supporting costs totaling \$236,206 and \$241,959 each respective year. The recommendation provides additional General Revenue funding totaling \$150,000 each year of the biennium. The Executive Recommendation does not address the agency request for Reclassification of positions at this time.

	HMA	930 357 011	011	P01		0	128,632	0			128,632	0							
<p>The Department's overhead costs such as rent, utilities, phone services, fleet maintenance, etc. through this cost center. When the Water Division relocates to the State Police headquarters in the old Southwest Mall complex, the additional rent for the first four months of the fiscal year was not budgeted in FY97. Since the move is planned for mid-November, only 8 months of rent was budgeted, which was made available through a request for a waiver from the 5% deferment requirements of Act 494 of 1993. This priority request will cover remaining four months of rent, as well as phone service, fleet maintenance, and other overhead costs of the Department not reflected in other fund sources.</p>																			
	HMA	930 357 040	040	P01		0	236,206	7			241,959	7			236,206	241,959			
<p>In an effort to provide a fully funded Solid Waste Program, the Department has requested the duplication of 7 positions that are currently budgeted through Appropriation 246. The Solid Waste program is funded primarily through permit fees, landfill disposal fees, and waste tire fees which provides approximately \$575,000 annually, as deposited in the Permit Fee Fund. The FY97 budget for the Solid Waste Program from this fund source is approximately \$850,000. In order to avoid increasing fees, and to continue to provide a viable solid waste program to the residents of Arkansas, the Department has requested general revenue support for part of this program. If approved, the seven duplicated positions would not need to be recommended through Appropriation 246.</p>																			
	HMA	930 357 080	080	P01		0	38,770	1			37,171	1							
<p>The Senior Geologist position for the Non-Coal Section of the Surface Mining and Reclamation Division is critically needed. This additional staffing is needed to fully implement legislation that is requiring the regulation of stream bed mining operations. Duties for the Senior Geologist include the review of all phases of non-coal mining permit applications, evaluation of the environmental and geological soundness of proposed mining and reclamation plans, inspection of the stream bed mining operations, supervising the current non-coal mining inspector, and coordinating complaint investigations involving mining operations state wide. Currently one and one half employees are on hand to conduct inspections of 143 permitted mine sites (an additional 100 sites are anticipated to be added with the stream bed operations), respond to a growing number of complaints, and review permit applications.</p>

<p>Requested are one Inspection Engineer PE and two Pollution Control Inspectors to supplement existing staff (one person) to address the problem of brine pit closures in the oil fields. It is estimated there are over 9000 such pits in the area, some having been abandoned for many years with no known owners. A concerted effort should be made by the Department and the owners/operators to close all pits, both active and abandoned, in the 100 year flood plain. These three positions will be needed to locate the pits to be closed, provide technical assistance to accomplish these actions, and provide additional resources to enable annual inspections of all permitted salt water disposal systems (approximately 600), as well as respond to spills from oil and brine production and transportation (approximately 150 per year).</p>																		
007		HMA	930 357 090 TECHNICAL SERVICES DIV	P01		0	96,814	1		71,309	1							
<p>The Department has requested to hire a Senior Programmer Analyst to further design and then maintain departmental Internet and e-mail capabilities. This position will serve as the "Web Master" for the Department's Internet "home page" and "postmaster" for all e-mail activities. To protect our operational data from unauthorized access this position will be responsible for selecting and establishing an Internet firewall between the information stored on our main network and our Internet server. The Department also will be using Internet publishing and database management tools to present the information in a suitable format for easy access.</p>																		
008		HMA	930 357 090 TECHNICAL SERVICES DIV	P02		0	33,183	1		95,128	3							
<p>The Department wishes to hire three PC Support Specialist positions to provide both hardware and software support to our PC and terminal users. These positions will assist in the Department training program by scheduling outside training courses, establishing internal training programs, and working with departmental users to establish their training needs. These positions will also server as a liaison between our users and our programming staff in communicating the needs and data requirements of the user during the design and development phases of various applications.</p>

<p>The Mining Division requests appropriation necessary to continue current programs. In order to carry out these programs, an increase in operating expenses and capital outlay has been requested during the 1997-99 biennium.</p>																		
6		HMA	930 357 040 SOLID WASTE CONTROL DIVISION	P02		0	222,092				205,427							
<p>The additional six personnel requested in the Solid Waste Division's Priority 2 are necessary to supplement the agency's resources available to deal with the implementation of broad changes and administrative requirements to solid waste management brought about by EPA's RCRA, Subtitle D, and subsequent 1995 rewriting of Solid Waste Management Regulation 22. New responsibilities subsequently caused by a wide spectrum of changes in solid waste, leading to reduction of class 1 landfills, causing additional permitting and oversight responsibilities of closed landfill sites, transfer stations, composting facilities, material recovery facilities, and waste tire processing facilities. Added legislation and regulations passed during 1996 put more emphasis on enforcement actions on illegal dump sites, increased the categories of landfill operators' licensing to include operators in all permitted facilities. The added responsibilities have put current staff into an unwieldily situation which will be greatly alleviated by the approval of this requested budget.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Department of Pollution Control and Ecology uses this appropriation for the federal portion of program activities. The budget request reflects a Base Level of \$11,390,075 in FY98 and \$11,49,491 in FY99. The Department also requested priorities totaling \$1,851,630 in FY98 and \$1,349,277 in FY99. The Department's priority requests are discussed by Division as follows:

Administration Division

Salary and Matching costs totaling \$542 in FY98 and \$557 in FY99 are requested to reclassify an Executive Secretary, Grade 14 to an Administrative Assistant II, Grade 17.

Additional increases totaling \$2,000 each fiscal year for Capital Outlay are requested to provide appropriation for office furniture and equipment.

Legal Services

Salary and Matching costs totaling \$1,526 in FY98 and \$1,568 in FY99 are requested to reclassify two Secretary positions, Grade 13 to Medical or Legal Secretary positions, Grade 14.

Additional increases totaling \$66,877 in FY98 and \$8,397 in FY99 for Extra Help, Personal Services Matching, Operating Expenses, travel, professional fees and capital outlay are requested to continue its level of representation and counsel to the Department.

Hazardous Waste Division

Salary and Matching costs totaling \$1,439 in FY98 and \$1,482 in FY99 are requested to reclassify a Data Entry Specialist, Grade 10 to a Computer Operator I, Grade 13.

Salaries and Matching costs totaling \$67,882 in FY98 and \$69,305 in FY99 are requested for a Technical Assistance Manager, Grade 24 and a Chemist II, Grade 20. Additional increases totaling \$20,250 in FY98 and \$12,700 in FY99 for

ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to support the new positions. These positions will provide resources to effectively and efficiently administer ongoing program needs.

Salary and Matching costs totaling \$29,925 in FY98 and \$30,679 in FY99 are requested for an additional Hazardous Waste Inspector position, Grade 20. Additional increases totaling \$20,600 in FY98 and \$12,700 in FY99 for Operating Expenses, Conference Fees and Travel, Professional Fees, and Capital Outlay are requested to support the new position. The new position will provide resources to implement the Brownsfield redevelopment project.

Salary and Matching costs totaling \$31,401 in FY98 and \$32,195 in FY99 are for reauthorization of a Hazardous Waste Inspector that is currently authorized but not budgeted. Additional increases totaling \$16,100 in FY98 and \$9,000 in FY99 for Operating Expenses, Conference Fees & Travel, Professional Fees & Services, and Capital Outlay are requested to support the new position. This position will provide resources for compliance monitoring and audit activities.

Additional increases totaling \$57,560 in FY98 and \$29,660 in FY99 for Operating Expenses and Capital Outlay are requested to support ongoing operations and upgrade computers.

Regulated Storage Division

Salary and Matching costs totaling \$1,208 in FY98 and \$1,241 in FY99 are requested to reclassify a Program Support Manager, Grade 22 to a Technical Assistance Manager, Grade 24.

An additional increase totaling \$27,455 in FY98 for Capital Outlay is requested to provide an imaging file system.

Salaries and Matching costs totaling \$56,618 in FY98 and \$58,036 in FY99 are requested to hire 2 Inspectors. Additional increases totaling \$32,250 in FY98 and \$4,680 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to support the new positions. These position will allow the Department to increase field presence and investigate reported releases of fuel.

1997 - 1999**

Additional increases totaling \$10,000 each fiscal year for Conference Fees & Travel are requested to allow staff to attend education and training seminars.

Environmental Preservation

Additional increases totaling \$116,590 each fiscal year for Operating Expenses, Conference Fees & Travel, Professional Fees & Services and Capital Outlay are requested to allow the retention of appropriation authorized through the Miscellaneous Federal Grant process.

Additional increases totaling \$303,424 in FY98 and \$74,500 in FY99 for Operating Expenses, Conference Fees & Travel, Professional Fees & Services and Capital Outlay are requested to provide federal appropriation that will fund special projects.

Small Business Assistance

Additional increases totaling \$307,974 each fiscal year for Extra Help, Personal Services Matching, Operating Expenses, Conference Fees & Travel, Professional Fees & Services, and Capital Outlay are requested to retain appropriation authorized though the Miscellaneous Federal Grant process.

Shared Resources

Additional increases totaling \$200,000 each fiscal year for Operating Expenses are requested for grant overhead costs and to support nine unfunded positions.

Air Pollution Control Division

Additional increases totaling \$124,855 in FY98 and \$121,025 in FY99 for Operating Expenses and Capital Outlay are requested to provide federal appropriation for operational and equipment needs required to develop pollution control

strategies for maintaining air quality.

Additional increases totaling \$74,945 in FY98 and \$32,760 in FY99 for Operating Expenses and Capital Outlay are requested to provide the federal share of support for 18 positions requested from permit fee fund.

Additional increases totaling \$58,075 in FY99 for Operating Expenses and Capital Outlay are requested to provide support for 9 positions requested from the permit fee fund.

Water Pollution Control Division

Additional increases totaling \$31,793 in FY98 and \$7,020 in FY99 for Operating Expenses and Capital Outlay are requested to maintain current level of inspections and complaint investigations.

Additional increases totaling \$82,250 in FY98 and \$33,480 in FY99 for Capital Outlay are requested to provide scientific and data processing equipment.

Surface Mining & Reclamation Division

Additional increases totaling \$59,296 in FY98 and \$60,153 in FY99 for Operating Expenses, Conference Fees & Travel, and Capital Outlay are requested to provide appropriation to administer and sustain a viable Abandoned Mine Land program.

Technical Services Division

Additional increases totaling \$39,000 each fiscal year for Operating Expenses are requested to provide service contracts and supplies related to field air sampling.

Construction Assistance

Additional increases totaling \$67,870 in FY98 and \$14,500 in FY99 for Operating Expenses, Professional Fees & Services, and Capital Outlay are requested to cover program needs, replace data processing equipment and cover the cost of legal advice.

The Executive Recommendations is the agency request, with the exception of Reclassification of positions which are not addressed at this time. Also included is appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements.

RANK	PROGRAM DESCRIPTION	FUND	ACCOUNTING INFORMATION	D E S	EXPENDITURES		-----1997 - 99 BIENNIUM REQUESTS-----						-----R E C O M M E N D A T I O N S-----					
					ACTUAL	BUDGETED	FY 1997 - 98			FY 1998 - 99			EXECUTIVE		LEGISLATIVE			
					95-96	96-97	REQUEST	REQUEST	REQUEST	REQUEST	1997-98	1998-99	1997-98	1998-99				
006		FYP	930 358 145 SMALL BUSINESS ASSISTANCE PROGRAM	P01		0	307,974	0				307,974	0		307,976	307,976		
<p>The Small Business Assistance Program has requested the retention of appropriation as authorized through the Miscellaneous Federal Grant processes. Appropriation was given to support the Small Business Leadership Grant, which is being used to form mentor/protege partnerships with the Environmental Federation which links large companies with environmental staffs to small companies that need assistance. Also provided is appropriation for the Pollution Prevention grant, which supports all state environmental programs by addressing source reduction of pollutants by industry, and will cross all environmental media (air, water, solid and hazardous waste).</p>																		
007		FYP	930 358 011 SHARED RESOURCES	P01		0	200,000	9				200,000	9		200,000	200,000		
<p>The Shared Resources' area priority request reflects the uncertainty of the Department's move towards a block grant approach to some of its federal grants. Nine additional unfunded positions are requested to handle program flexibility, and additional operating expenses is needed for expensing of overhead costs that may not be grant eligible as the new partnership agreements are finalized.</p>																		
008		FYP	930 358 030 AIR POLLUTION CONTROL DIVISION	P01		0	124,855	0				121,025	0		124,855	121,025		
<p>The Air Division is requesting federally funded appropriation covering operational and equipment costs for the existing staff involved in the operation of the Title V Program, which was recently delegated to the Air Division by the U.S. Environmental Protection Agency. The Title V program is multi-faceted and has created a need for revision of existing state regulations and a need for more regulations to deal with development of new pollution control strategies for maintaining our current level of air quality and a need for new technology to improve air quality. The Division needs to update the existing laboratory equipment for measuring particulate emissions and needs to replace/upgrade older PCs and the computer mainframe system.</p>

RANK	PROGRAM DESCRIPTION	FUND	ACCOUNTING INFORMATION	D E S	EXPENDITURES		1997 - 99 BIENNIAL REQUESTS				RECOMMENDATIONS								
					ACTUAL	BUDGETED	FY 1997 - 98		FY 1998 - 99		EXECUTIVE		LEGISLATIVE						
					95-96	96-97	REQUEST	REQUEST	1997-98	1998-99	1997-98	1998-99							
009		FYP	930 358 020 WATER POLLUTION CONTROL DIVISION	P01		0	31,793	0			7,020	0		31,793	7,020				
<p>The ADPC&E Water Division is responsible for protecting and restoring water quality in all waters of the state. In order to maintain the current level of effort, the Water Division will need an increase in it's M&O appropriation. 95% of this request is for in-state travel appropriation to maintain our current level of inspection and complaint investigation services.</p>																			
010		FYP	930 358 050 HAZARDOUS WASTE DIV	P01		0	88,132	2			82,005	2		88,132	82,005				
<p>The various hazardous waste programs have evolved to the point that many activities overlap, such as treatment requirements, risk assessment/risk management, etc. In addition, the regulatory and statutory tracking and development have become increasingly burdensome with the federal government devolving to the extent that state agencies must conduct more and more independent research at and scientific and administrative level (among other states, etc.) to effectively pursue rule changes. This burden has out stripped our existing resources. Requested positions and associated support costs will provide critically needed resources to effectively and efficiently administer the ongoing program needs (especially as EPA downsizes and reduces support once provided) and provide support necessary not only to maintain the integrity of the existing programs but also to improve the programs to the benefit of the regulated community and all Arkansans.</p>																			
011		FYP	930 358 060 REGULATED STORAGE DIVISION	P02		0	27,455	0			0	0		27,455					
<p>The Regulated Storage Tank Division currently has 67 four-drawer file cabinets to accommodate its Leaking Underground Storage Tank Program, notification files, fee files, licensing files, and its federal files. The information found within these files must be maintained for future potential claims and/or audit purposes. The purchasing of more filing cabinets to manage documents in today's information world is not the answer. An imaging system is necessary for better internal control of federal trust fund documents for cost recovery, audit purposes, and public information.</p>

	FYP	930 358 100 ENVIRONMENTAL PRES. DIVISION	P02		0	303,424	0	74,500	0			303,424	74,500				
<p>This appropriation request will provide federal appropriation that will fund special projects with the objective of developing proactive activities which includes assessing Best Management Practices (BMP's) and guidelines, developing regulatory tools such as BMP's, siting criteria, and guidelines, addressing statewide environmental concerns, and providing outreach services to the parties in need of assistance.</p>																	
	FYP	930 358 080 SURFACE MINING & RECLAMATION DIVISION	P01		0	59,296	0	60,153	0			59,296	60,153				
<p>There are over 9,000 acres of abandoned surface mines & 25,000 acres of abandoned underground coal mines in West Central Arkansas. All of the areas have the potential to be a threat to the health, safety & general welfare of the citizens that reside or pass through them. To administer & sustain a viable Abandoned Mine Land program, the Mining Division seeks Federal assistance in the form of a Simplified grant. This priority request is what is needed in the next biennium for operating expenses, conferences & training and capital outlay to carry-out this much needed program.</p>																	
	FYP	930 358 090 TECHNICAL SERVICES DIV	P01		0	39,000	0	39,000	0			39,000	39,000				
<p>The requested operation and maintenance funds will provide instrument service contracts for major instruments and will cover higher costs for analysis due to supply cost increases due to field air operations and in-lab services. The service contracts assure a continuing budget for repairs that are covered. Many of the less reliable parts for instruments are \$5,000 while the whole service contract is \$7,000 and includes preventative maintenance. The requested supplies will provide for the needs related to field air sampling that is not covered by on-going programs.</p>

						0	2				2			2	2			
<p>The two positions are requested because of the real and anticipated growth in the Regulated Storage Tank program. National statistics indicate that Arkansas should have approximately 2,000 reported releases, however, records reflect only 557 have been reported. Additional field presence will increase the discovery and reporting of releases of fuel. The results will be smaller and less costly cleanups, as well as better protection of the environment. Increased field presence will facilitate the discovery and registration of systems and generate additional funds to the program.</p>																		
2		FYP	930 358 015 LEGAL SERVICES	P01		0	66,877				8,397			66,877	8,397			
						0	0				0			0	0			
<p>The Legal Division requests these funds to continue its level of representation and counsel to the Department to fulfill the mission of protecting natural resources. Increased operating expenses, travel and professional fees will enable the Division to continue to support Departmental programs. Capital outlay will cover 10 new personal computers, software and a new printer. The Division needs this equipment to communicate effectively with other divisions. In 1995, the Legal Division helped bring 229 enforcement cases against polluters. This was up from 149 cases in 1994. In 1995, the Division also assisted with 22 permit appeals and rulemaking matters, up from 13 in 1994. There were seven emergency orders in 1995 and 13 in 1994. Support of this priority will enable the Division to continue these types of efforts.</p>

ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Department utilizes this appropriation for Reclamation Projects which would be funded by bond forfeitures on non-coal activities, such as sand and gravel. Bonds are required to be placed on land to be mined in the event the land is not reclaimed to the specifications of the Department of Pollution Control and Ecology. The Department's budget request reflects a Base Level of \$950,000 each fiscal year.

The Executive Recommendation provides for Agency Request.

Expenditure of appropriation is contingent on available funding.

ANALYSIS OF BUDGET REQUEST
1997 - 1999**

This appropriation authorizes the State matching portion of the Federal Revolving Loan Program that provide financial assistance to communities for the construction of municipal waste water treatment facilities. The General Revenue funding is provided through the State Revolving Loan Fund.

The Department is requesting a total budget of \$1.5 million each fiscal year. This reflects the Department's request to reduce Base Level by \$3.2 million each fiscal year.

The Executive Recommendation eliminates funding and appropriation for this program.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Acts 172 and 173 of 1989, as amended, designated the Department of Pollution Control and Ecology as the implementing agency for the Regulated Storage Tank Program. This appropriation is funded by fees collected from the annual registration of underground and above ground storage tanks and from the licensure of installers of storage tanks. The Department's budget request reflects a Base Level totaling \$888,003 in FY98 and \$908,315 in FY99 which includes 21 positions. The Department has requested priorities totaling \$59,801 in FY98 and \$19,803 in FY99. Salaries and Matching costs totaling \$3,959 in FY98 and \$4,068 in FY99 are requested to reclassify two positions. Capital Outlay totaling \$55,843 in FY98 and \$15,735 in FY99 is requested to replace a computer system.

The Executive Recommendation provides for Base Level, which includes appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. The Executive Recommendation does not address the agency request for Reclassification of positions at this time. Expenditure of appropriation is contingent on available funds.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The Petroleum Storage Tank Trust Fund was established by Act 173 of 1989, as amended, (A.C.A. §8-7-901). This fund provides a procedure for reimbursement of remediation costs or damages as a result of leaking tanks. Funding for the program is derived from an environmental assurance fee which is assessed at a rate of two-tenths of one cent for each gallon of motor fuel or distillate special fuel purchased or imported into the state. The environmental assurance fee is paid by the first distributor or supplier receiving fuel from a terminal in Arkansas. The Department utilizes this appropriation to take corrective action needed because of accidental releases from a storage tank of unknown ownership or when corrective action is not taken by the owner or operator in a timely manner. The Department is requesting a Base Level budget of \$19,500,000 each fiscal year.

The Executive Recommendation provides for Agency Request.

Expenditure of appropriation is contingent on available funding.

Funding is capped at \$15,000,000, with Commission action recently lowering the rate to one-tenth of one cent per gallon of fuel to maintain this balance. However, the Department anticipates no revenue collections in FY98 and FY99 necessary at this point to maintain the balance above \$12,000,000, as indicated in A.C.A. §8-7-906.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

Acts 172 and 173 of 1989 created the Regulated Storage Tank Program and placed the responsibilities of the program under the direction of the Department of Pollution Control and Ecology. The Department utilizes this appropriation for contractual services on corrective actions. The Department is requesting a Base Level budget of \$5,000,000 each fiscal year to cover any available federal dollars.

The Executive Recommendation provides for Agency Request. Expenditure of appropriation is contingent on available funding.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
1997 - 1999**

The 79th General Assembly authorized appropriation with general revenue funding for the Mercury Task Force. The Mercury Task Force's primary objective was to determine the degree of contamination of mercury in the State and to find a possible cause and remedy for this contamination. The Mercury Task Force has met its primary objective and plans to cease operation at the end of 1999. This reduction is reflected in the Department's budget request. The Department has requested a reduction in Operating Expenses, Professional Fees & Services, and Transfers to Health Department. The Department's priority request reduces Operating Expenses \$21,021 each fiscal year, Professional Fees \$72,000 in FY98 and \$135,000 in FY99, and Transfers to Health by \$19,750 in FY98 and \$21,750 in FY99. The Department's budget requests total \$150,000 in FY98 and \$85,000 in FY99.

The Executive Recommendation accelerates the cessation of operations and eliminates the appropriation and funding for the Mercury Task Force for FY98 and FY99.

<p>This appropriation request is greatly reduced from the previous biennium and is the final request of the Mercury Task Force, which will dissolve at the end of 1999. Following this date any necessary work to monitor the Mercury problem within the state will be internalized within specific agencies. The proposed activities for the 1997-99 biennial budget request include continued education with specific targets towards the high risk groups and continued evaluation of management approaches to reduce or eliminate the mercury problem in Arkansas.</p>
