### Transaction ZHR\_CLAIMS\_PROC: Report Selections Before ALV Grid Control Program Changes

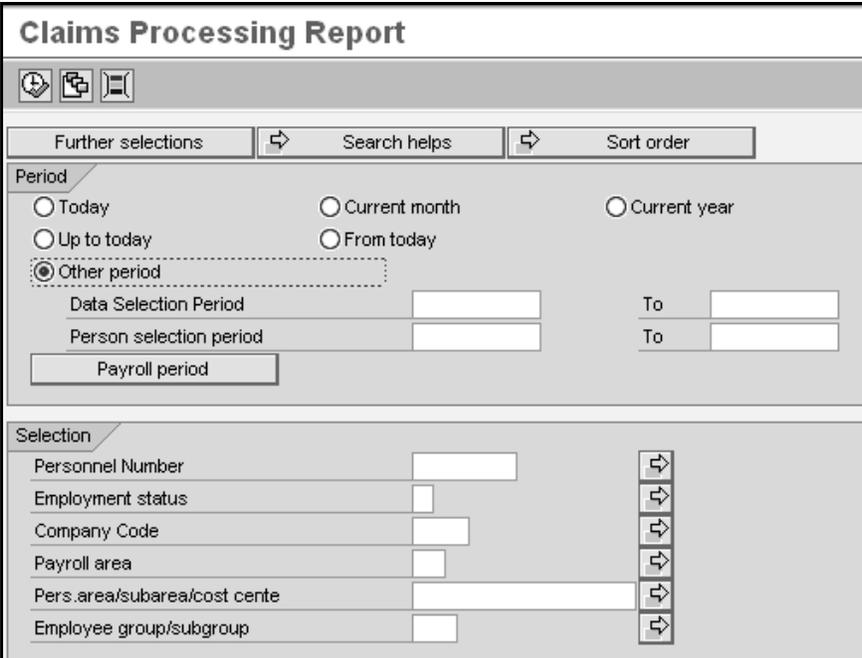

This transaction opened with “PC FILE” as a default selection. This default, if not de-selected, downloaded the report data to a destination defined by the user in the “Claims Interface Output Path” field.

The screenshot shows the 'Claims Processing Report' selection screen. It features a 'Period' section with radio buttons for 'Today', 'Up to today', 'Other period', 'Current month', 'From today', and 'Current year'. The 'Other period' option is selected, and there are input fields for 'Data Selection Period' and 'Person selection period', each with a 'To' field. Below this is a 'Payroll period' button. The 'Selection' section includes fields for 'Personnel Number', 'Employment status', 'Company Code', 'Payroll area', 'Pers.area/subarea/cost cente', and 'Employee group/subgroup', each with a dropdown arrow. At the bottom, there is a 'CLAIMS Interface Output Path' field containing 'C:\' and a checked 'PC FILE' checkbox. A black arrow points to the 'PC FILE' checkbox.

The “CLAIMS Interface Output Path” data entry field and “PC File” selection have both been removed.

The screenshot shows the 'Claims Processing Report' selection screen after changes. The 'Period' section is the same as in the previous screenshot, with 'Other period' selected. The 'Selection' section is also the same. However, the 'CLAIMS Interface Output Path' field and the 'PC FILE' checkbox have been removed from the bottom of the screen.

This report now provides custom layout options and subtotals. To use the customizing options, look for option buttons on the application toolbar.

In addition to the above changes, the report header section displays the total number of personnel records generated by the report selections.
