Fiscal year	2009	2009	
Period from	0	Not assigned	
Period to	13	Special period 1	

Output type

Graphical report-output

Classic drilldown report

After Upgrade:

The screenshot shows a software interface for budget selection. At the top is a menu bar with 'Program', 'Edit', 'Goto', 'System', and 'Help'. Below the menu is a toolbar with various icons. The main window title is 'Selection: Available Budget'. There is a 'Classification' button. The 'Standard selections' section contains several rows of input fields: 'Fund' (with a dropdown arrow), 'to', 'or Group', 'Key Date' (with value '02/03/2009'), 'Funds Center', 'to', 'or Group', 'Year Commitment Item' (with value '2009'), 'Variant' (with value '000'), and 'Commitment ltm', 'to', 'or Group'. The 'Report selections' section contains: 'Agency from/CustFund', 'Fiscal year' (with value '2009' and '2009' next to it), 'Period from' (with value '0' and 'Not assigned' next to it), and 'Period to' (with value '16' and 'Special period 4' next to it). The 'Output type' section has two radio buttons: 'Graphical report output' and 'Classic drilldown report' (which is selected). Two callout boxes are present: one pointing to the 'Fund' and 'or Group' fields with the text 'Group selection fields', and another pointing to the 'Period to' field with the text '“Period to” field now defaults to period 16.'

1. Carry forward budget balances now display in period 16 instead of period 13.
2. Fund group selection fields now display. Currently fund groups are not available for use.
