

Arkansas Medicaid Enterprise (AME) Revised Procurement Strategy Update

The Arkansas Department of Human Services (DHS) is temporarily postponing the release of four Requests for Proposals intended to procure the Medicaid Management Information Systems and associated Professional Services. The AME Procurement Strategy, published January 12, 2012, reported that the RFPs were planned for release in the second quarter of 2012. The Department determined that it is prudent to await the outcome of the U.S. Supreme Court's deliberations on the Affordable Care Act (ACA). The Department will publish new dates following an announcement from the U.S. Supreme Court.
