

**AMENDMENT  
TO  
SP-06-0013R  
between  
State of Arkansas  
and  
Copy Systems  
(June 9, 2010)**

---

WHEREAS, the State of Arkansas (herein "State") and Copy Systems (herein "Contractor") have entered into contract SP-06-0013R for the rental of Digital Copiers (herein "the Agreement");

WHEREAS, the Parties wish to amend the Agreement;

NOW, THEREFORE, the Parties agree to the following:

1. Vendor must cleanse any copier containing a hard drive per the State of Arkansas's security policy/standards at no additional charge to the State at the end of an agency's contract. Vendor may cleanse the hard drive prior to removal from the agency location or once the machine is returned to the vendor's location. If hard drive cleansing cannot be done on premises, vendor must ensure that cleansing is completed and a certificate is provided to the agency within five (5) business days of equipment removal. The certificate must verify the hard drive has been cleansed per the State of Arkansas's security policy/standards.
2. At the agencies discretion, hard drives that cannot be sanitized according to State security policy/standards may be returned to the State or physically destroyed and documentation of such action shall be provided in writing to the State by the vendor. The charge for this option shall not exceed the cost of a replacement hard drive.
3. All other terms and conditions of the Agreement remain unchanged and in full force and effect.
