#### ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997 - 1999

A gubernatorial task force was created in the late summer of 1995. Headed by Representative Wayne Wagner, the Force is a collection of parties either already affected by ACT 131, or people with an interest in the professional sports regulated by the Arkansas Athletic Commission.

Although the recommendations of the Task Force have not been finalized, the changes in direction from the current statute and published Rules and Regulations

are:

1. Change the statute to have the Commission directly oversee the professional sports it regulates. Currently, the Commission licenses a non-profit organization to do fee collection, supervision of the events, and gross sales reporting for the Commission.

2. Change the bond structure to require the promoter, the person actually responsible for the event, to post a surety bond equal to the fiscal liability of the shows presented. Currently, the non-profit has to post the bond, and the situations dissuades groups from acting as a "Sponsor."

3. Change the fee structure more in line with those from other states. Actual license fees for participants and officials would change little other than the fee for promoter. The primary difference would be in the collection of a percentage of gate receipts. Currently, according to Statute, the Commission only collects 5% with a cap of \$200 per event.

4. A change in the penalty power of the Commission so that the AAC can assess reasonable fines. Currently, the Commission cannot asses any fine, but can only suspend or revoke licenses.

5. Change the basis for fee collection in line with the trend of other states so that a small percentage can be levied against the promoter's portion of revenue collected on Pay per View telecasts. Currently, the Commission does not tap this common revenue source.

### ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997 - 1999

6. Change the means by which patriotic organizations used the professional sports regulated by the Commission. Initially, the statutes were designed the third party "Sponsor" licensing system as a means of regulating the sports and as a fund raiser. Since the patriot organizations have collected fewer and fewer revenues over the years, the Task Force is considering a "grant program" from any surplus funds directly to the patriotic organizations and to the amateur versions of the professional sports regulated by the Commission.

These changes will greatly increase the revenues of the Commission. Conservative estimates place collections in the first year after passage of the new statutes at revenues double the level seen in the years 95-96 and 96-97. This will enable the Commission to hire an executive secretary (already provided for in the statute) to work a 20 hour week, 50 week year. The Commission will establish a distinct office and operation from which all records and business transactions will take place. The secretary will work directly for the Commission and be appropriately supervised by the Commission Chairperson.

# ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Arkansas State Athletic Commission is funded from annual license fees of boxers, wrestlers, managers, matchmakers, promoters, referees, physicians, timekeepers, and other persons arranging, participating in, or otherwise dealing in matches and exhibitions regulated by the Commission. The Commission has authority to establish such fees in accordance with A.C.A. 17-19-204. Licenses are also granted to sponsors for a fee of 5% of the total gross receipts from admission charges not to exceed \$200 per exhibition. These funds are deposited in the State Treasury as non-revenue receipts.

The Commission is seeking to implement recommendations made by the Gubernatorial Task Force as outlined in the Agency Program Commentary. Their 1997-99 request is based upon revenues which would be generated if these changes are made. The request is to increase Operating Expenses from \$4,110 each year to \$17,810. This would enable the Commission to rent office space and provide telephone and additional office expenses. Capital Outlay of \$4,000 each year would provide office furniture and equipment.

The Commission is also requesting an increase in the maximum salary for the Executive Secretary. Plans are to hire someone for 20 hours per week for 50 weeks a year. This increases the maximum salary from \$10,252 authorized for FY97 to \$15,000 for FY98 and \$15,420 for FY99.

Expenditure of appropriation is dependent upon available funding.

The Executive Recommendation provides for Base Level which includes a 2.8% increase each year in the maximum salary for the Executive Secretary. If the Task Force recommendations are adopted by the General Assembly making additional revenues available, appropriated levels can be adjusted at that time.
