

ARKANSAS FORESTRY COMMISSION

Enabling Laws

Act 1835 of 2005

Act 1978 of 2005

A.C.A. §15-31-101 et seq.

History and Organization

Mission - The Arkansas Forestry Commission promotes forest resource health, conservation, and stewardship.

Statutory Responsibility - By Act 234 of 1931, the Arkansas Legislature created the Arkansas Forestry Commission to cooperate with the United States Secretary of Agriculture, State Agencies, farmers and timber owners in the prevention and suppression of forest fires, the distribution of forest planting stock, and the dissemination of information concerning Arkansas' forest. The Commission was composed of five members and authorized to employ a State Forester, who was to employ such administrative and clerical assistants as were deemed necessary.

Act 85 of 1935 authorized employees of the Arkansas Forestry Commission to enforce the fire laws of Arkansas.

Act 48 of 1939 recreated the Arkansas Forestry Commission with a nine-member board.

Act 138 of 1945 abolished the Arkansas Forestry Commission. The Commission's duties were transferred to the Arkansas Resources and Development Commission. The Act provided that the Division of Forestry and Parks should exercise the function formerly exercised by the Arkansas Forestry Commission. The Arkansas Resources and Development Commission consisted of fifteen members.

Act 409 of 1947, as amended by Act 174 of 1959, Act 412 of 1961, and Act 249 of 1963, authorized and empowered the Arkansas Forestry Commission to acquire and hold in the name of the State of Arkansas, title to lands which are valuable for state forests. The lands so acquired would be appropriately named, designated, administered, protected and developed as state forests.

Act 42 of 1953, as amended by Act 99 of 1955 and Act 232 of 1959, recreated the Arkansas Forestry Commission, separating it from the Resources and Development Commission and giving it virtually the same duties outlined in Act 234 of 1931 plus the authority to originate and conduct research in forestry matters and cooperate with other agencies, both public and private.

Act 38 of 1971 reorganized the Executive Department of the State into thirteen major departments. The Arkansas Forestry Commission became a Division of the Department of Commerce, along with twelve other state agencies. The Arkansas Forestry Commission was transferred to the Principal department under a Type 1 Transfer whereby the Commission retained the same prescribed statutory powers, authority, duties and function prior to the transfer except all budgeting, purchasing and

related management functions of the Arkansas Forestry Commission were performed under the direction and supervision of the Head of the Principal Department.

Act 36 of 1979 established a Rural Fire Protection Service program within the Arkansas Forestry Commission. The Act authorized the Commission to develop rural fire protection plans, to provide training in fire suppression, to make available to rural firefighting groups fire control equipment, and to establish a revolving loan fund for fire departments.

Act 691 of 1983 abolished the Department of Commerce and restored the Arkansas Forestry Commission to the status of an independent agency of the state government. The same duty, authority and responsibility existing prior to transfer to the Department of Commerce were restored with the provision that the State Forester shall be employed by the Board of Forestry Commissioners, with the approval of the Governor, and shall serve at the pleasure of the Governor.

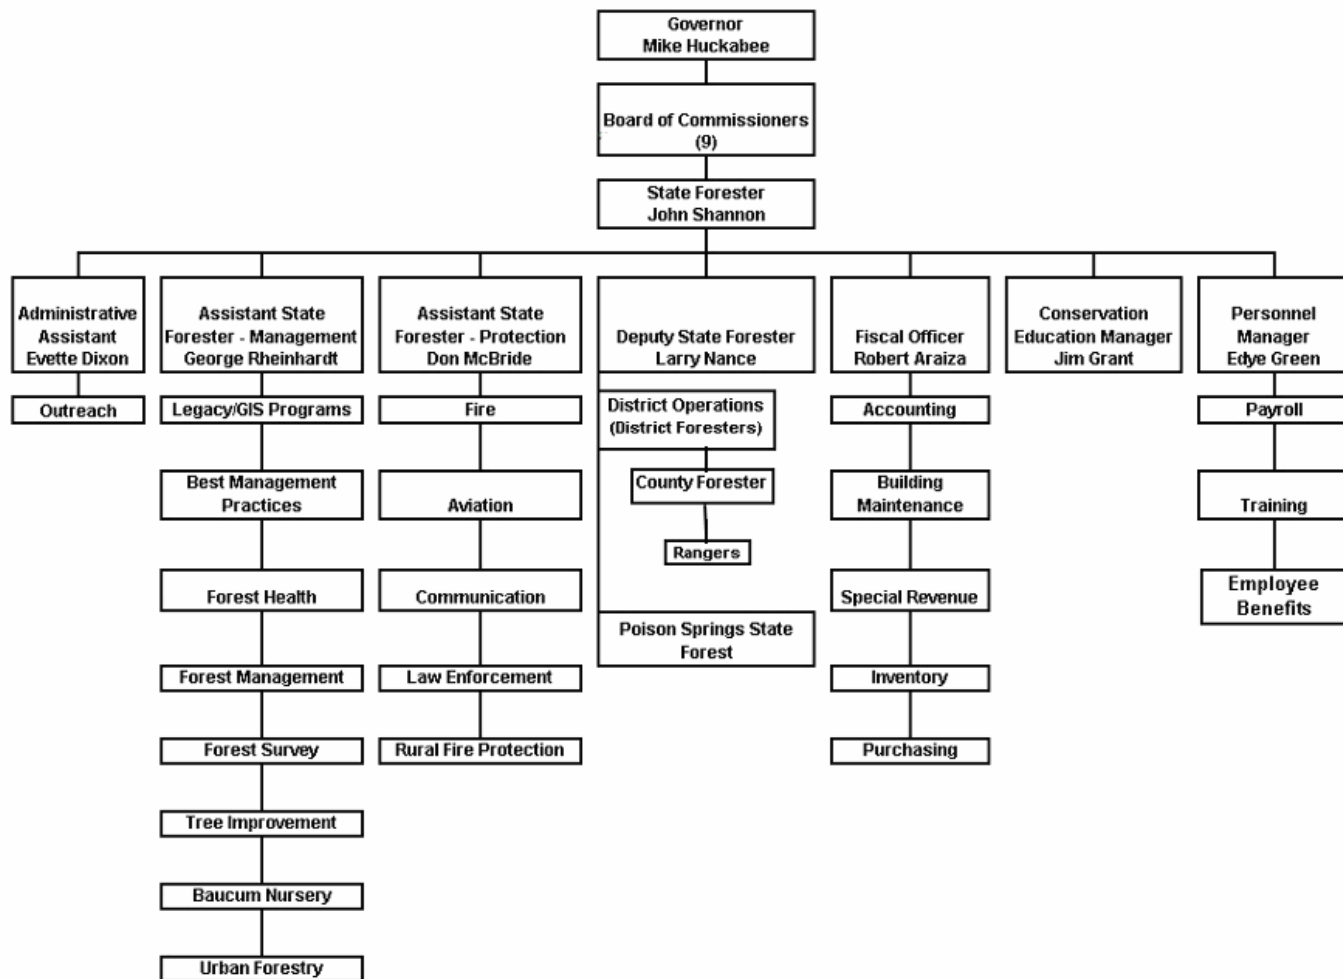

Act 135 of 1995 authorized the Arkansas Forestry Commission to designate certain employees with the powers of peace officers in the enforcement of fire laws, theft of property laws to the extent they apply to theft of timber, and laws pertaining to the unlawful disposal of solid waste when the disposal occurs on forest land.

Act 136 of 1995 required the State Forester to have earned at a minimum a bachelor's degree in forestry from an accredited four-year program at an institution of higher education.

Act 27 of 1999 clarified the function, powers and duties of the Arkansas Forestry Commission.

Primary Activities - The Arkansas Forestry Commission administration, which includes personnel, fiscal and conservation education, lead, direct and support employees to accomplish the agency mission. The AFC Resource Protection Program is responsible for the protection of Arkansas' forest through wildland fire protection, law enforcement and rural community fire protection. The AFC Resource Management Program works with private non-industrial forest landowners, forest industry, university, private forest consultants, other governmental agencies, and communities to promote stewardship and sustainability of Arkansas' rural and urban forest. Bluff City Tree Improvement Complex produces genetically improved tree seed. Baucum Nursery provides tree seedlings to landowners for reforestation. Poison Springs State Forest provides yearly revenue while demonstrating multiple use forest management techniques for non-industrial landowners.

Advisory Commission - A.C.A. §15-31-102 identifies the Arkansas Forestry Commission which consists of nine members to be appointed by the Governor with advice and consent of the Senate from resident electors of this State having a long-standing interest in the forest resources of Arkansas. Term of office is nine years.

Agency Commentary

The Arkansas Forestry Commission (AFC) will continue to protect and develop the forest resources of Arkansas by: preventing, mitigating, and suppressing wildfires; facilitating forest stewardship and reforestation; monitoring and promoting forest health, and; gathering forest inventory data and disseminating forest resource information.

The AFC is not requesting additional positions or changes to existing positions.

Following are several issues that should be addressed during the 2007 - 2009 biennium.

- 1) The AFC fights wildland fires statewide. This emergency preparedness requires work centers and firefighting equipment in all forested counties. AFC funding for maintenance and operations has been inadequate for years. The AFC can no longer absorb, within its current budget, the increased costs of aviation fuel, vehicle fuels, and utilities. Accordingly, the AFC requests an increase in Operating Expenses appropriation and general revenue funding in the amount of \$300,000 for each year of the biennium.
- 2) The availability of industry-owned firefighting tractor-plow units has decreased from 70 in 2000 to 5 in 2004. During that same time, the average size of wildfires increased from 12.8

acres to 16.3 acres. See the Performance Audit on Wildfires, report ID PSPE02405, dated September 26, 2005.

- To keep the average size of wildfires at an acceptable level, the AFC has contracted for air tankers to drop water on wildfires. For several years, federal grants paid for this important service. Now the AFC is paying. Accordingly, the AFC requests an increase in Professional Fees appropriation and general revenue funding of \$500,000 for each year of the biennium to keep the air tankers.
 - The AFC operates 99 tractor-plow units. Currently, the AFC replaces one tractor-plow unit annually due to funding limitations. To attain a schedule of replacing those firefighting units at age 15, the AFC must purchase 7 units annually at an approximate cost of \$210,000 each. Accordingly, the AFC requests an increase in appropriation and general revenue funding of \$1,470,000 for each year of the biennium in the Fire Fighting Equipment line item.
- 3) The AFC is also requesting additional appropriation that has been funded by Miscellaneous Federal Grants in FY07. This federally funded appropriation request includes \$95,723 per year in Rural Community Fire Protection, \$11,210 per year in Forest Land Enhancement, \$28,800 per year in Wild Land Fire Assistance, \$35,650 per year in Forest Health Program, \$25,000 per year in the Forest Legacy Program, and \$106,918 per year in Silvicultural Non-point Pollution Control.

Audit Findings

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF :
STATE FORESTRY COMMISSION
FOR THE YEAR ENDED JUNE 30, 2004

Findings

Recommendations

The Agency has inadequate control of seedling sales and receipting transactions at the Nursery Division because the Agency's fiscal department does not maintain an accounts receivable control ledger for the sale of tree seedlings by the Nursery Division. The Nursery Division maintains a subsidiary accounts receivable ledger, receipts payments and maintains general sales records. In addition, the accounts receivable for seedling sales was not recorded in the Arkansas Administrative Statewide Information System (AASIS). Seedling sales for the year ended June 30, 2004 and 2003 totaled \$1,297,842 and \$1,061,915 respectively. These matters have been noted in previous reports.

The Arkansas Administrative Statewide Information System (AASIS) was implemented July 1, 2001 as the official accounting system for the State. With the implementation of this system, came the responsibility for the Agency to review transactions and other information entered into the system and

Fiscal department maintain an accounts receivable control ledger for seedling sales and reconcile monthly to the subsidiary ledger maintained by the Nursery Division.

The Agency work with the AASIS staff to train personnel to accurately record and report the operations of the Agency and to maximize the capabilities of the accounting system.

DIVISION OF LEGISLATIVE AUDIT
 AUDIT OF :
 STATE FORESTRY COMMISSION
 FOR THE YEAR ENDED JUNE 30, 2004

Findings

Recommendations

to perform reconciliations as necessary to assure the accuracy and completeness of the accounting records. The general accountability and control deficiencies associated with the new accounting system which were noted during the review are summarized below:

- Numerous balances in AASIS for the two-year period ended June 30, 2004 were not accurate and could not be reconciled to the underlying records.
- Activity recorded in AASIS for the Rural Fire Protection Revolving Fund (MRF) did not accurately reflect the actual transactions of the fund.

Performance Audit Findings

*Wildfires – Arkansas Forestry Commissions
 (January 1, 2000 – December 31, 2004)*

Findings and Conclusions:

- The Commission provides firefighting services and coordination equal to its counterparts in neighboring states.
- The Commission has taken steps to help prevent wildfires, i.e. prescribed fires and community education.

Recommendations:

- Continue Commission efforts to prevent wildfires while targeting higher risk communities in Arkansas.

Analysis of Budget Request

Appropriation: 2UT - Forestry Operations

Funding Sources: SDF - State Forestry Fund

This appropriation provides for the staffing and general operations of the Forestry Commission.

Funding for this appropriation is comprised from special revenue (timber severance taxes and Fire Protection tax), federal revenue, general revenue, and other revenue (seedling sales, timber sales).

Base Level includes 327 positions and a budget of \$17,963,415 per year. A cost of living increase is not incorporated in Base Level pending the outcome of the Classification and Compensation Study. FY07 salary levels have been held flat each year for all incumbents. Personal Services Matching may reflect increases in the Base Level due to the Social Security Tax maximum income limit and certain increases in Worker's Compensation and Unemployment Tax rates. Personal Services Matching also includes a \$30 increase in the monthly contribution for State employee's health insurance for a total State match per budgeted employee of \$350 per month.

The Agency is requesting \$300,000 per year in Operating Expenses appropriation and general revenue funding for aviation fuel, vehicle fuel, and utilities. The Agency is requesting \$500,000 per year in Professional Fees appropriation and general revenue funding for air tankers to fight wildfires. The Agency is also requesting \$1,470,000 appropriation and general revenue funding per year in the Fire Fighting Equipment line item for purchase of additional tractor plows.

The Agency is requesting an addition to their Transfer Provision Special Language which would apply to this appropriation. This request would allow excess appropriation in Regular Salaries or Personal Services Matching to be transferred to Professional Fees if deployment of air tankers for fighting wildfires requires additional Professional Fees.

The Agency is also requesting a new Special Language section which would authorize the Forestry Commission to charge fees to federal agencies and other states in order to reimburse the Commission for expenditures made on behalf of these governmental units. These include joint agreements with other states to provide assistance in fighting wildfires and emergency assistance such as provided after Hurricane Katrina. The Forestry Commission would then deposit these fees into the State Forestry Fund in the State Treasury as a refund to expenditure. This would enable the Forestry Commission to provide assistance to other states and the federal government without depleting its own appropriation.

The Executive Recommendation provides for the consolidation of all operations and appropriations of the State Forestry Commission into the Arkansas Agriculture Department. The consolidation will necessitate a new fund for the Agriculture Department under the State General Government Fund (A.C.A. §19-5-302) of the Revenue Stabilization Law. The State Forestry Fund currently created in law should be repealed and the new Agriculture Department fund created by legislation during the 86th General Assembly.

Further, the Executive Recommendation for this appropriation provides for Base Level appropriation

and funding and \$300,000 per year in Operating Expenses appropriation and general revenue funding. The Executive Recommendation also provides for the Agency Special Language Request.

The Executive Recommendation for this appropriation does not approve the Agency Request for \$500,000 per year additional appropriation and general revenue funding for Professional Fees for air tankers to fight wildfires. However, it recommends that this request be funded from the General Improvement Fund.

The Executive Recommendation for this appropriation does not approve the Agency Request for \$1,470,000 per year additional appropriation and general revenue funding in the Fire Fighting Equipment line item for purchase of additional tractor plows. However, it recommends that this request be funded from the General Improvement Fund.

In summary, the Executive Recommendation for this appropriation for new general revenue above the Base Level is:

- \$300,000 each year in Operating Expenses for aviation fuel, vehicle fuel, and utilities

Change Level		2007-2008	Pos	Cumulative	% of BL	2008-2009	Pos	Cumulative	% of BL
BL	Base Level	17,963,415	327	17,963,415	100.0	17,963,415	327	17,963,415	100.0
C01	Existing Program	300,000	0	18,263,415	101.6	300,000	0	18,263,415	101.6

Justification

C01 We are requesting \$300,000 per year in Operating Expenses for increased fuel costs (\$230,000 for aviation and vehicle fuel, \$40,000 for Electricity, and \$30,000 for Natural Gas). We are requesting \$500,000 per year in Professional Fees for deployment of air tankers for fighting wildfires. We are also requesting \$1,470,000 per year in the Fire Fighting Equipment line item for additional tractor-plov units. We operate 99 tractor-plov units and are only replacing an average of one unit per year due to funding limitations. To attain a schedule of replacing the tractor-plov units at age 15, we must purchase 7 units annually at an approximate cost of \$210,000 each. Replacing the Commission's tractor-plov units has become more important because the number of industry-owned frontline tractor-plov units has been decreasing.

Analysis of Budget Request

Appropriation: 2UU - Rural Comm Fire Protection-Fed

Funding Sources: FIT - Federal Funds

The Forestry Commission's Rural Community Fire Protection Program employs federal funds with State and local matches to assist volunteer fire departments and local communities with fire fighting equipment purchases and upgrades. The funding is 100 percent federal.

Base Level includes 2 positions and a budget of \$805,831 per year. A cost of living increase is not incorporated in Base Level pending the outcome of the Classification and Compensation Study. FY07 salary levels have been held flat each year for all incumbents. Personal Services Matching may reflect increases in the Base Level due to the Social Security Tax maximum income limit and certain increases in Worker's Compensation and Unemployment Tax rates. Personal Services Matching also includes a \$30 increase in the monthly contribution for State employee's health insurance for a total State match per budgeted employee of \$350 per month.

The Agency Change Level request totals \$95,723 per year in appropriation, and is comprised of \$78,498 in Operating Expenses and \$17,225 in Grants and Aid for the FireWise Communities Program. This provides grant funds to communities, organizations, and institutions to reduce their risk of loss from wildfires in the wildland urban interface.

The Agency has sufficient federal funding to support these requests for additional appropriation.

The Executive Recommendation provides for the consolidation of all operations and appropriations of the State Forestry Commission into the Arkansas Agriculture Department. Further, the Executive Recommendation for this appropriation provides for the Agency Request.

Analysis of Budget Request

Appropriation: 2UX - State Forestry Trust

Funding Sources: TZT - State Forestry Trust Fund

The State Forestry Trust Program is funded by interest on balances held in the State Forestry Trust Fund, proceeds from the sale of timber at the State Forest, and a portion of proceeds from seedling sales. This Program provides for purchase of fire fighting equipment and contracting for assistance provided by the U.S. Forest Service to maintain the Agency's readiness to meet the demands of emergency fire situations and also provides for repairs and equipment replacement at seed nurseries.

Funding for this appropriation is 100 percent from the State Forestry Trust Fund.

Base Level for this appropriation is \$1,600,000 each year and is the Agency request.

The Executive Recommendation provides for the consolidation of all operations and appropriations of the State Forestry Commission into the Arkansas Agriculture Department. Further, the Executive Recommendation for this appropriation provides for the Agency Request.

Analysis of Budget Request

Appropriation: 4GP - Forest Health Program

Funding Sources: FIT - Federal Funds

This appropriation funds cost share programs to allow management of invasive weed species on private non-industrial forest lands. There is no Base Level budget because this appropriation was established through a Miscellaneous Federal Grant in the 2005-2007 biennium.

The Agency Change Level request is comprised of \$35,650 per year in Grants and Aid. The Change Level request is 100 percent federally funded.

The Executive Recommendation provides for the consolidation of all operations and appropriations of the State Forestry Commission into the Arkansas Agriculture Department. Further, the Executive Recommendation for this appropriation provides for the Agency Request.

Analysis of Budget Request

Appropriation: 4GQ - Forest Legacy

Funding Sources: FIT - Federal Funds

The Forest Legacy Program uses conservation easements and purchases to protect environmentally significant privately-owned forest lands that are threatened by conversion to non-forest uses.

There is no Base Level budget because this appropriation was established through a Miscellaneous Federal Grant in the 2005-2007 biennium.

The Agency Change Level request is comprised of \$25,000 per year in Operating Expenses for conservation of forest lands. The Change Level request is 100 percent federally funded.

The Executive Recommendation provides for the consolidation of all operations and appropriations of the State Forestry Commission into the Arkansas Agriculture Department. Further, the Executive Recommendation for this appropriation provides for the Agency Request.
