The Department prepares legislation and promulgates the rules and regulations required to effectively carry out its duties.

		Findings					Re	commendations		

- . INTERNAL CONTROL AND STATE COMPLIANCE MATTERS:
 - SECURITY DEPOSITS AND QUALIFYING BONDS
 - a. MARKET VALUE CUSTODIAL SECURITIES (Insurance companies conducting business in Arkansas are required by regulation to deposit, at approved safekeeping banks, securities assigned to the custody of the State Insurance Department. Insurance regulations also require the market value of the custodial securities to equal or exceed the required deposit amount. The Agency does not periodically verify and document that the market value of the custodial securities is equal to or exceeds the required deposit amount.)
 - b. BANK CONFIRMATIONS (Our comparison of bank confirmations to Agency records revealed that \$637,972.77 in custodial securities were not listed on Agency records.) This difference is a considerable improvement from preceding years; however, the Agency records should match the bank records.
 - c. CUSTODIAL SECURITY AGREEMENTS Agreements with approved safekeeping banks are in some cases more than twenty years old and are with institutions that no longer exist because of purchase or merger. Also, agreements have not been revised to incorporate current State Insurance Department Regulations into the custodial security agreements.

 a. Implement procedures to periodically verify and document that the insurance companies doing business in the State are in compliance with security deposit requirements.

- Periodically verify that bank confirmation financial data matches or reconciles to the Agency's custodial security records.
- Custodial security agreements be periodically reviewed and updated as needed.

⁾ Noted in previous year's audit report.

APPROPRIATION SUMMARY

BR 215

ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Insurance Department's Public Employees Claims Section is the processor of workers' compensation claims payments for employees of the State. It also continues to handle long-term claims filed before 1985 for employees of cities and counties and claims by public school employees filed before July 1, 1994. Revolving funds are the revenue sources for the appropriations through which claims payments are made.

Due to favorable results achieved by the Managed Care Program that has been applied to State employee workers' compensation cases and as long-term city, county, and public school employee claims are resolved through time, less appropriation will be required for claims paying accounts. Accordingly, the Department is requesting reductions in claims accounts as follows:

<u>1997-98</u>	1998-99
(\$1,500,000) (400,000) (700,000)	(\$2,000,000) (750,000) (1,050,000) (500,000)
	(\$1,500,000) (400,000)
