## AAAANSAS BULLET SISTEM AGENCY BUDGET COMMENTARY 2001 - 2003

The Arkansas School for the Blind (ASB) provides a variety of educational programs within the state's prescribed continuum of services for vision impaired students from 0 through the age of 21 years. The regular on-campus programming includes academic and vocational training, independent living training, residential living and extra curricular activities. Daily transportation is provided through local school districts for non-residential students. The Arkansas School for the Deaf provides weekly statewide transportation for residential students of both the Schools for the Blind and the School for the Deaf to and from home each weekend. This is one of the many efforts to make the program less restrictive to students and families. By law, the Arkansas School for the Deaf also provides maintenance and security services for the Arkansas School for the Blind. Joint services for Business, Accounting and Personnel are provided to both schools through the use of a Board approved paying account permitting the pooling of funds from each agency based on a ratio of student population at each school.

## PRIORITIES

Priority request for ASB include some small increases in Extra Help, Overtime, Maintenance and Operation, Summer School and larger increases in Salary and Matching, Capital Outlay and Professional fees.

The largest portion of our priority request is for Salary and Matching for three new positions, for upgrades for educational staff and for establishment of a CLIP group for houseparent positions. ASB is requesting three new positions: two Teachers for the Sensory Impaired and a Curriculum Specialist. The two teaching positions are needed to help in our understaffed Outreach Program, which works with public schools all over the State in their efforts to provide educational services for visually impaired children. The Curriculum Specialist position is needed to help provide a better-coordinated curriculum (especially the use of framework) and provide better supervision of teacher instructional methods.

Another large portion of our Salary request is for position upgrades; primarily

educational staff and the primary reason given for staff leaving has been higher pay that another school can offer. Our request is supported by Governor Huckabee's intention to raise salaries of teachers in Arkansas.

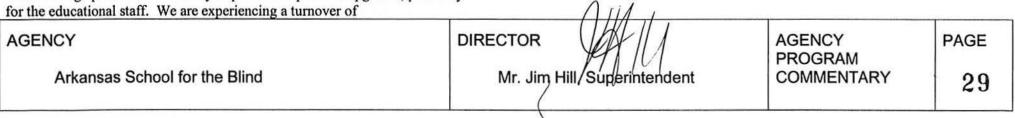

The last portion of our salary request is to establish a CLIP group for Houseparent positions. ASB is proposing to add two classified titles, Houseparent II and III to reflect the changing roles of dormitory staff from caretakers to instructional support staff.

Another large portion of our priority request is for Capital Outlay. Our state technology plan supports purchases of computers and other equipment for our teachers to use as educational tools in providing our students the best education possible. The balance of the capital outlay request is for new and replacement equipment in various departments, classrooms, and dormitories on campus.

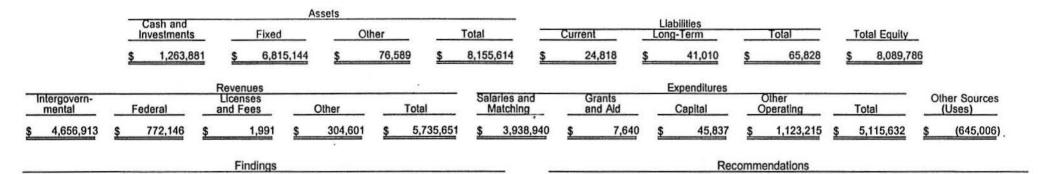

ASB's priority request included increases in Professional fees to help cover the increased cost of occupational and physical therapy services. Medicaid funds used to pay for these services have been reduced and IDEA (94-142) mandates these services be provided if included in a students individual education plan (IEP).

All federal programs priority request are seminar to the State salary and matching request for the educational staff upgrades. ASB is requesting additional authority to cover the many small educational grants the school receives each year. Replacement of capital outlay authority in each year of the federal programs is also being requested.

Priority request for cash appropriation for each year of the biennium is for Capital Outlay, to be used primarily in the Food Service Department for replacement of worn out equipment due to age and use.

## ARKANSAS BUDGET ANALYSIS OF BUDGET REQUEST 2001 - 2003

The Arkansas School for the Blind is requesting Base Level in the amount of \$374,508 each year and restoration of Capital Outlay in the amount of \$50,000 each year in the cash fund appropriation. Included in the Base Level is appropriation for Operating Expenses, Conference Fees and Travel, Professional Fees and Services and Special Maintenance. Cash funds are received through legacy donations and from USDA Reimbursements. This appropriation is used to supplement General Revenues when needed.

The Executive Recommendation provides for Agency Request.

## ARKANSAS BUDGET ANALYSIS OF BUDGET REQUEST 2001 - 2003

The Arkansas School for the Blind operates from a combination of General Revenue, Cash, and Federal Funds. This appropriation is funded with stabilized General Revenue and provides for the majority of the support of the school.

The Arkansas School for the Blind is requesting a Base Level which includes a pay plan increase of 2.6% each year over the FY01 salary levels and supporting Personal Services Matching costs. This General Revenue appropriation includes 100 Regular Salary positions, 12 Extra Help positions, and supporting Operating Expenses for the agency.

Change Level requests for the biennium include three additional positions, a Curriculum Specialist and two teacher positions, and various operations expenses. A request for \$5,000 is included each year for Extra Help to be used on an as needed basis to hire substitute teachers, houseparents, nurses, and food service workers. Operating Expenses is requested to cover the increased costs of utilities and for educational supplies. Professional Fees and Services is requested to address the needs of the increasing number of multi-handicapped students. State and federal law requires the school to identify the needs and provide physical and occupational therapy on an as needed basis to these students. This line item is also used in part to provide low vision testing to students. Capital Outlay is requested to purchase adaptive equipment for classrooms and dormitories and to replace school equipment on an as needed basis. The request for Summer School is made for use during the four-week summer school session. Appropriation is transferred from this line item to the line items for Regular Salaries and Personal Services Matching and expensed as needed. Requests were made for reclasses/upgrades for various positions as well as the Career Ladder Incentive Program.

The Executive Recommendation provides for the Agency Request for Overtime, Operating Expenses, Professional Fees, and Capital Outlay for appropriation only. The recommendation on reclasses/upgrades of positions differs from the requested classifications.

## ARKANSAS BUDGET ANALYSIS OF BUDGET REQUEST 2001 - 2003

The Arkansas School for the Blind is requesting a Base Level which includes a pay plan increase of 2.6% over the FY01 salary levels and related Personal Services Matching costs. Also included are 15 Regular Salary positions with supporting operating expenses. These funds represent federal Pre-School, Chapter 1 and Area Services funds received through the State Department of Education. No state matching funds are required for this appropriation.

The agency is requesting restoration of Capital Outlay in the amount of \$50,000 each year for equipment replacement and/or upgrading. Reclass as well as CLIP requests are included in the agency's Change Level request. The agency is also requesting Contingency appropriation in the amount of \$100,000 each year to allow for expedient program revisions in the event they become necessary.

The Executive Recommendation provides for the Agency Request for Capital Outlay and denies the Contingency request. The Executive Recommendation on reclassifications of positions differs from the requested classification and also reflects personnel changes consistent with the overall department structure.

## ARKANSAS BUDGET ANALYSIS OF 9UDGET REQUEST 2001 - 2003

The School for the Blind is requesting Base Level in the amount of \$125,000 for each year of the biennium in this General Revenue appropriation. The purpose of this appropriation is to enable the agency to purchase braille and large print textbooks for children who are visually impaired and attending public schools.

The Executive Recommendation provides for Agency Request.

## ARKANSAS BUDGET ANALYSIS OF BUDGET REQUEST 2001 - 2003

The Arkansas School for the Blind is requesting appropriation in the amount of \$160,000 each year of the biennium for the Medicaid Provider program. Funding for this program comes from Medicaid dollars. Approximately 60% of the students at the school are eligible for Medicaid and these funds may be used to purchase materials and equipment needed by these children. Funds are generated through eligible services provided to Medicaid eligible children. Matching funds in the amount of 25% are required. Appropriation for this program is currently authorized by a Miscellaneous Federal Grant and the agency requests continuation of the program.

The requests for Capital Outlay would be used to replace and upgrade equipment. Conference Fees and travel is requested for teacher workshops. Professional Fees and Services is requested for occupational and physical therapy, and Operating Expenses is needed for educational materials and supplies.

The Executive Recommendation provides for the Agency Request.

## ARKANSAS BUDGET ANALYSIS OF BUDGET REQUEST 2001 - 2003

The Arkansas School for the Blind is requesting appropriation for this federally funded program for Direct Instruction. Funds are received from the State Department of Education and used for reading programs in K-12, but the main focus is on the elementary level. The program is currently authorized by a Miscellaneous Federal Grant and the agency requests continuation.

Requests for Operating Expenses are to purchase educational materials and supplies. Professional Fees and Services are for Direct Instruction Consultants to work with teachers to upgrade their skills and Conference Fees and Travel is for teacher workshops.

The Executive Recommendation provides for the Agency Request.
