

**ARKANSAS BUDGET SYSTEM
AGENCY PROGRAM COMMENTARY
2001 - 2003**

Foothills Technical Institute operates a post-secondary technical institute, a secondary occupational training school, both credit and not-credit part-time evening and weekend training opportunities, on and off campus specialized business and industry training, and programs that are customized to meet the needs of business, industry and students. An agreement has been completed with ASU-B and UAMS to allow some of our students to articulate with them and receive an associate degree. Foothills provides a satellite downlink for business, industry and community forum meetings and other activities. A recent addition is a very popular program to train unemployed people in basic employability skills.

The post-secondary operation provides entry-level training in seventeen programs. The students in these programs usually attend full-time and receive job ready instruction. Entry level training is also provided at non-traditional hours and may take as long as four years to complete. These programs are gaining in popularity and are providing opportunities for employed people who want access to a new occupation. There is dire need for additional programs to provide opportunities for students in other occupations. This would also provide graduates for business and industry in positions for which there are now no opportunities for training.

The secondary center provides vocational-technical training for surrounding high schools on a part-time basis. Students usually attend our campus two hours each day and their home school the remainder of the day. Occupational training is made available in areas not offered at the home school. Credit for these courses is granted and recorded by the home school.

Evening and extension courses range from very specialized courses designed to assist a specific business or industry to the very popular and very generic computer training. The most popular time for these courses is at night; however, some are held at noon, some late afternoon, and others on weekends.

Foothills Technical Institute provides administrative, physical facility and utility support for the Central Arkansas Adult Education Center housed on Foothills' campus.

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
2001 - 2003**

Funding for this program is received from tuition (\$30 to approximately \$35 per hour), resale from the bookstore, and reimbursement programs such as Apprenticeship. This appropriation is used to supplement and enhance General Revenue funding.

Base Level includes positions and supporting operating expenses. The Base Level includes a pay plan increase of 2.6% each year over the FY01 salary levels, and related Personal Services Matching costs.

Change Level requests include additional positions and appropriation for Extra Help. During the 82nd General Assembly, the number of Extra Help positions were reduced and Part Time Faculty positions were authorized in their place. A change in the method of collecting the State's retirement contribution, which is based on the number of positions budgeted, made it fiscally impossible to budget many of these positions. As a result of the expense for insurance associated with regular positions, no Part Time Faculty positions were included in the request, and the reallocation of funds for Extra Help will allow the Institute to provide needed services. Capital Outlay is requested for new and replacement equipment as needed and Contingency appropriation is requested to allow the Institute to respond quickly to the needs of business and industry. Resale appropriation is needed for the bookstore and Professional Fees and Services is requested for contracts with the University.

The Executive Recommendation provides for the Agency Request, with the exception of Contingency.

<p>In the last budget session, we received part-time faculty positions in our regular salary appropriation. These positions were to be used for adjunct faculty. During the same session, the State Employees Insurance matching law was passed that all regular salary positions must have matching paid on them. We could not afford to pay matching on all of these employees who would not be enrolled in the program. Therefore, we would like to exchange the part-time faculty positions for our extra help positions.</p>																		
002		185	540 B56 020 INSTRUCTION	C07			90,000 0			90,000 0								
<p>Foothills Technical Institute frequently receives funding from a variety of sources. Some state agencies make funds available to Foothills for training of various kinds. Sometimes private companies give us money for training. All of these funds require appropriation in order to efficiently utilize the opportunities available to provide services to the people of our area.</p>

<p>Foothills Technical Institute uses Professional Services for our Federal (Pell) Student Aid third-party service provider. We also use professional services to contract out some of the off campus training. The need for these services can only increase in number and cost. Professional services are also necessary in other aspects of our operation.</p>																		
005		185	540 056 020 INSTRUCTION	C03			50,000					50,000			50,000	50,000		
<p>There is no way Foothills Technical Institute can maintain adequate, up-to-date equipment in the workforce environment. Every effort must be made, however, to stay as close as possible. Since the cash funds must represent, to some degree, contingency provision to be used for emergencies that cannot be predicted, equipment purchases are requested from these funds to allow efficient and good business purchases when possible. This is an educational cost center. It is very important that we make every effort to stay as nearly up-to-date with employer's equipment. They, unlike state agencies, can use the profit factor in justifying expenditures. Our graduates must know how to use the equipment they will find when they go to work.</p>

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
2001 - 2003**

Foothills Technical Institute is responding to a need by industry brought about by computer advances. Microcomputer repair and local area network training is emphasized.

The Base Level for this General Revenue funded appropriation includes Regular Salary positions, Extra Help, and supporting operating expenses. During the 82nd General Assembly, Extra Help positions were exchanged for Part Time Faculty positions. This resulted in a much higher cost than anticipated when the method of collecting the State's insurance contribution was calculated based on budgeted positions. For this reason, the Institute is requesting Extra Help positions in exchange for the Part Time Faculty positions in the Change Level request. No Part Time Faculty positions are requested for the biennium. Additional requests include Operating Expenses and Capital Outlay to respond to the rapidly changing technologies used in the diversified marketplace in which our workers must compete, Travel for staff development, Professional Fees and Services for contracts with the University, and Overtime. Contingency appropriation is requested to allow the Institute to meet unforeseen needs from the business community. Various personnel requests are made, including three additional positions (one each for Administration, Instruction, and Maintenance) and CLIP and reclass requests.

The Executive Recommendation provides for the reallocation of positions to Extra Help, the requests for Overtime, Professional Fees and Services, and Capital Outlay, and a 5% increase over the Base Level each year for Operating Expenses. All recommendations above the Base Level are for appropriation only. Workforce 2000 funds are also made available to the Institute and will supplement the funds seen in this budget. Current law provides for appropriation and funding for Workforce 2000 to be transferred to the Institute on a monthly basis. The Institute is encouraged to engage the local communities and businesses it serves by developing a partnership to meet the local workforce education needs with emphasis on accountability and productivity. Local contributions along with state resources can provide a significant enhancement of the instructional programs.

Budgeted exceeds Authorized due to transfers from Contingency.

APPROPRIATION SUMMARY

The number of positions recommended is less than the base due to the reclassification of regular positions to extra help.

BR 215

Base Level Regular Salaries and Matching will significantly exceed the FY01 Budgeted Level due to non-classified positions being budgeted in the Base at the line item maximum plus 2.6%, while actually being budgeted at levels significantly below the maximum established in law for FY01.

Foothills Technical Institute has over 100 computers. The need for additional and replacement machines is enormous. Since FTI is a training institution, it is imperative that we remain, as close as practical, to the industry standard our graduates will encounter when they enter the work force. Repair costs continue to rise as the equipment ages. We are able to use older computers to teach the simpler programs but repairs, while not as costly as new machines are costly. Professional services and educational training are necessary to stay up on changes taking place in this rapidly advancing technology.

In the last budget session, we received part-time faculty positions in our regular salary appropriation. These positions were to be used for adjunct faculty. During the same session, the State Employees Insurance matching law was passed that all regular salary positions must have matching paid on them. We could not afford to pay matching on all of these employees who would not be enrolled in the program. Therefore, we would like to exchange the part-time faculty positions for our extra help positions.

<p>Currently the President of Foothills Technical Institute serves in the role as Chief Fiscal Officer along with other duties. With the changes that have taken place in the last couple of years, we feel that Foothills would be better served in having a Chief Fiscal Officer to handle the added responsibilities.</p>																			
002		ETF	540 713 010 ADMINISTRATION	C10			19,236 0			22,074 0									
<p>Foothills has been restructuring over the last several years. We now have our own budget and are more independent. The President position needs to be reclassified to be more in line with the additional job duties and responsibilities that are being done. The Administrative Assistant needs to be reclassified to be in line with the type of duties that are being performed.</p>

In 1991 the legislature mandated that they develop a funding formula to be approved by the State Board for Vocational Education. A formula was developed and approved by the board but never used for Budget Request purposes. The requests contained in this change number are in keeping with that formula. The school is thirty-four years old. Many buildings are equally old. The cost of building repairs and supplies go up with each additional year. Equipment to maintain the buildings and grounds have deteriorated due to inadequate funds and funds being deviated to instructional purposes. Good repair, maintenance and appearance of the school is essential to good instruction, recruiting and placement

**ARKANSAS BUDGET SYSTEM
ANALYSIS OF BUDGET REQUEST
2001 - 2003**

Funding for this appropriation is derived from Carl D. Perkins Vocational and Applied Technology Education Act, P.L.101-392 and from reimbursement programs such as the Jobs Training Partnership Act.

Base Level includes positions and supporting operating expenses. The Base Level includes a pay plan increase of 2.6% each year over the FY01 salary levels, and related Personal Services Matching costs.

The Institute is requesting Base Level as well as Contingency appropriation to quickly respond to the needs of business and industry. A reclassification is requested for one Workforce Faculty position to an Agency Program Coordinator position.

The Executive Recommendation provides for Base Level.
