## **Analysis of Budget Request**

**Appropriation:** 4KS - Nursing Home Quality

**Funding Sources:** TLT - Long Term Care Trust Fund

The Nursing Home Quality of Life appropriation provides funding to initiatives that directly address, and improve, the quality of life of residents of nursing facilities. The fund has no State General Revenue; the monies in the fund are civil money penalties imposed by the federal Centers for Medicare and Medicaid Services (CMS) or the Arkansas Department of Human Services' Office of Long Term Care. Uses include:

- Payment of operating costs when nursing facility operators are unwilling or unable to continue to provide care to residents and the Arkansas Department of Human Services must take over operations temporarily.
- Grants to entities that submit proposals that are reviewed and approved by CMS that directly improve the quality of life of residents. Examples are development of new activities programs or memory stimulation programs.
- Eden Alternative or Greenhouse Project approach to nursing facility designs and operations. Both the Eden Alternative and the Greenhouse Project are attempts to create a new model for long-term care facilities that emphasizes a more home style environment over traditional institutional settings. Evidence indicates that residents of facilities operated under either approach perform significantly better than residents of traditional long-term care facilities.

Continuing level of appropriation is the FY2021 Authorized.

The Division is requesting to continue appropriation in the amount of \$4,000,000 in both years of the biennium.

The Executive Recommendation provides for the Agency Request.

As authorized by A.C.A. §20-10-901 et seq., the Long Term Care Facility Receivership appropriation is used to pay the expenses of receivers appointed, if a nursing home is placed in receivership. Payment may not be made from this account until a court of law has found that a nursing home has insufficient funds to pay a receiver after all other operating expenses of the facility have been paid. The funding for this appropriation is from reimbursement at the beginning of a biennium from the general revenue fund account of the state apportionment fund prior to the distribution of revenue stabilization law with a maximum amount of one hundred thousand dollars (\$100,000).

Continuing level of appropriation is the FY2021 Authorized.

The Division is requesting to continue appropriation in the amount of \$100,000 in both years of the biennium.

The Executive Recommendation provides for the Agency Request.

## **Analysis of Budget Request**

**Appropriation:** 896 - DHS–Admin Paying Account

**Funding Sources:** PWP - Administration Paying

Act 348 of 1985 authorized the reorganization of the Department of Human Services. As part of this reorganization, the Division of Social Services became the Division of Economic and Medical Services. Act 164 of 1995 eliminated the Division of Economic and Medical Services, creating the Division of Medical Services, while functions at the county level were assigned to the Division of County Operations (formerly the Division of Program Operations). The Division of Medical Services' primary responsibility is management of the Arkansas Medicaid program, which was created by the passage of Title XIX of the Social Security Act of 1965, with Arkansas implementing the program on January 1, 1970.

Medicaid enables states to furnish:

- Medical assistance to those who have insufficient income and resources to meet the costs of necessary medical services.
- Rehabilitation and other services to help these families and individuals become or remain independent and able to care for themselves.

Each state has some sort of Medicaid program to meet the federal mandates and requirements as laid out in Title XIX. Arkansas, however, established a medical care program 26 years before passage of the federal laws requiring health care for the needy: Section 7 of Act 280 of 1939 and Act 416 of 1977 authorized the State of Arkansas to establish and maintain a medical care program for the indigent and vested responsibility for regulating and administering the program in the Arkansas Department of Human Services. This program receives federal grants under Title XIX. Thus Arkansas Medicaid is a joint federal and state program that provides necessary medical services to eligible persons who are not able to pay for such services. Individuals are certified as eligible for Medicaid services through the state's county Human Services Offices or District Social Security Offices. The Social Security Administration automatically sends SSI recipient information to DHS.

The Arkansas Medicaid Program is divided into three (3) forms of services:

- Twelve visits to hospital outpatient departments allowed per state fiscal year.
- A total of twelve office visits allowed per state fiscal year for any combination of the following: certified nurse midwife, nurse practitioner,

physician, medical services provided by a dentist, medical services furnished by an optometrist, and Rural Health Clinics.

- Three pharmaceutical prescriptions are allowed per month (family planning and tobacco cessation prescriptions are not counted against benefit limit; unlimited prescriptions for nursing facility beneficiaries and EPSDT beneficiaries under age 21). Extensions will be considered up to a maximum of six (6) prescriptions per month for beneficiaries at risk of institutionalization. Beneficiaries receiving services through the Assisted Living waiver may receive up to nine (9) medically necessary prescriptions per month. Medicare-Medicaid beneficiaries (dual eligibles) receive their drugs through the Medicare Part D program as of January 1, 2006.

Additional Information for limitations relating to children:

- The families of some children are responsible for co-insurance, co-payments, or premiums.
- Co-insurance: ARKids B beneficiaries must pay 10% of the charges for the first Medicaid covered day of inpatient hospital services and must also pay co-insurance for some outpatient and DME services.
- Co-Pay: ARKids B beneficiaries must pay a co-payment for most services; for example \$10.00 for most office visits and \$5.00 for most prescription drugs (and must use generic drugs and manufacturer rebates, if available). ARKids B beneficiaries annual cost-sharing is capped at 5% of the family's gross annual income.
- Premiums: Based on family income certain TEFRA beneficiaries must pay a premium. TEFRA families whose income is at or below 150% of the Federal Poverty level cannot be assessed a premium.

*Any and all exceptions to benefit limits are based on medical necessity.*

The Division consists of the Director's Office and six (6) distinct organizational units:

**Program and Provider Management:** The Office of Program and Provider Management includes the following operations: Provider & Member Relations, Dental, Visual and EPSDT, Behavioral Health and Utilization Review. The Provider and Member Relations, Dental, Visual and EPSDT section administers the Dental, Visual and Child Health Services (EPSDT) Medicaid programs and oversees the non-emergency transportation program, Medicaid Managed Care Systems and ConnectCare programs. This section also assists providers and beneficiaries in resolving matters related to billing and coverage. The Utilization Review section develops healthcare policies based on recognized standards of care, current healthcare initiatives and participation from community stakeholders to ensure adequate coverage benefits for Medicaid

beneficiaries. Utilization review monitors the quality and medical necessity of services delivered by Medicaid health care providers. In addition this section is responsible for the prior authorization of medically necessary services such as transplants, extension of benefits, prosthetics, hearing aids, hyperalimentation services and out of state transportation.

**Medicaid Information Management:** The Office of Medicaid Information Management is responsible for administering the Medicaid Management Information System (MMIS) which processes all Medicaid claims. The MMIS Systems and Support Unit procures and administers the contracted fiscal agent that operates the MMIS. This Unit also monitors the fiscal agent's contract compliance, performs quality assurance reviews on how the MMIS operates, manages requests for modifications to the MMIS, develops enhancements to the MMIS, and develops and produces reports from the Medicaid data warehouse.

**Program and Administrative Support:** The Office of Program and Administrative Support includes the following operations: Financial Activities, Provider Reimbursement and Third Party Liability. The Financial Activities unit performs such functions as program and operational budgeting, expenditure monitoring and evaluation, federal and state reporting, and administrative support such as personnel management, contract issuance and management, requests for proposals, and the preparation of interagency agreements. The Provider Reimbursement unit is responsible for maintaining rate files, establishing and administering methodologies for provider reimbursements, including cost reports and cost settlements, and financial aspects of the Office of Long Term Care such as budgeting, reimbursement, and audits of provider cost reports. The Third Party Liability area is responsible for implementing cost-avoidance procedures to prevent the payment of Medicaid monies when other (third) parties such as private insurance companies should pay the claim. In addition, in those instances where cost-avoidance is not successful, the Third Party Liability unit is responsible for pursuing recoupment of Medicaid monies.

**Pharmacy:** The Pharmacy Office is responsible for assuring that medically necessary pharmaceutical therapy is provided to Arkansas Medicaid recipients. It seeks to deliver these services cost effectively while complying with all state and federal requirements. The OBRA 90 statute requires states to cover all outpatient drugs by a manufacturer who signs a rebate agreement with the Centers for Medicare / Medicaid (CMS) as well as to establish a Drug Utilization Review (DUR) Board which is under the direction of the Pharmacy Office. The Office researches clinical data, develops the clinical criteria and edits for various drugs and drug classes, then works directly with the state's fiscal agent to apply the criteria and edits within the software, is the project manager for the stated evidenced-based prescription drug program, researches and reviews claims information to assist providers, beneficiaries and interested parties and researches exception criteria to assist physicians.

**Policy, Program and Contract Oversight:** The Policy, Program and Contract Oversight consists of three units. The Program Planning and Development (PPD) unit develops and maintains the Medicaid State Plan and the State's Child Health Insurance Program Plan, both required by CMS. This Unit develops and maintains fifty-seven (57) different Medicaid provider policy manuals, which include information on covered services, benefit limits, prior approvals, and billing procedures. The Waiver Quality Assurance unit is responsible for monitoring operation of the Medicaid waiver programs. The Waiver QA unit assures compliance with CMS requirements for operating the waivers through case reviews, data analysis, technical assistance to operating agencies, communication and coordination with CMS, developing new waivers and amendments to existing waivers, and developing QA strategies and interagency agreements for the waivers. The Contract Oversight unit is responsible for assisting program and contract staff in developing performance indicators for contracts and monitoring the performance of all Division of Medical Services contractors.

**Healthcare Innovation:** The Health Care Innovation Unit is responsible for directing the operations and activities to redesign the Medicaid payment and service delivery systems by working with multi-payers, staff, and contractors to design and deliver episodes of care for acute conditions; implement new models of population based health for chronic conditions; develop and coordinate infrastructure requirements; and facilitate stakeholder, provider and patient engagement. Arkansas Medicaid is creating a patient-centered health care system that embraces the triple aim: (1) improving the health of the population; (2) enhancing the patient experience of care, including quality, access, and reliability; and (3) reducing, or at least controlling, the cost of health care. This will be accomplished by transforming the vast majority of care and payment from a fee for service models to models that reward and support providers for delivering improved outcomes and high quality, cost effective care.

**Coordination of Coverage:** The Coordination of Coverage Unit is responsible for coordinating any DMS efforts in the implementation of the Affordable Care Act, identifying potential improvement in the Medicaid consumer experience, and ongoing coordination of coverage for Medicaid recipients as they move in and out of Medicaid and other health insurance plans through the upcoming health insurance exchange. In addition, this new team will participate in other Medicaid changes, and will coordinate with all areas within DMS, several other DHS Divisions, and other State agencies.

The Agency is funded through general revenue (DEM - Medical Services Fund Account), federal and other revenues. Federal revenue is provided through the U. S. Department of Health and Human Services, Centers for Medicare and Medicaid Services. Other revenues which are indicated as various program support are derived from Third Party Liability Recovery, Nurse Aide Training and Long-Term Care Licensure Fees.

With the exception of Regular Salaries and Personal Services Matching, continuing level of appropriation is the FY2021 Authorized.

The Division is requesting appropriation in the amount of \$12,532,980 in FY22 and \$12,540,528 in FY23 and general revenue funding in the amount of \$2,325,764 in FY22 and \$2,333,276 in FY23.

The Agency Request includes the following changes for both years:

- The following position change results in a decrease of (\$89,632) in Regular Salaries and (\$26,364) in Personal Services Matching appropriation:
  - (1) position to the Division of Provider Services and Quality Assurance to serve as Deputy Director
- Decrease of (\$60,000) in Conference and Travel appropriation
- Increase of \$161,493 in Professional Fees appropriation

The Executive Recommendation provides for the Agency Request and discontinuation of (1) position and reclassification of 3 positions. This results in a decrease of (\$31,278) in Regular Salaries appropriation and a decrease of (\$12,841) in Personal Services Matching appropriation in both FY22 and FY23.

## **Analysis of Budget Request**

**Appropriation:** 897 - DHS-Grants Paying Account

**Funding Sources:** PWD - Grants Paying

### **Prescription Drugs Appropriation**

The Prescription Drugs appropriation is an optional Medicaid service chosen by Arkansas. The program allows eligible recipients to obtain prescription medication through participating pharmacies in Arkansas. Reimbursement for the program is based on the drug cost and the fee for dispensing pharmaceuticals. The Omnibus Budget Reconciliation Act of 1990 authorized rebates from pharmaceutical manufacturers. The federal share is returned and the amount retained by the state is calculated based upon the state matching rate for Medicaid.

Funding for this program is derived from general revenues (DGF - DHS Grants Fund Account), federal and other revenues. Federal revenue derived from Title XIX - Medicaid, U. S. Department of Health and Human Services, Centers for Medicare and Medicaid Services. Other revenues which are indicated as drug rebates, the Medicaid Trust Fund, and various program support which can include Medicaid match. Additionally, tobacco settlement funding can be utilized in this appropriation if Section 11 of Act 2 of the First Extraordinary Session of 2002 is invoked and approved by the Governor and the Chief Fiscal Officer of the State.

Continuing level of appropriation is the FY2021 Authorized.

The Division is requesting to continue appropriation in the amount of \$579,386,547 for both years of the biennium and general revenue funding in the amount of \$149,734,678 in FY22 and \$161,970,886 in FY23.

The Executive Recommendation provides for the Agency Request in appropriation only. The Executive Recommendation provides for general revenue funding in the amount of \$122,794,055 in FY22 and FY23

### **Private Nursing Home Care Appropriation**

The Private Nursing Home Care appropriation pays expenses for individuals who reside in nursing homes and are eligible to receive Medicaid Benefits. The residents in nursing home facilities have chronic medical needs. The referring physician must certify medical need with documented evidence of why services are needed in order for a person to be admitted and remain in a nursing home. Each Medicaid certified nursing facility evaluates each nursing home applicant's need for nursing home services. A thorough and complete evaluation must be conducted to ensure that individuals who do not require nursing home services are not admitted to nursing facilities. For Medicaid eligible recipients, the Office of Long Term Care cannot guarantee Medicaid reimbursement for any applicant admitted prior to approval by the Office of Long Term Care Medical Needs Determination section. No applicant with diagnoses or other indicators of mental illness, intellectual disability, or developmental disabilities may be admitted to nursing home care prior to evaluation and approval by the Office of Long Term Care.

In general, nursing homes provide total care for their residents--meeting needs from social to dietary to medical. They are staffed by licensed

nurses and certified nursing assistants. Nursing homes accept a variety of payment methods, such as private pay (which includes insurance), Medicaid, and Medicare. No age requirement applies to nursing home placements.

In addition to the provider payments noted above, Act 689 of 1987 created the Long-Term Care Aide Training program. Under this Act, the Office of Long Term Care was required to establish a training program to be completed by all aides in long term care facilities who provide personal care to residents. This program consists of 75 hours of training and is payable from the Private Nursing Home Care appropriation.

Funding for this program is derived from general revenues (DGF - DHS Grants Fund Account), federal and other revenues. Federal revenue derived from Title XIX - Medicaid, U. S. Department of Health and Human Services, Centers for Medicare and Medicaid Services. Other revenues which are indicated as quality assurance fee per Act 635 of 2001, various program support which can include nursing home administration fees and Medicaid match, miscellaneous transfers derived from Arkansas Code Annotated §17-24-305(b)(1)(A), and the Medicaid Trust Fund. Additionally, tobacco settlement funding can be utilized in this appropriation if Section 11 of Act 2 of the First Extraordinary Session of 2002 is invoked and approved by the Governor and the Chief Fiscal Officer of the State.

Continuing level of appropriation is the FY2021 Authorized.

The Division is requesting appropriation in the amount of \$842,142,061 for both years of the biennium and general revenue funding in the amount of \$121,781,621 in FY22 and \$127,055,067 in FY23.

The Agency Request includes the following changes for both years:

- Increase of \$17,426,786 in appropriation as a result of reallocation from Hospital and Medical Services (PWD8600) to better align with the current forecast.

The Executive Recommendation provides for the Agency Request in appropriation only. The Executive Recommendation provides for general revenue funding in the amount of \$121,781,621 in FY22 and FY23.

### **ARKIDS B Program Appropriation**

The ArKids B program appropriation provides medical services for children who are without medical insurance coverage. Many of the parents of these children are employed but are unable to afford the necessary coverage for their children. The parents earn sufficient salaries that make them ineligible for coverage by Medicaid, thereby leaving the children without medical care.

ArKids B Program is an optional Medicaid service chosen by Arkansas and is authorized through a federal waiver to the Medicaid program that expands coverage to children in families with income at or below 200 percent of the federal poverty level. Services are available only to children through 18 years of age and are otherwise ineligible to receive Medicaid benefits. Each child must have a Primary Care Physician who will either provide the needed services or make the appropriate referral for medically necessary treatment. A patient co-payment is required per physician visit and per prescription. Effective July 1, 2006, DHS set an annual cap on cost-sharing (co-payments and coinsurance) for ARKids B families. The annual cost-sharing cap is 5% of the family's annual gross (before taxes) income.

The ArKids B Program appropriation has two (2) components and they are as follows:

- Prescription Drugs
- Hospital/Medical

Prescription Drugs component has coverage limits based on medical necessity with a \$5 per prescription co-pay and the recipient must use generic and rebate manufacturers.

Generally, the Hospital/Medical component benefits include such programs as inpatient hospital, physician visits, vision care (1 visit per year for routine exam and 1 pair of eyeglasses), dental services (2 visits per year for cleaning, x-rays, no orthodontia), medical supplies, home health services and emergency room services, ambulance (emergency only), ambulatory surgical center, durable medical equipment (\$500 per year), family planning, FQHC, nurse midwife, outpatient mental and behavior health (\$2,500 limit), podiatry, RHC and speech therapy with some form of co-pay required. Immunizations and preventative health screenings per protocols provided by the primary care physician or Division of Health require no patient co-payments.

Funding for this program is derived from general revenues (DGF - DHS Grants Fund Account), federal and other revenues. Federal revenue derived from Title XIX - Medicaid, U. S. Department of Health and Human Services, Centers for Medicare and Medicaid Services. Other revenues which are indicated as the Medicaid Trust Fund, and as various program support which can include Medicaid match. Additionally, tobacco settlement funding can be utilized in this appropriation if Section 11 of Act 2 of the First Extraordinary Session of 2002 is invoked and approved by the Governor and the Chief Fiscal Officer of the State.

Continuing level of appropriation is the FY2021 Authorized.

The Division is requesting to continue appropriation in the amount of \$207,222,020 and general revenue funding in the amount of \$21,046,514 both years of the biennium.

The Executive Recommendation provides for the Agency Request.

### **Hospital and Medical Services Appropriation**

The Hospital and Medical Services appropriation is one of several federally supported and state administered assistance programs within the Medicaid program and consists of many services including inpatient and outpatient hospital, community mental health centers, community health centers, rural health clinics, home health, private duty nursing, personal care, hospice, practitioners such as physicians, dentists, audiologist, psychologist, speech, occupational and physical therapists, maternity clinics, family planning, laboratory and x-ray services, case management, transportation and Early and Periodic Screening, Diagnosis and Treatment (EPSDT) for children under 21 years of age which is the Child Health Services Program. Waiver services are also included in this appropriation. Waiver services are those that the Centers for Medicare and Medicaid Services have waived traditional provisions of the Medicaid regulations and allow deviations in how and where the services are provided and include programs such as Elderchoices, DDS-Non-institutional Waiver and Adults with Physical Disabilities. Payments are made directly to providers for services for individuals who are eligible for Medicaid services. The State establishes

reimbursement rates and the methodology for rate setting. However, the Centers for Medicare and Medicaid Services must approve the state's policy(ies) and regulations in order for the State to be in compliance with guidelines established in federal law.

Funding for this program is derived from general revenues (DGF - DHS Grants Fund Account), federal and other revenues. Federal revenue derived from Title XIX - Medicaid, U. S. Department of Health and Human Services, Centers for Medicare and Medicaid Services. Other revenues which are indicated as Medicaid Trust Fund, intermediate care facilities for individuals with developmental disabilities or ICF/MR provider fee per Act 433 of 2009, hospital assessment fee per Act 562 of 2009 (as amended per Act 19 of 2011), and as various program support which can include matching funds from UAMS (from general revenue), Department of Education (from cash funds), Arkansas Children's Hospital, DHS Divisions (from general revenue) for services such as Therapies, Transportation, Waiver services, UPL-Upper Payment Limit match, DSH-Disproportionate Share Hospital payments, etc. Additionally, tobacco settlement funding can be utilized in this appropriation if Section 11 of Act 2 of the First Extraordinary Session of 2002 is invoked and approved by the Governor and the Chief Fiscal Officer of the State.

Continuing level of appropriation is the FY2021 Authorized.
