

Attention Arkansas Class A CDL holders: The state of Arkansas now requires anyone applying for/renewing their Class A CDL to become a Certified Trucker Against Trafficking

Law goes into effect
July 31, 2017

Certified Trucker Against Trafficking

You must complete this free, 30-minute program and show proof of your certificate (either in printed form or a screen-shot image) in order to obtain your Class A CDL.

To complete the certification program:

- 1) Go to: education.TruckersAgainstTrafficking.org
- 2) Click "Get Certified," register, and then complete the course by watching the video and taking the short quiz.
- 3) Upon passing, you will have the option to print and/or download your certificate. You may also want to take a screenshot of this image, if on your mobile device.
- 4) Obtain a copy of your certificate and present it to the Department of Finance and Administration when applying for/renewing your Class A CDL.

If your company has already implemented the Truckers Against Trafficking (TAT) training program, please ask your employer to contact TAT about creating a co-branded certificate. This will prevent you from having to go through the certification program online.

Email or call us with questions or for more info:
