VENDING OPTIONS

Taxpayers are given 3 options to manage their vending operations in Arkansas. All vending machines must display a vending device decal, no matter which option is chosen.

Option 1 involves the payment of sales tax directly to the supplier of all merchandise to be sold through the taxpayer's vending machines. Food sold through a vending machine can qualify for taxation at the 1.5% Reduced Food Tax rate. No Sales/Use Tax permit is required. A one-time registration is required, at which time decals are ordered for placement on the vending machines. Each fiscal year, decals are re-ordered and placed on the vending machines. There is no fee for Option 1 decals.

Option 2 involves reporting/paying the 7% Wholesale Vending Tax (see Rule 1995-2) each month on the merchandise to be sold through the taxpayer's vending machines. Merchandise is purchased tax free under the sale for resale exemption. The taxpayer files an ET-1 Excise Tax Report and pays the 7% tax. A one-time registration is required, at which time decals are ordered for placement on the vending machines. Each fiscal year, decals are re-ordered and placed on the vending machines. There is no fee for Option 2 decals.

Option 3 involves exempting vending merchandise purchases from tax under the sale for resale exemption. A one-time registration is required, at which time decals are purchased (see Section B Option and Decal Selection). The vending machine operator purchases these annual decals based on various factors - manual verses electric vending equipment, value of the vended goods, and bulk verses individually vended goods.
