NOTE: THE FOLLOWING IS A BRIEF DESCRIPTION OF EACH ACT AND IS NOT INTENDED TO REPLACE A CAREFUL READING OF THE ACT IN ITS ENTIRETY.

Act 218 of 2007 adopted certain recent changes to the IRS Code of 1986 as in effect January 1, 2007.

Act 369 provides for an extension of time up to 180 days to file certain tax returns. The Act amends ACA 26-18-505(a)(3) to change the maximum time from filing any return from 120 to 180 days. Calendar year exempt organizations that are required to file a return shall file on or before May 15th, if fiscal year, on or before the expiration of four and one half months after the close of the period. Effective for tax years beginning on or after January 1, 2007.

Act 380 requires a Subchapter S Corporation to attach a copy of its federal income tax return and requires that Subchapter S election and shareholder consents be filed on forms prescribed by the Director. Effective for tax years beginning on or after January 1, 2007.

Act 389 revises the Regional Mobility Authority adding ACA 27-76-603 for bonds issued and income from the bonds, including any profit made on the sale or transfer of the bonds exempt from taxation in Arkansas.

Act 518 creates the Delta Geotourism Act of 2007 providing an income tax credit for Geotourism investment in the lower Mississippi River Delta.

Act 566 establishes the Equity Investment Incentive Act of 2007 to provide incentives in the form of tax credits to persons or companies investing in eligible businesses as defined in ACA 15-4-2703(43).

Act 613 amends ACA 26-51-428(a) to adopt Section 179 of the IRS Code as in effect on January 1, 2007. The funding provisions of this act were certified on August 10, 2007, for use during FY08 and FY09 to replace the revenue reduction that will result in the adoption of IRC 179.

Act 695 amends Arkansas Code Title 20, Chapter 8 to add Subchapter 20-8-507 to create an income tax check off to the Newborn Umbilical Cord Blood Initiative.

Act 722 adds Arkansas Code 25-18-701 to permit the state to use electronic records and electronic signatures and shall be implemented no later than June 20, 2009.

Act 990 amends Arkansas Code Title 26, Chapter 51, Subchapter 3 to create a tax incentive plan to encourage economic development by providing a limited income tax exemption for manufacturers of windmill blades.

Act 1003 amends ACA 6-50-702, The Workforce Training Act changing the training credit for instructional hourly rate from \$60 per hour to \$80 for using instructors from state supported educational institutions and from \$15 per hour to \$25 for using company employee or consultant trainers and allows training of employees to qualify for the credit.

Act 1045 amends Arkansas Code Title 14 to authorize the creation and operation of research park authorities for the purpose of economic development, exempting the property from all state, county and municipal taxes including income tax, inheritance and estate tax. The act allows contributions to research park authorities to qualify for the credit provided by ACA 26-51-1103.

IMPORTANT REMINDERS FOR 2007

State Tax Depreciation Unaffected By New Federal Laws

Arkansas has not adopted the depreciation provisions contained in the Job Creation Workers Act of 2002, the Jobs and Growth Tax Relief Reconciliation Act of 2003, the Working Families Relief and American Jobs Creation Acts of 2004 or the Energy Tax Incentive Act of 2005 or the Gulf Zone Opportunity Act of 2005, therefore on Arkansas income tax returns, taxpayers must file following the rules in sections 167, 168, and 179A under the Internal Revenue Code of 1986, enacted January 1, 1999.

Subchapter S Corporation Must Have Federal Election (Act 261 of 2005)

The act requires a corporation to have elected Subchapter S treatment for federal income tax purposes if electing Subchapter S treatment for Arkansas income tax purposes for the same tax year. The act is effective for tax years beginning on or after January 1, 2005.

Pass-Through Entities Required To Withhold Income Tax (Act 1982 of 2005)

This act requires pass-through entities to withhold income tax on the applicable distributions to nonresidents that are attributable to income from sources within the state. A pass-through entity is a business entity (corporation treated as a Subchapter S corporation, a general partnership, limited partnership, limited liability partnership, limited liability company, or a trust) that is not taxed as a corporation for federal or Arkansas income tax purposes.

The pass-through entity is required to file an annual return in electronic format that shows the total amount of income distributed or credited to its nonresident members and the amount of tax withheld and remit the tax.

A pass-through entity is not required to withhold tax for a nonresident if:

1. The member's share of income is less than \$1,000;
2. The member's income is not subject to withholding;
3. The member elects to have the tax paid as part of a composite return filed by the pass-through entity as allowed by the act;
4. The entity is a publicly traded partnership as defined by IRC 7704(b) that is treated as a partnership for federal tax purposes and has agreed to file an annual information return reporting the name, address, and taxpayer identification number of each member with Arkansas income greater than \$500;
5. The entity has filed the member's signed agreement to file and pay Arkansas nonresident income tax; or
6. The member's income is exempt from Arkansas income tax pursuant to Ark. Code Ann. 26-51-202(e)

This act is effective for tax years beginning on or after January 1, 2006.

Amendment To Enterprise Zone Program Of 1993 (Act 443 of 2005)

ACA 15-4-1704(h) was amended to require that employees be hired within sixty (60) months of approval into the Enterprise Zone Program of 1993, to provide consistency with other economic development tax incentive programs and establish a clear ending point for this program. The economic development tax incentive benefits from the Enterprise Zone Program of 1993 were replaced with the benefits as granted by the provision of the Consolidated Incentive Act of 2003. The Consolidated Incentive Act limits the tax credit to new employee payroll that is paid within 60 months of the financial agreement date.

Nonprofit Incentive Act Established (Act 1277 of 2005)

This act establishes the Nonprofit Incentive Act of 2005, which allows a state and local sales and use tax refund and payroll rebate incentives to eligible nonprofit organizations approved by ADED.

The payroll rebate is based on the incentive agreement between the nonprofit organization and ADED. The nonprofit organization must have a minimum of \$1,000,000 payroll for new full time permanent employees to qualify for the payroll rebate. The nonprofit organization must meet the \$1,000,000 payroll requirement within 24 months of initiating the agreement. ADED may authorize the payroll rebate incentive for up to 5 years. The organization will be subject to repayment of the payroll rebate, plus 10% interest if it fails to maintain the \$1,000,000 payroll and the 110% average hourly wage thresholds.

Arkansas Capital Development Company Act Amended (Act 1759 of 2005)

This act amends the Arkansas Capital Development Company Act to limit the maximum amount of tax credits available in any calendar year. The cap is \$5,000,000 per calendar year, with an additional \$1,250,000 allowed if approved by the Director of DFA, who must certify that issuance of the additional amount will not harm or adversely affect public education or other government programs or functions funded by general revenues.

The act amends the CDCA to clarify and define what types of transactions are permissible and are eligible for the tax credit. It extends by 2 years the period during which a purchaser must invest to be eligible for this tax credit (from 2013 to 2015) and the last tax period in which this tax credit is allowed (from 2019 to 2021).

The act reduces from thirty (30) to fifteen (15) days the amount of time that the governing board has to make a decision whether to allow or deny the transfer of an equity interest or the tax credit associated with it.

Finally, the act provides that if the authority of a capital development company to receive tax credits is terminated prior to 12-31-2015, or if a capital development company is dissolved, the capital development company may assign the administration of any outstanding tax credits to the Department of Economic Development. It further provides that the agreement to purchase shall remain valid and the purchaser entitled to continue to claim the tax credit, so long as the agreement was approved prior to 12-31-2015.

Arkansas Tourism Development Act Amended (Act 2308 of 2005)

The act amends the provisions of the Arkansas Tourism Development Act by modifying definitions, changing minimum investment thresholds, changing the percentage applied to project investment when calculating sales tax credits, and changing the method for calculating income tax credits generated from employment at the project. This act amends the existing provisions of the act by:

1. Establishing a minimum investment threshold of \$1,000,000 for all qualified projects. Under existing code provisions, projects qualify for sales tax credits after an investment of \$500,000 (excluding certain lodging projects requiring \$5,000,000 investment);
2. Providing that sales tax credits available for use against remittances of sales taxes collected are established at 15% of the approved project costs. Under existing code, for approved projects of more than \$500,000 but less than \$1,000,000 the projects credits are established at 10% of the first \$1,000,000 of project costs and 25% for the remaining portion of the project costs that exceed \$1,000,000. For approved projects of more than \$1,000,000 the project credits are established at 25% for all project costs;
3. Modifying the method for determining employees classified as "new full time permanent employees" by removing the requirement that a position be filled for at least 26 consecutive weeks; and
4. Changing the method for calculating the income tax credits earned by the tourism project to equal 4% of the new full-time permanent employees' payroll instead of 100 times the average hourly wage of each net new full-time permanent employee. The act provides that the sales tax credits may not be used against the 2% tourism tax levied by Ark. Code Ann. § 26-52-1002 for deposit to the "Tourism Development Trust Fund" except for "qualified amusement parks" as defined in Act 241 of 2005.

2. Therefore, if the LLC files a federal partnership return, an Arkansas partnership return must be filed. If the LLC is a disregarded entity, its activity must be reported on the return of the owner. If the LLC is electing to file as a Subchapter S corporation, it must have a valid federal and Arkansas Subchapter S Election. Otherwise it must file an Arkansas C corporation return on Form AR1100CT.

Act 479 of 1997 amends State law concerning Limited Liability Companies (LLCs), the Uniform Partnership Act, and the Revised Limited Partnership Act to allow mergers and consolidations between LLCs, corporations and partnerships. Currently, partnerships are not included in the merger provision. The franchise tax provisions are amended to apply to LLCs.

In any one tax year the credit shall not exceed 50% of the income tax liability, after all other credits and reductions in tax have been calculated. Any unused credit may be carried forward for the next 3 succeeding tax years or until exhausted, whichever occurs first. Act 37 of 1999 extended the qualifying years through year 2003 and allows Limited Liability Companies (LLC) to participate in this credit. County and Regional Industrial Development Corporations are exempt from Arkansas income tax but are required to file returns according to ACA 15-4-1223.

2. Purchase of Waste Reduction, Reuse or Recycling Machinery or Equipment

ACA 26-51-506 provides an income tax credit equal to 30% of the cost of approved waste reduction, reuse or recycling machinery and equipment including the cost of installation. No other credits or deductions, except depreciation, may be claimed on that equipment. Any unused credit may be carried forward for the next 3 succeeding years or until exhausted, whichever comes first.

3. Consolidated Incentive Act

ACA 15-4-2701 et seq. consolidates the current Biotechnology, Economic Development Incentive Act of 1993, Enterprise Zone, Arkansas Economic Development Act of 1995, Economic Investment Credit and Emerging Technology Credits into a comprehensive set of tax credits with new criteria, measuring devices and documentation requirements. Eligible businesses which signed a financial incentive agreement with the Department of Economic Development prior to March 3, 2003 may claim an income tax credit equal to 10% of the annual payroll during the term of the financial agreement for a period not to exceed 5 years and the credit cannot exceed \$100,000 per year. All credits in the Act will be administered by the Department of Economic Development.

Act 1296 of 2005 makes technical corrections by amending ACA 15-4-2705, changing the payroll thresholds in tier counties for new full time permanent employees hired within the first 60 months following the date of the approved incentive agreement. The credits may offset 50% of the business' tax liability, and any unused tax credits may be carried forward for 9 years.

ACA 15-4-2706 allows tax credits based on the percentage of the payroll in the county tier in which the project is located and authorizes a tax credit equal to 10% of the total investment in land, buildings, equipment and costs of licensing and protecting intellectual property of an approved project. The credit may offset 50% of the business' tax liability and any unused tax credits may be carried forward for 9 years.

The Code expands the research and development tax credit available under ACA 26-51-1102 by allowing an income tax credit equal to 20% of the amount spent on in-house research in Arkansas or 33% of the amount spent on in-house research for the first 5 years for targeted businesses or in a strategic research area approved by the Department of Economic Development and the Arkansas Science and Technology Authority. ACA 26-51-508 provides that a business which qualifies for the refund of the Gross Receipts Tax or Compensating Use Tax under ACA 26-52-516 or 26-53-132 shall be allowed an income tax credit of 3.9% of the annual salary of its employees employed exclusively in providing child care service, or a \$5,000 income tax credit for the first tax year the business provides its employees with

The credit shall not exceed the lesser of income tax otherwise due or \$9,000. Any unused credit may be carried forward for the next 9 succeeding tax years or until exhausted, whichever occurs first. After March 12, 2001, projects used for commercial purposes can qualify for this credit.

(b) Surface Water Conversion:

Any unused credit may be carried forward for the next 2 succeeding tax years or until exhausted, whichever occurs first, for projects using water for agricultural or recreational purposes. For projects approved on or after August 1, 1997 and using water for industrial or commercial purposes, any unused credit may be carried forward for the next 4 succeeding tax years or until exhausted, whichever occurs first.

(c) Land Leveling for Water Conservation:

ACA 26-51-1009 provides an income tax credit equal to 10% of the project cost incurred for agricultural land leveling to conserve water. The credit shall not exceed the lesser of income tax otherwise due or \$9,000. Any unused credit may be carried forward for the next 2 succeeding tax years or until exhausted, whichever occurs first.

(d) Wetland and Riparian Zone Creation and Restoration:

ACA 26-51-1505 provides for an income tax credit for any taxpayer engaged in the development or restoration of wetlands and riparian zones. The amount of credit shall be equal to the project costs not to exceed the lesser of income tax due or \$5,000. Any unused credit may be carried forward for the next 9 succeeding tax years or until exhausted, whichever occurs first.

"Critical areas" means those areas so designated by the Arkansas Soil and Water Conservation Commission.

6. Equipment Donation, Sale Below Cost Or Qualified Research Expenditure

(a) ACA 26-51-1102 provides an income tax credit for a taxpayer who donates or sells below cost new machinery or equipment to a Qualified Educational Institution, or a taxpayer who has qualified research expenditures under a Qualified Research Program. This credit is equal to 33% of the cost of the donation, sale below cost, or qualified expenditure.

(b) ACA 26-51-1103 limits the credit to 50% of the net income tax liability. Any unused credit may be carried forward for the next 3 succeeding tax years or until exhausted, whichever occurs first.

(c) Act 1607 amends ACA 26-51-1103 to allow credits to offset 100% of the tax liability and increases the carryforward from 3 years to 9 years for credits established after July 30, 2007.

7. Arkansas Economic Development Credit

ACA 15-4-1901 et seq. provides for an income tax credit based on the average wage of the new permanent employees for new or expanding facilities that employ at least 50 new permanent employees and expend at least \$5,000,000 on the project. Twenty-five percent (25%) of the employee's annual bonus can be added to calculate the average hourly wage beginning January 1, 1999. The income tax credit amount may vary according to established guidelines. The amount of income tax credit that may be taken in any tax year shall not exceed the Arkansas income tax liability resulting from the project plant or facility. The project plant or facility's income tax liability is to be computed by adding the sales, payroll and property factors of the plant or facility and dividing the sum by 3. This percentage is multiplied by the corporation's Arkansas income tax liability to arrive at the income tax credit available to offset the income tax liability arising from the project as referenced in the financial incentive plan. Form AR1100AEDA, Income Tax Apportionment Worksheet, may be used to compute the project apportionment percentage and available income tax credit. This form may be obtained by contacting Corporation Income Tax Section, P. O. Box 919, Little Rock, AR 72203-0919.

All other businesses must also derive at least 75% of sales revenue from out-of-state customers. High unemployment is defined as being 150% of the state rate if it is 6% or below, 3% above the state rate if it is above 6%. The credit is now based on the total amount invested divided by the number of years of the incentive plan, instead of the debt service payments.

8. Workforce Training Credit

Act 1003 of 2007 amends ACA 6-50-702 increasing the hourly for the training in an Arkansas state supported educational institution. If training is by company employees or company paid consultants, the tax credit cannot be more than \$25 per hour. There is no carryforward period for this credit. In high unemployment areas this credit increases by a factor of 4 up to \$6,000 per employee. Any unused credit may be carried forward to the next 9 succeeding tax years or until exhausted, whichever occurs first. The tourist attraction project will be qualified through the Arkansas Department of Economic Development.

The credit cannot be claimed by a supplier for any facility or equipment in use on or before the certification of the company for tax credits, or for any facility or equipment for which a supplier previously claimed a tax credit for any other tax year. The limitations on the use of the credit will not apply if an entity is sold and the entity is entitled to credit. The credit can be carried forward for a period not to exceed 3 years. ACA 26-51-512 allows an income tax credit in the amount of \$15.00 for each ton of rice straw in excess of 500 tons that is purchased by an Arkansas taxpayer who is the end user of the straw (person who purchases and uses the straw for processing, manufacturing, generating energy or producing ethanol). The amount of the credit is limited to 50% of the income tax due for the tax year. Unused credit may be carried forward for 10 consecutive years following the year in which the credit is earned.

This act is effective for tax years beginning on or after January 1, 2006.

22. Delta Geotourism Incentive Act

The Act creates an income tax credit for geotourism investment in the lower Mississippi River Delta; provides financial incentive in the form of an income tax credit to a person or entity investing a minimum of \$25,000 in a geotourism business, and a maximum investment of \$100,000 in any tax year. The Act expires at the end of 2011 and any unused credit may be carried forward for 5 years or until exhausted, whichever occurs first.

The annual income tax return of a Small Business Corporation is to be submitted on Form AR1100S. A "Small Business" election permits the taxable income of the Small Business Corporation to be taxed to the shareholders rather than to the corporation. All resident and nonresident shareholders of S Corporations doing business in Arkansas must file a properly executed Arkansas Income Tax Return with the Department of Finance and Administration. Arkansas Income Tax must be paid on the shareholders' taxable income.

Failure to report and remit on the part of any shareholder is grounds upon which the Director shall be authorized to revoke the corporations Subchapter S election and collect the tax from the corporation by any manner authorized by the Arkansas Income Tax Act of 1929 as amended.

Domestic or Foreign Corporation Income Tax-Subchapter S

GENERAL INSTRUCTIONS

The instruction numbers correspond with the item numbers on the return. Unnumbered instructions give general information.

WHO MUST FILE

Every corporation organized or registered under the laws of this state, or having income from Arkansas Code Section 26-51-201 (with the exception of those corporations exempted by Arkansas Code section 26-51-303) must file an income tax return. Consolidated returns are permitted under certain conditions. D.I.S.C. and F.S.C. Corporations should use Form AR1100CT. Corporations must file Form AR1100S if: (a) they elected to be taxed as an S Corporation within seventy-five (75) days of incorporation or doing business in Arkansas, (b) the IRS and the State of Arkansas accepted the election, and (c) the election remains in effect. Life insurance companies who pay a premium tax as provided by law are exempt from filing.

TIME AND PLACE FOR FILING

Form AR1100S is due on or before the 15th day of the 3rd month following the close of the Corporation's tax year. Forms must be filed with the Department of Finance and Administration, Corporation Income Tax/S-Corp, P. O. Box 919, Little Rock, Arkansas 72203-0919.

EXTENSION OF TIME FOR FILING

If you have received an automatic federal extension (Form 7004), the time for filing your Arkansas S Corporation Income Tax Return shall be extended until the date of your Federal Tax Return for U S Domestic Corporations. For any extension beyond the automatic federal extension, or in lieu of the federal extension, you must make a written application on or before the due date of your Arkansas Return. The application should be made on Form AR1155 and returned to the address above.

PERIOD COVERED/ACCOUNTING METHOD

A corporation must calculate its Arkansas Taxable Income using the same income year and accounting method for Arkansas tax purposes as used for Federal income tax purposes. For tax years beginning after 1986 all S Corporations are required to have a permitted tax year. A permitted tax year is a tax year ending December 31, or any other tax year for which the S Corporation established a business purpose.

Application for changes must be made and forwarded to the Department of Finance and Administration, Corporation Income Tax Management, at least 60 days before the close of the proposed or new taxable year or period and/or accounting method. The corporation must provide to the Commissioner a copy of any certification or approval from the Internal Revenue Service authorizing the corporation to change its accounting method or income year.

When the Commissioner of Revenue approves a change in the accounting period, the net income computed on the separate return for a fractional part of a year shall be placed on an annual basis by multiplying the amount of income earned during the taxable period by twelve and dividing by the number of months included in the period. Calculate the tax on the annualized income. The annualized tax is then multiplied by the number of months in the taxable period and then divided by twelve (12). The result is the tax liability.

SIGNATURES AND VERIFICATION

The President, Vice-President, Treasurer, or other principal officer shall certify the return. Such agent may certify the return of a foreign corporation having an agent in the state. If receiver, trustee in bankruptcy, or assignee are operating the property or business of the corporation, such receiver, trustee, or assignees shall execute the return for such corporation under certification.

REPORT OF CHANGE IN FEDERAL TAXABLE INCOME

Revenue Agent Reports (RARs) must be reported to this state within 30 days after the receipt of the RAR or supplemental report reflecting correct net income of taxpayer. Amended returns must be filed with payment of any additional tax due. The Statute of Limitation will remain open for eight (8) years if the taxpayer fails to disclose Federal Revenue Agent Reports.

PENALTIES

Willful failure to pay or file a return required under any state tax law is a Class A Misdemeanor. An additional penalty of \$500.00 will be assessed if any taxpayer files what purports to be a return but does not contain information on which substantial correctness may be judged and such conduct is due to a position which impedes the administration of any tax law.

LIABILITY FOR FILING RETURNS

A corporation subject to the provisions of the Income Tax Act of 1929, regardless of the amount of its net income, is required to file a return.

Part A – Capital gains tax computation

If the corporation made its election to be an S Corporation before 1987, IRC Section 1374 (as in effect before the enactment of the Tax Reform Act of 1986) continues to impose a tax on certain gains of the S Corporation. Part B – Built-in gains tax computation

The declaration shall be filed with the Commissioner of Revenue on or before the fifteenth (15th) day of the fourth (4th) month of the income year of taxpayer. In lieu of filing any declaration, the taxpayer may file an income tax return and pay the tax on or before the fifteenth (15th) day of the (3rd) month after the close of the income year.

Payment of Taxes

The tax should be paid by attaching to the return a check or money order payable to "Department of Finance and Administration."

WORKSHEET FOR APPORTIONMENT OF MULTISTATE CORPORATIONS

For corporations with income from sources within and without the State:

In general, taxpayers with income derived from activities both within and outside the State (Public Utilities excepted) are required to allocate and apportion the net income under the following provision:

Business and non-business income defined – Article IV 1 (A) defines "Business Income" as income arising from transactions and activities in the regular course of taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's trade or business operation. In essence, all income which arises from the conduct of trade or business operations of a taxpayer is business income. Income of any type or class and from any source is business income if it arises from transactions and activities occurring in the regular course of a trade or business. In general all transactions and activities of the taxpayer which are dependent upon, or contribute to, the operations of the taxpayer's economic enterprise as a whole constitute the taxpayer's trade or business and will be considered "Business Income" unless otherwise excluded by statute.

Business income is to be apportioned to this state by multiplying the income by a fraction, the numerator of which is the property factor plus the payroll factor plus two (2) times the sales factor, and the denominator of which is four (4).

The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period. The average value of property owned by the taxpayer means the average of the original cost of the property including inventories at the beginning and ending of the tax period. Property rented by the taxpayer is valued at eight (8) times the net annual rental rate.

The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation, and the denominator of which is the total compensation paid everywhere during the tax period.

Compensation is paid in this state **if:** (a) the individual's service is performed entirely within the state **or,** (b) the individual's service is performed both within and outside the state incidental to the individual's service within the state **or** (c) some of the service is performed in the state **and** (1) the base of operations (or if there is no base of operations the place from which the service directed or controlled) is in the State **or** (2) the base of operations or the place from which the service directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in the state.

The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period and the denominator of which is the total sales of the taxpayer everywhere during the tax period. The sales factor is then doubled.

Sales of tangible personal property are in this state if: (a) the property is delivered or shipped to a purchaser, other than the United States Government, within this State regardless of the f.o.b. point or other conditions of the sale or (b) the property is shipped from an office, store, warehouse, factory, or other place of storage in this State and (1) the purchaser is the United States Government or (2) the taxpayer is not taxed in the State of the purchaser.

Sales, other than sales of tangible personal property, are in this State if the income producing activity is performed both within and without the State, in which event the income allocable to this State shall be the percentage that is used in the formula for apportioning business income to this State.

The following items of income to the extent that they do not constitute business income are to be allocated to this state:

1. Net rents and royalties from real property located in the state
2. Net rents and royalties from tangible personal property (a) if and to the extent that the property is used in this state or (b) in their entirety if the commercial domicile is in the state and the taxpayer is not organized under the laws of or taxed in the state in which the property is utilized.

The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer tangible personal property is utilized in the state in which the property was located at the time the rental or royalty obtained possession.

3. Gains and losses from sales of assets:
 - a. Sales of real property located in the state
 - b. Sales of tangible personal property
 - (1) The property had a situs in this state at the time of sale, **or**
 - (2) The taxpayers commercial domicile is in this state, **or**
 - (3) The property has been included in depreciation which has been allocated to this state, in which event gains or losses on sales shall be allocated on the percentage that is used in the formula for allocating income to the state.
 - c. Sales of intangible personal property if the taxpayer's commercial domicile is in this state
4. Interest and dividends if the taxpayer's commercial domicile is in the state
5. Patent and copyright royalties: If and to the extent that the patent or copyright is utilized by the taxpayer in this state, or if and to the extent that the patent or copyright is utilized by the taxpayer in a state in which the taxpayer is not taxed and the taxpayer's commercial domicile is in this state.

A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to the states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

Prior approval is required before deviation from the allocation and apportionment method.

If the allocated and apportionment provisions as set out above do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for, or the Director of Revenue, Department of Finance and Administration may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

1. separate accounting
2. the exclusion of any one or more of the factors
3. the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state, or
4. the employment of any other method to effect an equitable allocation and apportionment of the taxpayer's income.
