

## BRIEF LISTING OF THE COMPASSIONATE ALLOWANCE CASES

The following is a brief listing of the Compassionate Allowance Cases identified by the Social Security Agency. These conditions are mostly adult impairments; however, a parent of a child with those conditions, and could be considered as an eligible catastrophic situations. Not all of these impairments will automatically equal disability, but the diagnostic testing and treatment for these impairments is very time consuming and would require extended absences for the purpose of catastrophic leave, or short-term benefits. The following items are an abbreviated list, which covers most of the items in the detailed listing. However, many serious maladies, other than this short list can be found on the detailed attachment and for considering automatic approvals, the detailed list should be included as it is comprehensive. The Office of Personnel Management Catastrophic Leave Bank Program will utilize this brief list and the detailed list as conditions in the determination of catastrophic leave awards.

Brief listing of illnesses/injuries which may be considered for automatic approval:

- Complicated joint/spine surgery, with ongoing surgical management for infection, fractures with delayed healing, etc.
- Major amputations, beyond the carpal and tarsal bones
- Heart transplant
- Lung transplant
- Kidney transplant
- Liver transplant
- Bone marrow/stem cell transplant
- Major burn injuries
- Cardiac surgery (coronary artery bypass, heart valves, aneurysm, peripheral arterial disease)
- Major GI surgery (perforated bowel, bowel resection)
