AGENCY PROGRAM COMMENTARY
1997 - 1999**

Appropriation A35 is for the Arkansas Home Equity Loan Program which was initiated by the Authority in FY 1986. Under this program, elderly persons with low to moderate income could sell their homes to the Authority but continue to live there. The Authority made a down to the owners and makes monthly payments during the owners' lifetime. A total of four homes were purchased with no additional purchases planned at this time. The total budget request of \$17,328.00 for each of the fiscal years of the 1997-1999 biennium - the same as for the 1995 -1997 biennium. Funds for this program are generated from the Authority's housing revenue bond program.

Appropriation A57 is for general operation of the Arkansas Development Finance Authority. The Authority expects to expand its on-going programs and to initiate new programs which will result in a moderate growth rate. The operating budget request contains increases to provide for moderate growth and general price increases. A Section 8 Housing Assistance Payment Program (the "HAP Program") administered by the program is included in this appropriation with a budget request of \$7,500,000 for each fiscal year. Funding for the HAP Program will be provided under an Annual Contributions Contract between the Authority and the Department of Housing and Urban Development (the "HUD"). The appropriation also includes a budget request for the HUD HOME Program in the amount of \$12,500,000 for each fiscal year. Funding for the HOME Program will be from federal grants and state matching funds at an approximate ratio of 80/20 federal/state. Funding for the appropriation will be from cash funds associated with the Authority's revenue bond programs and from Appropriation HUD, which requests \$2,500,000 in state match from general revenues.

Appropriation B86 is for the Federal Agricultural Mortgage Corporation (the "Farmer MAC") Guaranteed Loan Program. The program was established under the Agricultural Credit Act of 1987 and provides for Farmer MAC's guarantee of 90% of qualified loans for agricultural real estate and rural housing. The Authority's role in this national program continues to evolve. The requested budget is for operating expenses pertaining to agricultural finance programs, including Farmer MAC, and will be funded from net revenues generated by the Authority.

Appropriation B87 is for the Agricultural Loan Mediation and Development Program. Act 829 of 1989 (the "Arkansas Farm Mediation Act") created the Arkansas agricultural loan mediation program and Act 885 transferred agricultural development from AIDC to ADFA. Funding for these programs will be from excess revenues generated by the Authority and up to \$82,500 per year from federal reimbursements for half of the costs associated with the loan mediation program.

ADFA has historically initiated new financing programs annually and expanded existing programs in achieving its mission. This growth pattern and inflation pattern is anticipated to continue during the upcoming biennium. These amounts requested are to continue the current trend in growth of new and on-going programs, primarily by providing for increased training activity of employees in keeping abreast of new developments and industry activities. ADFA's staff is highly skilled and specialized and it is critical to maintain our training.

A slight increase is also requested to provide for moderate price increases and/or increased frequency in use of rooms for special meetings and other rentals for the periodic offsite meetings conducted for staff and the Board of Directors.
