## ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997-1999

Funding for the Arkansas Public Service Commission (APSC) -Utilities Division comes from special revenues derived from assessments on jurisdictional utility companies' revenues.

Priority funding requests for the 1997-1999 biennium are for additional resources needed to meet existing regulatory requirements. Lack of adequate resources to support the regulatory proceedings will lead to decisions based on inadequate analysis and review, to the detriment of either the utility or its ratepayers.

The APSC's primary budget requests are based on: (1) the need to attract and retain staff with the professional expertise necessary to address complex regulatory issues; and (2) the need to augment existing programs to ensure that Arkansas ratepayers receive adequate utility services at fair and reasonable rates.

#### RECRUITING AND RETAINING PROFESSIONAL STAFF

Attracting highly qualified personnel remains a continuing challenge for the APSC. The APSC attempts to attract applicants with education and experience comparable to counterparts in the utility industry and in surrounding regulatory commissions.

At both the state and federal level the regulation of public utilities continues to become increasingly more complex. In order to protect the public interest, it is essential for the APSC to participate in proceedings before various federal agencies, including the Federal Energy Regulatory Commission (FERC), Federal Communications Commission (FCC), and Securities Exchange Commission (SEC), to participate in national and regional regulatory organizations and work with our congressional delegation. It is critical that the APSC continue to attract and retain a qualified professional staff with expertise in public utility regulation if it is to effectively regulate the companies that provide utility services in Arkansas. To facilitate this mission, the APSC requests the continuation of special language for market conditions (special rates of pay).

#### AUGMENT EXISTING RESOURCES

To effectively utilize existing staff will require additional resources to accomplish the agency's objectives and program requirements. The primary focus of the APSC request is to maintain operational funds at the level authorized by the 1995-97 biennium

AGENCY	PSC CHAIRMAN	AGENCY	PAGE
ARKANSAS PUBLIC SERVICE COMMISSION	SAM I. BRATTON, JR.	PROGRAM COMMENTARY BR21	322

## ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997-1999

appropriation act. Additional resources are requested in the following areas:

- Maintenance and Operations to cover a State Building Services increase in rent for the 1000 Center Street Building;
- Capital Outlay to replace, as needed, agency vehicles, office furniture and equipment;
- Data Processing to fund at the 1995-97 biennium appropriation act level for needed maintenance, repair and replacement of computer equipment;
- Professional Services to authorize contracting at the 1995-97 biennium appropriation act level for specialized services needed for APSC rate cases, legal, and federal regulatory proceedings;
- Contingency to provide funding at the 1995-97 biennium appropriation act level for regulatory activity that could not have been reasonably foreseen.
- Conference Fees and Travel to provide at the 1995-97 biennium appropriation act level for professional, technical and management training as needed for agency staff.
- Repairs and Renovations to provide at the 1995-97 biennium appropriation act level for required repairs and renovations to the 1000 Center Street Building;
- Extra Help to provide at the 1995-97 biennium appropriation act level for staffing flexibility.

The increase in the data processing appropriation is necessary to provide funding for maintenance and replacement of equipment that has been in service for a considerable period of time. This request would restore the appropriation at the same level as the 1995-97 biennium appropriation act. The PSC General Staff - Data Processing Section provides ongoing operations, application development, training, and user support for the Utilities Division and Tax Division of the APSC.

Professional services are utilized by the agency for specialized rate case, legal and other applications not currently available from staff. In addition, the line item for Federal Regulatory Services provides for specialized services needed in federal regulatory proceedings. Participation by the Arkansas Public Service Commission in proceedings before the Federal Energy Regulatory Commission (FERC), Federal Communications Commission (FCC), Securities Exchange Commission (SEC), and various committees of the U.S. Congress continues to be a major component of the Commission's regulatory activities. Both of these requests would restore appropriation at the same level as authorized by the 1995-97 appropriation act.

The APSC seeks a continuation of the Contingency appropriation

AGENCY	PSC CHAIRMAN	AGENCY	PAGE
ARKANSAS PUBLIC SERVICE COMMISSION	SAM I. BRATTON, JR.	PROGRAM COMMENTARY BR21	323

## ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997-1999

in the amount of \$1 million. This appropriation has been of significant benefit to the agency in the past by providing funding for a required level of regulatory activity that could not have been reasonably foreseen when the APSC appropriation was enacted.

Funding is also requested to allow any approved State Building Services (SBS) renovations to the 1000 Center Street Building to be funded from APSC Special Revenues instead of SBS General Revenues. In addition, the APSC is requesting that the line items for Conference Fees/Travel and Extra Help appropriation be restored to the same level authorized by the 1995-97 appropriation act.

The Pipeline Safety Program will require additional resources. Capital Outlay is requested for replacement of one Pipeline Safety vehicle during each fiscal year of the next biennium. Vehicle replacement is necessitated by age and condition of the vehicles. The remainder of the request is for replacement of specialized engineering testing equipment. The engineering equipment is used in the safety inspections of gas pipelines. Additional resources are also requested in maintenance and general operations due to a State Building Services increase in rent allocated to the Pipeline Safety Program. The line item

for professional services is requested to be restored to the same level authorized by the 1995-97 appropriation act. This will allow the Pipeline Safety Program to contract for specialized testing/research services for natural gas related accident investigations.

## ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Public Service Commission - Utilities Division's Contingency account provides additional appropriation that may be transferred to the Division's operating line items in emergency situations that would require additional resources. The Agency requests that the appropriation be reappropriated at the current level of \$1,000,000 each year and special language for emergencies and unforeseen circumstances also be continued for the 1997-99 Biennium.

The Executive Recommendation is for approval of this request.

## ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Public Service Commission - Utilities Division is funded entirely by special revenues derived from assessments paid by the utility companies under its jurisdiction. Base Level for the Division totals \$7,503,299 for FY98 and \$7,324,924 for FY99, with 108 authorized positions. Included in Base Level is appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. The second year Base Level is less than the first year because current special language for the Data Processing - PSC Divisions line item provides for the entire appropriation to be placed in the first year and its balance to be carried forward into the second year. Priorities requested by the Commission are as follows:

Increases in Extra Help of \$8,675 each year in salaries and \$664 in matching to provide additional clerical assistance in periods of peak workload.

Increases in Operating Expenses of \$27,544 each year for additional rent costs.

Capital Outlay of \$45,164 in the first year for replacement of two vehicles and office equipment and \$45,900 in the second year for replacement of two vehicles and engineering equipment.

An increase of \$47,287 in the first year for the Data Processing - PSC Divisions special line item for expenses incurred in maintaining and upgrading data processing systems in the divisions. This amount would increase the account to \$325,000 for the biennial period. Continuation of carry forward special language is also requested.

An increase of \$1,181 in the first year to reinstate \$50,000 as the biennial level for the Building Repair and Maintenance account. Continuation of special language carry forward authority is also requested.

Continuation is requested for the special language clause that provides for special pay rates for professional employees.

## ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Public Service Commission's Pipeline Safety Program is funded by special revenues and receives federal reimbursement for 50% of its expenditures. Under this program, the Commission maintains safety jurisdiction and monitors the transmission by pipeline of hazardous materials, such as gasoline, oil, and natural gas. Base Level for this program is \$562,627 for FY98 and \$575,089 for FY99, with 9 authorized positions. Included in Base Level is appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. Priorities requested are as follows:

Reclassification of an Engineer Technician Supervisor, Grade 17, to DOT Corrosion Program Specialist, Grade 18. Costs are \$824 and \$846, respectively.

Additions in Operating Expenses of \$1,498 each year for increased rent charges.

Capital Outlay amounts of \$23,580 in the first year and \$22,000 in the second year for replacement of vehicles, office equipment, and engineering equipment.

Increases of \$13,771 each year in Professional Fees & Services to reinstate the current authorized level of \$37,000 each year for contracting for outside professional assistance.

The Executive Recommendation provides for Base Level, plus the requests for Capital Outlay and Operating Expenses. The position reclassification request is not addressed at this time.

APPROPRIATION SUMMARY

## ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997 - 1999

The primary purposes of the Assessment Coordination Division are to assist counties in the equalization and appraisal of property for ad valorem tax purposes, provide computer assistance and programs for county government functions, conduct schools and educational seminars, prepare guidelines for valuation, audit assessments through ratio studies, and provide pertinent data necessary for the upkeep of appraisals. The continuing level budget, including the 5% deferment required by Act 494 of 1993, is necessary to carry out these duties as have been previously done, some below statutory minimums.

Priority 1 is a request for the reinstatement of five (5) positions that were not budgeted in the current fiscal year due to the Governor's Personnel "Cap" Policy. Costs for Salaries and Matching are \$101,236 in the first year and \$103,652 in the second year.

Priority 2 is a request for Capital Outlay in the amount of \$10,000 each year to replace office equipment, computer equipment, and furniture which becomes obsolete or irreparable, and for upgrading and expanding work stations.

Priority 3 is a request for an increase in the Assessors' School special line item of \$6,914 each year to retain the current level of educational offerings as required by Act 48 of 1980.

Priority 4 is a request for increases of \$61,562 each year in Operating Expenses to maintain the current level of operations.

Priority 5 is a request to reinstate \$30,000 each year in the Grants/Aids line item used to assist counties in computerizing their records management systems.

Priority 6 is a request for additional funds for the Assessment Personnel Educational Incentive Program for local assessment employees (as recommended by the Joint Interim Committee on Tax Research and Economic Policy) in the amount of \$19,000 each year to cover the increasing number of assessor personnel enrolling in the education incentive program.

Also requested is funds from the State General Services Fund to establish a CAMA (Computer Assisted Mass Appraisal) Grant Program to assist 24 county assessors' offices in Arkansas that currently have no computerization of their records. The estimated cost of computer hardware and software is \$300,000 each year and would provide the resources to cover the 24 counties in a 2 year period.

# POS.

**AUTHORIZED APPROPRIATION** 

PROGRAM AUTHORIZED

AUTH.

FY 95-96

FY 96-97

STATUS

#### APPROPRIATION: C73 - Assessment Coordination -- Cash

No new programs or expansions in the 1995-97 biennium.

#### APPROPRIATION: 215 - County Assessors Continuing Education Program

No new programs or expansions in the 1995-97 biennium.

### APPROPRIATION: 258 - Assessment Coordination Division

Reinstatement of 5 positions that were authorized, but not budgeted due to restrictions imposed by the Governor's Personnel "Cap" Policy.	5	\$95,574	\$97,545	No funding was given to support these positions and they remain subject to "Cap" restrictions, so none have been filled in either year.
Additions were provided in Operating Expenses for anticipated relocation expenses and increased rent.	0	\$28,000	\$28,000	Relocation has not yet occurred, so none of these increases have been employed.
Capital Outlay was provided for equipment replacement and upgrading of work stations.	0	\$10,000	\$10,000	\$8,671 was spent in FY96. The full amount is budgeted in FY97.
Increases were made in the Assessor School special line item to provide additional education for county assessors' employees.	0	\$60,000	\$100,000	The entire FY96 amount was employed in providing additional education opportunities for local assessment employees. The full amount is budgeted in FY97 for the same purpose.
A new line item was provided for the Assessment Personnel Educational Incentive Program.	0	\$69,000	\$80,000	\$45,000 of the first year amount was used. \$76,000 of the second year amount is budgeted.

The Executive Recommendation includes \$16,343 in excess funding and \$10,000 is unfunded appropriation in FY98. In FY99, \$7,097 is excess funding and \$10,000 is unfunded appropriation.

## ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Assessment Coordination Division's cash account is funded by proceeds from the sales of property assessment and appraisal publications to parties in the private sector. Tuition is also collected from private citizens who enroll in assessment and appraisal courses conducted by the Division. These resources are used to purchase educational materials and defray printing costs. The Division is requesting that this appropriation be continued at its current level of \$29,246 each year.

The Executive Recommendation is the Agency Request.

## ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Public Service Commission - Assessment Coordination Division's County Assessors Continuing Education Program is funded by \$300 assessments collected annually from the counties. These proceeds are used to provide educational courses for local assessment personnel. The Base Level of the appropriation through which the Division operates the Program is \$28,500 each year. It is requested for continuation at that level.

The Executive Recommendation is the Agency Request.

## ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Public Service Commission - Assessment Coordination Division's main operating appropriation is funded by a mix of general revenues and ad valorem taxes. Base Level for the Division totals \$2,130,008 for FY98 and \$2,167,756 for FY99. Included in Base Level is appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. Priorities in the Agency Request are itemized as follows:

Reinstatement of 5 positions that are currently authorized, but not budgeted. Costs are \$101,236 and \$103,652, respectively, for a Statistician I, 2 Secretary II's, a Clerk Typist II, and a Programmer Trainee.

Increases in Operating Expenses of \$61,562 each year for increases in rent of office space, printing, travel expenses, postage, subscriptions, and data processing supplies.

Capital Outlay of \$10,000 each year to replace office and data processing equipment.

Increases of \$30,000 each year for the Grants/Aids line item used to assist counties to defray costs of computerizing assessment records.

Additions of \$6,914 each year in the Assessors' School line item, which would return it to the current authorized level.

Increases of \$19,000 each year in the Assessment Personnel Educational Incentive Program for local assessment employees.

The Executive Recommendation provides for Base Level, plus the Capital Outlay request. No additional General Revenue above the Base Level is recommended for this appropriation.

APPRO 258 ASSESSMENT COORDINATION DIVISION

# ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Public Service Commission - Assessment Coordination Division requests the establishment of an appropriation to provide computer hardware and software to county offices that currently do not have mechanized systems for property appraisal and assessment. This priority request is for \$300,000 of appropriation and general revenue funding each year which would provide assistance to 24 counties during the biennium.

The Governor does not recommend this program.

#### ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997-1999

The 1995 assessments upon utility and carrier property in Arkansas was \$1,857,157,540. This assessed value reflects tax revenue of approximately \$80,000,000 being collected during 1996.

The Tax Division of the Arkansas Public Service Commission determines the fair market value of all utility and carrier companies subject to assessment for property tax purposes in Arkansas. (Arkansas Codes 26-26-1061/26-26-1803) The utility and carrier companies consist of electric cooperatives, private electric companies, gas transmission companies, telephone companies, water companies, railroads, cable television systems, pipelines, bridges, motor carriers, airlines, barge lines, private car companies, cellular telephone operators, and reseller telephone companies. The Division certifies the Commission approved assessed valuations to either the respective county assessors or the Department of Finance and Administration, Miscellaneous Tax Section. The tax revenue resulting from these assessments represents approximately 10% of the total real and personal property taxes collected in Arkansas.

With a staff of eleven employees, the Tax Division assessed

22,409 companies in 1995. The field of utility and carrier valuation is very dynamic. For example, technological advances which have spawned new industries such as: cellular telephone companies, competitive access providers, reseller telephone companies and in the near future personal communications services (PCS). The Intermodal Surface Transportation act of 1991 as well as deregulation has resulted in a burgeoning number of motor carrier companies which are at a record level in 1996. The Division finds it hard to stay abreast of such changes due to the increased workload upon our small staff.

In this budget, we have again requested two new positions; a Research Project Analyst and a Administrative Assistant I. The Research Project Analyst would focus on new industries being spawned through technological advances and deregulation. This position would provide us with the capacity to research methods and available software for developing replacement cost values on utilities and carriers, as well as, researching and verifying motor carrier mileage data. It is probable that additional revenues would be generated if mileage data was verified. Tax revenues which are certified to the Department of Finance and Administration Miscellaneous Tax Section

#### ARKANSAS BUDGET SYSTEM AGENCY PROGRAM COMMENTARY 1997-1999

total approximately \$8,500,000 and are a funding source for Legislative Audits, Assessment Coordination Division and the Tax Division. The Administrative Assistant I - due to the federal legislation in 1993 and deregulation of the motor carrier industry the division has been inundated with additional companies and new programs with no increase in staff. The loss of the central data base has now made the division responsible for maintaining a complete list of for-hire motor carrier companies traveling through the State. This new agenda for the division, coupled with an increased assessment workload which has exceeded our manpower, caused excessive turnover, and is compromising the division's ability to complete it's mission. This position is desperately needed to ensure statutory deadlines are met providing the division with the additional depth required for processing motor carrier companies.

This budget reflects expenses which are beyond our control associated with assessing additional motor carrier companies mandated under the new federal legislation, with increases in postage, printing, centrex and office supplies (See attachment #1). The increase in

Capitol Outlay is associated with the requested new positions.

The Tax Division is interested in joining the Multistates Tax Commission joint audit program which works in conjunction with other States in obtaining required audited information necessary for appraisals. The cost is commensurate with staff involvement. The requested increase in travel is required to send our present staff to conferences and training seminars in order to maintain a constant level of knowledge and skills within the Division.

Additional Operating Expenses were provided for increased rent.	0	\$13,000	\$13,000	\$11,365 was expended in the first year for rent of office space. The full amount for FY97 is budgeted for rent expense.
Capital Outlay was provided to replace office equipment.	0	. \$5,200	\$5,700	Of the first year amount, \$3,684 was spent for equipment replacement. The entire \$5,700 for FY97 is budgeted for replacement of office equipment.

### ARKANSAS BUDGET SYSTEM ANALYSIS OF BUDGET REQUEST 1997 - 1999

The Public Service Commission - Tax Division's appropriation is funded by a mix of special revenues, general revenues if needed, and its share of ad valorem taxes. Base Level for the Division is \$515,061 for FY98 and \$525,604 for FY99, with 11 authorized positions. Included in Base Level is appropriation for a 2.8% Cost of Living Allowance for positions on July 1 of each year of the biennium along with accompanying employee matching requirements. Priorities in the Agency Request are as follows:

Addition of a Research Project Analyst position to specialize in research, mileage data verification, motor carrier and new industries valuations, and replacement cost analysis studies and an Administrative Assistant I position to appraise motor carrier companies and maintain the data base of for-hire trucking companies traveling through the State. Costs are \$61,771 for FY98 and \$64,937 for FY99.

Additions in Operating Expenses of \$32,824 in the first year and \$43,589 in the second year for increases in postage, rent, printing, supplies, and telephone expenses.

Increases in Conference Fees & Travel of \$2,250 each year to provide additional training of employees in new assessment practices, identifying new industries to be assessed, and determining structural changes in deregulated industries.

Capital Outlay of \$7,200 each year for purchase of office machines and equipment.

The Executive Recommendation provides for Base Level, plus an additional \$2,740 in Operating Expenses for increased rent of office space and \$5,700 each year in Capital Outlay.
