

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

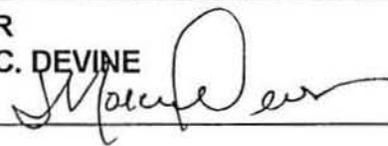

The Arkansas Department of Environmental Quality request for the 2003-2005 biennium carries forward the basic programs operated during the past biennium. The only exception to this involved transferring the Construction Assistance Division to the Arkansas Soil and Water Commission. Our general approach has been to informally apply the dictates of performance based budgeting and strategic planning within this request.

The Department of Environmental Quality is addressing performance measures through its Strategic Planning Project. The Strategic Plan identifies environmental outcome targets (strategic goals and objectives), which naturally flow into the development of measures to track progress. Several key performance-related questions addressed in the project include: What is the status of the Department's current measurement and reporting systems? Is there a sufficient foundation of existing elements upon which a new system of performance measures can be built? What are the needs of different audiences? How can a system of performance measures be created that meets the needs of individual programs while also effectively serving the needs of State Government, Departmental leadership and stakeholders? What function or purpose will the performance measures serve (e.g. accountability measures, organizational learning and adaptation, assessment or screening for strategic priorities, etc.)? And how will the performance measures be fully integrated into on-going planning and management systems?

During the 2001-2003 biennium the Department maintained or increased its efforts in the program areas of water, air, and solid waste. The budget request found in the following pages continues currently mandated programs, while reallocating resources in order to assist industry and meet Department needs. Particular emphasis has been placed on covering these projected needs for the biennium through use of base level funding and appropriation. As noted above, we have budgeted within the "outcome" precepts common to performance budgeting and strategic planning.

For the upcoming biennium 28 positions have been put in a growth pool to address needs emerging from statewide environmental quality issues.

The Department is requesting 12 additional existing positions be included under the provisions of the Career Ladder Incentive Program (CLIP). While exercising due diligence in the individual application of these positions is appropriate, use of these incentives will be central to improving productivity and will provide positive impetus for task consolidation and heightened efficiency.

---	---	---------------------------------	------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

Estimated federal monies available to the Department for this biennium are listed below, although full utilization of these funds is contingent on actual Congressional appropriation, availability of matching funds, if required, and specific grant requirements.

PROGRAM	ANNUAL AMOUNT
105 Air Program	\$852,869
Air Toxic Monitoring	\$136,500
Ambient Air Monitoring	\$1,500,000
Abandoned Mine Program (Admin)	\$414,441
RCRA Hazardous Waste	\$950,000
Permanent Mining Program	\$250,000
604 (b) Water Quality Planning	\$100,000
Underground Injection Control	\$120,000
106 Water Pollution Control	\$2,129,088
Superfund Program	\$1,000,680
Abandoned Mine Reclamation	\$2,500,000
Underground Storage Tanks	\$987,500
Asbestos/Lead Programs	\$200,000
Pine Bluff Arsenal	\$300,000
Small, Various Grants	\$750,000
Watershed Programs	\$975,000
TOTAL	\$13,166,078

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

The Department currently has several appropriations or line items within an appropriation which are considered as non-operating expenses utilized for specific purposes, as needed and funded, such as cleanup, remediation and closure activities, reclamation work, and provision of grants for solid waste, recycling, and waste tires. While monies may become available during the biennium from existing or alternate sources to fully fund any or all of these, some currently reflect appropriation in excess of estimated funding. However, they are requested for approval at the total amount shown on the Biennial Budget Change Level Request forms following, for contingency purposes and bond forfeitures, and are shown below:

APPRO #	TOTAL REQUESTED	CONTINGENCY	PURPOSE
059	\$9,000,000	\$9,000,000	Landfill Post-Closure Program (Contractual Services & Grants)
1HR	\$4,650,000	\$1,000,000	Solid Waste & Recycling Program (Recycling Grants)
1HS	\$374,655	\$300,000	Emergency Response (Contractual Services)
218	\$4,787,000	\$1,000,000	Waste Tire Recycling Program (Grants)
242	\$5,700,000	\$4,000,000	State Abandoned Mine Reclamation (Contractual Services)
244	\$1,520,000	\$1,520,000	Mine Reclamation-Bond Forfeitures (Contractual Services)
245	\$6,500,000	\$6,000,000	Hazardous Waste Clean Up (Contractual Services)
248	\$500,000	\$500,000	Landfill Closure-Bond Forfeiture (Contractual Services)
358	\$6,200,000	\$6,200,000	Federal Operations – Hazardous Waste Clean Up & Water TMDL (Contractual Services)
360	\$950,000	\$950,000	Non-Coal Reclamation-Bond Forfeiture (Contractual Services)
542	\$18,924,000	\$12,000,000	Petroleum Storage Tank Remediation (Operating Expenses)
543	\$5,000,000	\$5,000,000	Regulated Storage Tank Remediation (Contractual Services)

---	---	---------------------------------	-------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

The following paragraphs briefly describe the divisional needs requested as changes over the Base Level budget:

AIR POLLUTION CONTROL DIVISION

Responsibilities of this Division involve maintenance of the National Ambient Air Quality Standards (NAAQS) and provisions for air quality monitoring, modeling and development of emission standards. With the revisions of the particulate and ozone NAAQS, Arkansas will have areas that will be in non-attainment status for fine particulate and for ozone. Revisions to existing state regulations will be required to deal with the development of new pollution control strategies for non-attainment areas and upgrading our existing field network of monitoring equipment. The Air Division is requesting additional special revenues (246) appropriation for operating expenses due to the complexity of current programs associated with non-attainment areas, promulgation and implementation of new rules, regulations, and concepts. Capital Outlay special revenue (246) appropriation is requested for upgrading laptop computers, printers, and a plotter in accordance with the Department's Technology Plan. In order for Department personnel to serve the regulated community and the general public in an efficient and effective manner, we must continue to upgrade our hardware and software for regional modeling activities required in non-attainment areas. The Permitting Branch of the Air Division is continuing their participation in the Performance-Based Budgeting Pilot Program.

This division is also responsible for the Asbestos/Lead-Based Paint Program which adopts, administers and enforces asbestos and lead programs for certification of individuals and licensing of firms engaged in training and abatement activities. Reallocation of current appropriation in Asbestos Control special revenues (249) is requested to support the travel and general expenses for enforcement activities required by the Strategic Plan; specifically, providing for asbestos awareness training to asbestos contractors and consultants.

WATER POLLUTION CONTROL DIVISION

This Division is responsible for the operation and management of the following water quality related programs: 106 water pollution control, saltwater disposal, water quality planning/standards, groundwater quality protection, clean lakes, confined animal wastes and the National Pollutant Discharge Elimination System, which includes storm water permitting.

The Division has requested increases in federal funding, special revenue and general revenue appropriation (358, 246, 357) to handle existing programs as projected into the next biennium. This request includes an increase in federal funding (358) appropriation to cover anticipated costs for the replacement of aging water quality monitoring equipment and for research equipment purchases to support the Department's Total Maximum Daily Load (TMDL). Also requested is special revenue (246) appropriation for refunding overpayment of permit fees. The Division is

<p>AGENCY ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY</p>	<p>DIRECTOR MARCUS C. DEVINE </p>	<p>AGENCY PROGRAM COMMENTARY</p>	<p>PAGE 20</p>
---	--	---	-----------------------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

also requesting general revenue (357) appropriation, but not funding, to allow replacement of aging equipment.

The Water Division's mission is to restore and maintain water quality in all waters of the state consistent with the economic well being of all its citizens. The requests above will enhance our ability to fulfill that mission.

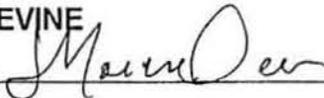

ENVIRONMENTAL PRESERVATION DIVISION

The Division created by Act 38 of 1971, is responsible for being the Agency's lead division for developing ADEQ's Watershed Planning and Environmental Education programs. The Division coordinates these efforts internally and with other State and Federal natural resource and health agencies, as well as local citizens. Additionally, the Division provides advice to the Director's office concerning a myriad of projects related to Federal environmental protection laws that could potentially affect the environment and offers technical services to citizens to effectively manage non-point source pollution.

Because the Division is primarily funded through Federal EPA grants (358), its program work plans are developed internally and approved in cooperation with EPA Region 6. Environmental education efforts are developed through cooperative partnerships with national partners and state schools (260). Reallocation of federal funding (358) appropriation has been requested to provide outreach to local communities by hosting environmental fairs and workshops. The division is requesting reallocation of \$20,000 from Commitment Item 02 to Commitment Item 09 to facilitate outreach efforts.

The Division is requesting federal funding appropriation (358) to purchase equipment for the collection of accurate environmental data, and to purchase a TRK GPS Total Station for determining sediment delivery to surface waters via stream banks and vertical stream channel erosion. The equipment would drastically reduce the time required to collect the necessary data to assist in the development of TMDLs. Defining and achieving identifiable environmental results are guiding principles in ADEQ's Strategic Plan. These results can best be measured by collecting data that supports environmental improvements, hence the purchase of equipment for the collection of accurate environmental data is a necessity.

Reallocation of special revenue (260) appropriation is also requested. We need to move this appropriation from Commitment Item 02 in Administration to Commitment Item 02 in Environmental Preservation to enable the Department to expand its outreach and educational efforts to the citizens of Arkansas in environmental issues.

AGENCY ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY	DIRECTOR MARCUS C. DEVINE 	AGENCY PROGRAM COMMENTARY	PAGE 21
--	---	--	--------------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

SOLID WASTE DIVISION

This Division is responsible for programs necessary to provide for the siting, permitting, and inspection of existing and proposed solid waste management facilities in the State of Arkansas. Acts 934 and 870 of 1989, Acts 747, 748, 749, 750, 751, 752, 319, and 1183 of 1991, Act 1127 of 1993, Act 1292 of 1997, and Acts 758 and 775 of 1999 placed additional responsibilities on the Solid Waste Division in the areas of waste tire grant disbursement and program management, solid waste operator licensing, landfill post-closure activities, and engineering standards.

The Solid Waste Division provides technical assistance to landfill owners/operators, provides a solid waste liaison service to the Regional Solid Waste Management Districts, develops legislation and regulations, conducts recycling workshops that educate and assist the public, industry, and local governments, offers compliance assistance through regular inspections and audits of permitted facilities and issues grant monies for the management of waste tire programs and recycling programs.

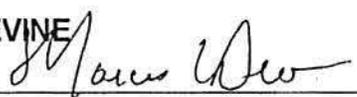

Appropriation from special revenues (1HR, 246) has been requested to purchase a surveillance camera to assist in identification of individuals engaged in the act of illegal waste disposal, a Large Flat Scanner to allow us to print plans for FOI requests on site, surveying equipment, and appropriation to allow for repayment of overpayments of permit fees. In addition, Solid Waste needs to reallocate appropriation from Commitment Item 10 to Commitment Item 02 (246) to purchase software that follows the ADEQ Information Technology Plan, which requires replacement of 1/3 of the Division's computers/printers/software per year. Appropriation from general revenues (357), but not funding, is requested to allow for replacement of aging equipment.

Following its mission of protecting the environment, the Solid Waste Division's performance measures include the permitting of solid waste management facilities, the licensing of solid waste operators, the licensing of waste tire transporters, the auditing of landfill disposal fees, investigation of solid waste complaints, regular inspections of both active and closed facilities, providing education and assistance to communities and promoting waste reduction, recycling efforts and markets.

HAZARDOUS WASTE DIVISION

This Division implements two distinctly different programs; the first deals principally with active manufacturing and waste management facilities, the second dealing with the investigation and cleanup of hazardous substance sites which are either abandoned or inactive.

The Hazardous Waste Division's Active Sites branch implements the Federal and State hazardous waste management program goals through a state program authorized by the U.S. Environmental Protection Agency. Specific performance measures include establishing appropriate controls (permits,

<p>AGENCY ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY</p>	<p>DIRECTOR MARCUS C. DEVINE </p>	<p>AGENCY PROGRAM COMMENTARY</p>	<p>PAGE 22</p>
---	--	---	-----------------------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

enforcement orders, or remedial action plans) at targeted waste management facilities; monitoring compliance and providing increased compliance assistance and outreach to industry, small businesses, and the public; and implementing swift, fair, and effective enforcement against violators.

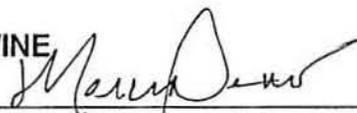

The Division's remedial action program includes hazardous substance site cleanup programs implemented under the Federal CERCLA statutes (known as the "Superfund") and state law, specifically the 1985 Remedial Action Trust Fund Act (RATFA) and the 1997 Voluntary Cleanup Act. These programs are funded by federal grants and trust funds. Chief among these programs is the implementation and expansion of the state's Voluntary Cleanup and

Brownfields Redevelopment programs. Performance measures for these activities include publishing program guidance; controlling and mitigating health risks from abandoned sites; and encouraging the cleanup and redevelopment of Brownfields and voluntary sites. The Division will continue to improve and enhance its use of risk management techniques, stress strong integration of the technical requirements of all voluntary programs, audit a percentage of cleanups (with an overall reduction of oversight).

The Division has requested additional appropriation in special revenues (1PM) and federal funding appropriation (358) to purchase a Power Probe 9600-G and a multi-probe system for taking field measurement of dissolved oxygen, pH, conductivity, temperature and Oxidation Reduction Potential (ORP) in groundwater. Existing equipment is more than 10 years old and is not capable of performing dissolved oxygen and ORP measurements.

REGULATED STORAGE TANK DIVISION

This Division is responsible for the implementation of state and federal laws and regulations concerning the installation, repair, upgrading and closure of regulated underground storage tanks in Arkansas, as well as registering, collecting fees and responding to environmental concerns associated with certain aboveground petroleum storage tanks. The Division performs compliance inspections, leak and complaint investigations, and emergency responses; oversees clean-up activities to correct environmental problems at leaking tank sites; conducts trust fund certification and financial assurance reviews for regulated tanks; licenses UST contractors and individuals; and reimburses qualified tank owners for trust fund-eligible corrective actions and third-party claims resulting from leaking tanks. The Division's budget request is predicated upon continuance of the performance objectives below. The budget request provides for purchase of a GPS (Trimble) Unit to facilitate continued accurate data gathering for UST facilities and to initiate data gathering (monitoring well points, recovery system points, plume delineation, etc.) for LUST sites. This information is critical to RST's achievement of their strategic plan goal to clean up contaminated sites and return acres of environmentally impacted land to productive use. Federal funding (358) appropriation will also be used to replace 1/3 of the division's computers, printers, laptops, etc. in accordance with our Technology Plan.

<p>AGENCY ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY</p>	<p>DIRECTOR MARCUS C. DEVINE </p>	<p>AGENCY PROGRAM COMMENTARY</p>	<p>PAGE 23</p>
---	--	---	-----------------------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

The Division's performance objectives are to aggressively enforce all environmental standards and ensure swift, fair, and effective enforcement for violators of these standards; and to expeditiously assess and implement appropriate cleanup of leaking underground storage tanks and certain noted above ground storage tanks; to continue developing outreach materials and conduct compliance workshops to educate the regulated community; to maintain the solvency of the Petroleum Storage Tank Trust Fund; and to provide efficient and timely processing of new/amended notification forms and tank fee collection.

SURFACE MINING AND RECLAMATION DIVISION

This Division is responsible for all permitting, inspection and enforcement activities necessary to ensure compliance with the state law concerning various surface mining regulations. These responsibilities include a state program authorized under Public Law 95-87 to regulate all surface coal mining operations in Arkansas. This includes the Abandoned Mine Lands Program that receives federal grant monies (Appropriation 358) to reclaim dangerous abandoned pre-law coal mines. The Non-Coal section is responsible for ensuring compliance with the Arkansas Open-Cut Land Reclamation Act and the Arkansas Quarry Operation, Reclamation and Safe Closure Act. The Open Cut Land Reclamation Act also includes responsibilities in permitting, inspection and enforcement of mining operations within the channel of streams in Arkansas. Federal funding (358) appropriation in Commitment Item 11 is requested for the purchase of a video projector in FY05. General revenue (357) appropriation, but not funding, is requested in both years of the biennium for replacement of aging equipment.

This Division is responsible for protecting society and the environment from the adverse effects of surface mining activities by ensuring that the reclamation and restoration of affected lands results in future productive use. Performance of these measures can be gauged by determining the acres of known environmentally impacted land returned to productive use.

ADMINISTRATION

This group is composed of the Office of the Director, the Fiscal Division, the Management Services Office comprising the Human Resources Section, Operations Section, and the Emergency Response Section.

Reallocation of special revenue (260) appropriation is requested. We need to move this appropriation from Commitment Item 02 in Administration to Commitment Item 02 in Environmental Preservation to enable the Department to expand its outreach and educational efforts to the citizens of Arkansas on environmental issues.

<p>AGENCY ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY</p>	<p>DIRECTOR MARCUS C. DEVINE </p>	<p>AGENCY PROGRAM COMMENTARY</p>	<p>PAGE 24</p>
---	--	---	-----------------------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

Restoration of the Environmental Settlement Trust Fund (716) appropriation to \$3 million as authorized in the last biennium is requested for environmental clean up activities, and as required by any consent decrees that may be entered into by the Department.

Performance measures of Administration and Shared Resources centers on assisting other divisions and making the most efficient and effective use of available resources.

SHARED RESOURCES

This cost center reflects the Department's overhead costs, such as rent, utilities, phone services, vehicle maintenance, and other costs that are necessary for all the programs to operate. These costs are shared by funding sources allocated through general revenue distribution, trust funds, federal programs and special revenue generating programs. General revenues and federal funding have historically supported department overhead costs, with special revenues added within the last few years.

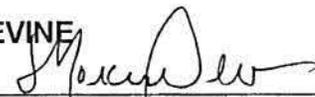

Reallocation of special revenue (246) appropriation from Shared Resources to special revenue (344) appropriation in the Pollution Control and Ecology Commission Hearing Officer budget is requested in an effort to provide realistic data and to align our expenditures with our Strategic Plan. Historically, the Department has paid the expenses for the Commissioners (stipend and lodging/mileage) when the costs exceeded the budget of the Commission Hearing Officer's budget. Reallocation of these funds will provide delineation between the actions/expenditures of the Department and the Pollution Control and Ecology Commission.

Federal funds (358) appropriation in Commitment Item 11 (equipment) is requested for sales tax on fleet vehicles.

LEGAL SERVICES DIVISION

This Division is responsible for all legal aspects of the Department including internal matters, maintenance of penalty collection, final enforcement, original signed orders, statistics, preparation of regulations, and legislation. The Division also negotiates and reviews all final agreements in enforcement and permitting actions contested by regulated entities or citizens in communities in which regulated facilities are located.

The Division's needs include federal funding (358) appropriation in Capital Outlay for replacement of computers, a printer, and software.

AGENCY ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY	DIRECTOR MARCUS C. DEVINE 	AGENCY PROGRAM COMMENTARY	PAGE 25
--	---	--	--------------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

Among the Division's performance measures are the number of formal enforcement cases the Division has handled as follows: 158 in FY 97, 225 in FY 98, 257 in FY 99, 275 in FY 00 and 274 in FY 01. Variances and interim authority requests the Division has handled as follows: 123 in FY 97, 158 in FY 98, 84 in FY 99, 77 in FY 00 and 209 in FY 01.

For the Department to fulfill its mission of protecting natural resources, the Division requires the appropriation in order to continue its level of representation. The Division's efforts also enable each and every Division of the Department to meet their specific Departmental goals.

CUSTOMER SERVICE DIVISION

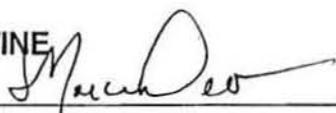

Recognizing the benefit of a more pro-active approach to environmental compliance, the ADEQ has developed the Customer Service Division to provide non-regulatory environmental assistance and education to communities, businesses, and individuals. As its assistance and educational programs mature, additional resources are required in the next biennium to complete the Division's evolution into a thorough, comprehensive, environmental assistance resource.

The Customer Service Division will continue to offer its current assistance services, including providing small-business technical and regulatory assistance, managing public input regarding ADEQ's permitting and regulatory decisions, managing media relations and public information, and developing informational materials for ADEQ's environmental programs. The Division requests trust fund (466) appropriation for the Small Business Compliance Assistance and Pollution Prevention Loan Program to provide low interest loans to small businesses to comply with environmental requirements or institute pollution prevention measures in their business.

In the next biennium, the Division will use increases in special revenues (246) appropriation to purchase a new color laser printer to print and distribute public outreach and educational materials. In the next biennium, the Division plans to provide environmental assistance to the state by helping citizens and businesses utilize the resources of the Department to learn about the environment and to meet their environmental obligations.

COMPUTER SERVICES DIVISION

This Division is responsible for designing, developing, and maintaining the information technology infrastructure needed within the Department. It is a service oriented support arm of the Department which encompasses a wide array of duties ranging from designing and maintaining the Department's computer network, to developing mission critical software, and providing assistance to the Department's approximately four hundred staff members. The main areas of responsibilities include system management, program development, and user support.

<p>AGENCY ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY</p>	<p>DIRECTOR MARCUS C. DEVINE </p>	<p>AGENCY PROGRAM COMMENTARY</p>	<p>PAGE 26</p>
---	--	---	-----------------------------------

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

Trust fund (1PC) appropriation is requested to continue development and implementation of the integrated information system, which will play an integral part in tracking the Department's environmental results from efforts outlined in the Strategic Plan.

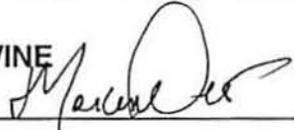

Since the division is service-oriented, its overall performance can be easily judged and evaluated by comments received from our users. Other indicators that can be identified are the overall uptime of our network, number of e-mail messages (internal and external) processed by our servers, number of programs placed in production, number of accesses to our web site, overall responsiveness of our network, number of user assistance requests handled, number of requests handled electronically, and overall user satisfaction.

The Computer Services Division has reviewed their maintenance contracts and other on-going needs and determined they will operate during the next biennium from their base amount rather than requesting additional appropriation.

TECHNICAL SERVICES DIVISION

Technical Services is responsible for testing Arkansas' environment. This includes air, water, soil, hazardous waste, solid waste, and biological samples. The Division also certifies environmental labs, collects fish and other biological samples, and provides assistance for stream restoration and wastewater plant operation.

Technical Services is requesting equipment Commitment Item 11 appropriation for the addition of a liquid chromatograph/mass spectrometer as well as replacement of aging equipment. The LC/MS will allow testing for pesticides currently used in row crops, silviculture, and homes uses. The FY04-05 appropriation request will allow for replacement of the inductively coupled argon plasma/mass spectrometer. The ICAP/MS is used for testing of metals in environmental samples at low levels. This equipment will be funded with interest earnings from the Remedial Action Trust Fund (245) appropriation. The Division also requests additional federal funding (358) appropriation for equipment to replace air monitoring equipment to provide continuous particulate monitoring and to allow replacement of old ozone and carbon monoxide monitors. The Division is also requesting Commitment Item 11 federal funding (358) appropriation for replacement of a global positioning system with mapping grade instruments and replacement of Geographic Information System (GIS) workstations. Commitment Item 10 appropriation is requested for contractor training on the Global Positioning System (GPS) and the Geographic Information System. The training will take place at the Department to allow more participation than offsite training affords.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
AGENCY PROGRAM COMMENTARY
2003 - 2005

POLLUTION CONTROL AND ECOLOGY COMMISSION HEARING OFFICER

This office was created by Act 921 of 1993, which authorized the Pollution Control and Ecology Commission to hire a full-time, independent administrative hearing officer. The Hearing Officer conducts adjudicatory proceedings initiated by an applicant, violator, or third party on permitting, enforcement, and other decisions rendered by the Department of Environmental Quality. The Hearing Officer manages the Commission's office and its staff and serves as legal counsel to the Commission. The Act also transferred the Commission Secretary from the Department to this office. Act 1077 of 1993 provided that appropriations for this office are payable from the Department Fee Fund (SPE), allows for appropriation transfers for operating purposes from the Department's appropriation 246, and designates the Department as disbursing officer for funds appropriated by this Act.

Reallocation of special revenues (246) appropriation from Commitment Item 02 in the Department's budget to special revenues (344) appropriation in Commitment Item 02 of the Commission's budget is requested. Historically, the Department has paid the expenses for the Commission Members when the costs exceeded the Commission's budget. We are requesting this reallocation in an effort to provide realistic data and to align our expenditures with our Strategic Plan and to further delineate the difference between the Department and the Commission. Special revenues (344) appropriation is requested in Commitment Item 02 due to an increase in the costs of subscriptions, postage, long distance charges, rent of office and storage space, and for Commitment Item 09 appropriation due to additional mileage by Commission staff. Appropriation is also requested in Commitment Item 02 for new software to upgrade 3 computers in FY03-04 and to replace a notebook computer and software in FY 04-05 in accordance with the Department's Information Technology Plan.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Landfill Post-Closure Program was created by Act 747 of 1991 (A.C.A. 8-6-1001) to address corrective actions, which may be necessary to properly clean up a previously closed landfill, so that no harm is caused to the public health or the environment. The Department utilizes these funds to finance (7) seven Regular Salary positions and provide operating expenses for the administration of the laws governing the Landfill Post-Closure Program. Funding is derived from landfill disposal fees.

Pursuant to Act 938 of 1997, funding for the program is capped at \$25 Million, with no additional moneys collected once this level is reached; however, collections are reinstated once the fund diminishes to \$15 Million. In addition, for administrative purposes, the Department may utilize these funds at a level not exceeding \$300,000 annually, with an annual escalator not exceeding 3%.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee. The Agency Request is for Base Level as well as Salary and associated matching costs of \$2,239 in FY04 and \$2,299 in FY05 to provide a (CLIP) Career Ladder Incentive Program increase for (1) one position.

The Executive Recommendation provides for the Agency Request.

ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation to provide staff and operating expenses for the administration of the laws governing the Wastewater Licensing Program. Pursuant to Arkansas Code §8-5-209, funding is derived from licensing fees collected from wastewater treatment plant operators.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

Act 849 of 1989 (A.C.A. 8-6-605) established a Solid Waste Management and Recycling Fund to assist counties, cities, and solid waste authorities in the development of solid waste management plans, programs, and facilities that integrate recycling as a functional part of the solid waste management system. During the 79th General Assembly, further legislation was adopted strengthening the recycling aspect of solid waste management. The Department utilizes this appropriation to implement the Solid Waste Management Recycling Program providing assistance and grants to counties, cities, and solid waste authorities. Funding for this program is derived from landfill disposal fees collected pursuant to legislative enactments.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee. In addition to Base Level the Department is requesting Capital Outlay totaling \$21,500 in FY04 and \$20,000 in FY05 to provide data processing equipment to store digital records and support enforcement activities.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

This appropriation was created by Act 452 of 1985 (A.C.A. 8-7-401) in order to give spending authorization to the Emergency Response Program. The Department utilizes these funds to finance (2) two Regular Salary positions and for the purchase/reimbursement of any commodities and/or services necessary in taking response actions in connection with a release or a threatened release of hazardous substances. Further, the Director is not authorized to spend in excess of \$60,000 on any single response action without Commission approval. Funding is derived from penalties levied pursuant to the Air and Water Act, Hazardous Waste Management Act and Solid Waste Act, with no more than \$150,000 in the Fund at any one time. Excesses of this amount are to be deposited into the Remedial Action Trust Fund (Appropriation 245).

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

This appropriation was created by Act 1210 of 1999 to provide for expenses of designing and establishing a management organization utilizing the principles of the National Environmental Performance Partnership System advocated by the U.S. Environmental Protection Agency which integrates environmental indicators, management information, and performance-based budgeting and accounting to measure agency performance. The Department has dedicated this for the internal development of an integrated information system linking management information on facilities and department activities in an effort to provide environmental indicator data, as well as a broad range of scientific and compliance data. Funding is derived from an apportionment of the interest earned on moneys in the Landfill Post-Closure Trust Fund. Fund transfer shall not exceed \$500,000 per fiscal year, with the cessation of this funding to occur in FY04. A carry forward provision is authorized for this appropriation and allows the unexpended appropriation to carry forward into the second year of the biennium.

In addition to Base Level, the Agency is requesting additional appropriation totaling \$1,600,000 in FY04 to continue development and implementation of the integrated information tracking system. In the event that FY03 expenditures fall below projected levels, this excess appropriation will also allow the Department to fully utilize the carry forward fund balance for partnership system expenses during the 2003 – 2005 biennium.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation for the operation of the Hazardous Waste Permit Program. As stated in Arkansas Code §19-6-434, fees were established to recover the costs of processing permit applications and permit renewal proceedings; on-site inspections and monitoring; the certification of personnel to operate hazardous waste treatment, storage, or disposal facilities; and other departmental activities to assure that generators of hazardous waste and facilities are complying with current law. Funding is derived from fees charged to owners or operators of disposal sites, and generators of hazardous waste. In addition, the Hazardous Waste Program receives reimbursement funds from the TERIS (*formerly ENSCO*) plant in El Dorado. In 1988, the Department entered into a monitoring agreement with TERIS where the Department is responsible for monitoring the incineration of hazardous compounds at the plant. TERIS reimburses the Department in full for its expense in these activities.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee. In addition to Base Level, the Department is requesting Capital Outlay totaling \$10,000 each fiscal year to provide equipment to test sub-surface for hazardous materials.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Waste Tire Recycling Program was created by Act 749 of 1991, as amended by Act 1292 of 1997 (A.C.A. 8-9-404). Funding for this program is derived from a fee imposed beginning July 1, 1991 on the sale of each automobile and truck tire sold at retail at a rate of \$1.75 per tire. The fee imposed, less 5% retained by the tire retailer, is used for grants to the state's regional solid waste districts. A total of 8% of the moneys collected is transferred to the Department's Permit Fee Fund for administrative program support. In addition to the fee imposed on new tires, a \$1 fee is imposed on all waste tires imported into Arkansas. The Department utilizes this appropriation to disburse Tire Recycling Grant Funds to the Regional Solid Waste Management Districts.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes the Reclamation of Abandoned Mines appropriation to expend funds received from the U.S. Department of Interior - Office of Surface Mining for reclamation of land that was mined prior to the adoption of mining regulations in 1977.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation to provide operating expenses to administer and enforce the Arkansas Surface Coal Mining Reclamation Code. Pursuant to Arkansas Code §15-58-508, permit fees collected from coal and lignite-mining operations fund the Surface Coal Mining appropriation.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation for bond forfeitures on coal or lignite mined lands. When mine land in Arkansas is cut for coal or lignite, a bond must be put up in the amount agreed upon by the Department for reclamation of the area. In the event reclamation efforts fail, the bond is forfeited and the Department is responsible for contracting for the reclamation work. The Mining Reclamation Fund may only be used to accomplish reclamation of land covered by forfeitures of performance bonds.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

**ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005**

The Hazardous Substance Remedial Action Trust Fund was established by Act 479 of 1985 (A.C.A. 8-7-509). Funding is derived from fees on the generation of hazardous waste, and from waste that is either treated, stored or disposed of in Arkansas, plus any penalties collected from the Air, Water, Solid and Hazardous Waste users, and interest accrued to the fund. The Department utilizes this appropriation for administrative costs and expenses of providing for inspection, identification, containment, abatement, treatment, and/or control of hazardous substance sites.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee. In addition to Base Level, the Department is requesting Capital Outlay totaling \$210,000 in FY04 and \$230,000 in FY05 to purchase specialized equipment for testing pesticides and organic chemicals

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

Act 817 of 1983 (A.C.A 8-1-103), as amended, authorized the Commission of the Department of Pollution Control and Ecology to establish and collect permit fees for Air, Water, and Solid Waste permitting, monitoring and inspecting activities. During the 79th General Assembly, various limits on permits were included, with the Commission revising the rate structures. The fees, as established by the Commission in accordance with stipulations set out in the Act, were increased effective in October 1993. Further, the federal Clean Air Act has required a permit fee system to cover the costs of compliance with this law. Part of the authorized positions and appropriation for the 1999 – 2001 biennium are reflected in the Air Permit Pilot Program as part of the Performance Based Budgeting Initiative.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee. The Change Level Requests total \$79,811 in FY04 and \$110,976 in FY05. The Department's request reflects the following changes:

Enhanced grades and titles for four (4) positions in accordance with provisions of the Career Ladder Incentive Program.

A reduction in Operating Expenses totaling (\$11,000) each fiscal year to reallocate appropriation to the PC&E Commission – Admin. Hearing Officer (Appropriation 344).

A reduction in Professional Fees & Services totaling (\$835) each fiscal year to reallocate appropriation to Operating Expenses to purchase computer software.

Additional Operating Expenses totaling \$20,835 each year to purchase computer software and provide appropriation to refund permit fee overpayments.

Capital Outlay totaling \$61,925 in FY04 and \$92,850 in FY05 to replace obsolete equipment, to upgrade data processing equipment and to purchase environmental monitoring equipment.

The Executive Recommendation provides for Agency Request. The Executive Recommendation also reflects an adjustment in the requested CLIP levels for certain positions.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation for payment to contractors for the proper closure of solid waste facilities. If a city, county, or individual in Arkansas were to open a landfill, a performance bond would be put up to insure proper closure of the site once it is complete. If the site does not meet requirements of the Pollution Control and Ecology Commission, the bond is forfeited and the Department contracts the remediation work.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Asbestos Control Program utilizes this appropriation to provide spending authority for responsibilities placed on the Department through Act 394 of 1985 (A.C.A 20-27-1001). This Act called for the Department to adopt, administer, and enforce a program for licensing contractors engaged in the removal of friable asbestos materials from facilities. Pursuant to Arkansas Code §19-6-452, funding is derived from an annual contractors license fee of \$500 and fee of \$35 for asbestos removal workers to cover program costs.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee. In addition to Base Level, the Department is requesting a reduction in Professional Fees & Services totaling (\$5,000) each fiscal year to reallocate this appropriation to Operating Expenses. The increase in Operating Expenses totaling \$5,000 each year will support travel and general expenses for enforcement activities.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation to provide operating expenses for the administration of the laws governing the State Marketing Board for Recycling Program. The State Marketing Board for Recyclables was created by the 78th General Assembly through Act 749 of 1991 (A.C.A. 8-9-201 and 8-6-607). The Board's responsibilities include the development of a program coordinating all existing marketing programs for recyclables as well as an overall marketing plan for Arkansas recyclables; the establishment of an inventory of markets for recyclables in Arkansas and surrounding states with maintenance of current market prices and trends; the working with new and existing industries to encourage the use of recyclables in the manufacturing processes; and the advising and assisting of state and local officials in all areas of recyclables marketing.

Act 755 of 1991 (A.C.A. 8-6-607), as amended, provides the Board's funding from 25% of the disposal fees collected from landfills where a private industry bears the expense of operating and maintaining the landfill solely for the disposal of wastes generated by the industry. The remaining 75% of the disposal fees, which fund the Solid Waste Management and Recycling Program, are found in appropriation 1HR.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation to provide personnel and operating expenses for the administration of the Environmental Education Program. The appropriation for the Environmental Education Program was created by the 78th General Assembly to provide environmental educational materials and training. Funding is derived from 10% of assessed fines and penalties as well as 10% set aside of the moneys collected for the Hazardous Substance Remedial Action Trust Fund. This set aside cannot exceed \$275,000 per fiscal year (A.C.A 8-7-509(d)).

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Hearing Officer Division was created by Act 921 of 1993 (A.C.A. 8-1-203), which authorized the Pollution Control and Ecology Commission to hire a full-time, independent administrative hearing officer for the purposes of adjudicatory review of Department decisions concerning permit issuance or revocation, and assessment of civil penalties. Act 1077 of 1993 provided appropriations for this Division payable from the Department's Fee Fund. Pursuant to Arkansas Code §8-1-204, funding for this appropriation is derived from special revenues transferred from the Department's Fee Fund (SPE).

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee. In addition to Base Level, the Department is requesting additional Operating Expenses totaling \$12,800 in FY04 and \$17,400 in FY05 for data processing equipment, software, rent and general Commission expenses. To offset part of this request, the Department requested a reduction in Fee Administration (Appropriation 246) Professional Fees & Services totaling (\$11,000) each fiscal year. Approval of this request is contingent upon respective reductions in appropriation (246) Fee Administration.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation to implement and administer the Regulated Substance Storage Tank Program. Acts 172 and 173 of 1989, as amended, designated the Department of Pollution Control and Ecology (*now the Department of Environmental Quality*) as the implementing agency for the Regulated Storage Tank Program. Pursuant to Arkansas Code §8-7-808, this appropriation is funded by fees collected from the annual registration of underground and above ground storage tanks and from the licensure of installers of storage tanks.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Petroleum Storage Tank Trust Fund was established by Act 173 of 1989, as amended (A.C.A. 8-7-901). This fund provides a procedure for reimbursement of remediation costs or damages as a result of leaking tanks. Funding for the program is derived from an environmental assurance fee which is assessed at a rate of two-tenths of one cent for each gallon of motor fuel or distillate special fuel purchased or imported into the state (A.C.A. 8-7-906). The environmental assurance fee is paid by the first distributor or supplier receiving fuel from a terminal in Arkansas. The Department utilizes this appropriation to take corrective action as needed because of accidental releases from a storage tank of unknown ownership or when corrective action is not taken by the owner or operator in a timely manner.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

Acts 172 and 173 of 1989 created the Regulated Storage Tank Program and placed the responsibilities of the program under the direction of the Department of Environmental Quality. The Department utilizes this appropriation for contractual services on corrective actions with federal funding derived from the Environmental Protection Agency. These funds require a 90/10 federal/state match ratio.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Lead-Based Paint Hazard Program was created by the 81st General Assembly through Act 309 of 1997. This Act authorized the Department to establish, administer, and enforce a program for training and licensing individuals and firms engaged in lead-based paint activities. Funding is derived from fees charged to consultants, contractors, and trainers conducting lead-based paint activities. The Department utilizes this appropriation to administer the Lead-Based Paint Hazard Program

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Small Business Revolving Loan Program was created by the 81st General Assembly through Act 691 of 1997. This Act authorized the Department to establish and administer the Small Business Revolving Loan Fund to encourage the investment in pollution control and prevention technologies. Funding to support the administrative costs of this program is to be derived from interest earnings and repayment streams of the loan program (see appropriation 466). The Department utilizes this appropriation to provide operating expenses to administer the Revolving Loan Program.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

ARKANSAS PERFORMANCE BUDGETING & ACCOUNTABILITY SYSTEM
ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department of Environmental Quality's Permitting Section is a pilot program for Performance-Based Budgeting. The Department utilizes this appropriation to operate the Permitting Section program. The performance measures and objects are reflected in the Department's Performance Based Budgeting Air Program. Funding for this program is derived from permit fees for Air permitting, monitoring and inspecting activities and federal funds from the Environmental Protection Agency.

The Base Level request includes a 2.7% salary increase each year over the FY03 salary levels for all incumbents plus associated increases in Personal Services Matching. Included in Personal Services Matching is a \$33 per month increase in the monthly contribution for State employee's health insurance for a total state contribution of \$280 per month per budgeted employee.

The Executive Recommendation provides for Agency Request.

ANALYSIS OF BUDGET REQUEST
2003 - 2005

The Department utilizes this appropriation to administer the Environmental Settlement Trust Fund. Act 1416 of 2001 (A.C.A. 19-5-1111) created the Environmental Settlement Trust Fund to provide funding for expenses as authorized through various settlement agreements benefiting the state. The Environmental Settlement Trust Fund consist of funds received by the state pursuant to settlement agreements for environmental or natural resources damages.

The Department is requesting additional appropriation totaling \$1,962,941 in FY04 to restore appropriation to current authorized levels, as well as provide appropriation for environmental clean up activities.

The Executive Recommendation provides for Agency Request.

ANALYSIS OF BUDGET REQUEST
2003 - 2005

Act 1410 of 2001 (A.C.A. 23-34-109) established a Computer and Electronic Recycling Fund to promote market research and development grants to determine the most efficient means of collecting, transporting, and processing scrap electronic equipment. The Department utilizes this appropriation to implement and administer the Computer and Electronic Recycling Program providing assistance and development grants to promote recycling. Funding is derived from a twenty-five percent (25%) share of funds generated from the sale of agency surplus computer and electronic equipment.

The Agency Request is for Base Level.

The Executive Recommendation provides for Agency Request.

Program Performance Budget Request

Section 1. Program Goals:

Agency, Director and Program Name	Program Description	Program Goals
Arkansas Dept. of Environmental Quality, Marcus C. Devine, Air	The Air Program encompasses a single Division within the Department of Environmental Quality responsible for enhancing and protecting health and the environment in relation to the air we breathe. This is accomplished through the safe management of air pollutants emitted into the air.	Goal 1: The Air is clean and healthy.

Objective ID	Objective	Objective Description
	1	To reduce the number of days that the air in Arkansas exceeds any Federal air pollution limit.

Section 2. Performance Measures:

Objective	Measure Type	Measure Description	03 Projected	04 Target	05 Target
1	Outcome	Percent of major permits drafted within 180 days of receiving a complete application.	70 %	80%	90 %
1	Outcome	Percent of minor permits drafted within 90 days of receiving a complete application.	70 %	80 %	90 %
1	Output	Percentage of regulated facilities in compliance with state and federal air standards.	90 %	90 %	90 %
1	Output	Number of people living in areas with air quality concentrations not meeting the National Ambient Air Quality Standards for carbon monoxide.	0	0	0
1	Output	Number of people living in areas with air quality concentrations not meeting the National Ambient Air Quality Standards for lead.	0	0	0
1	Output	Number of people living in areas with air quality concentrations not meeting the National Ambient Air Quality Standards for nitrogen dioxide.	0	0	0
1	Output	Number of people living in areas with air quality concentrations not meeting the National Ambient Air Quality Standards for ozone (1 hour).	52,578	53,161	53,751
1	Output	Number of people living in areas with air quality concentrations not meeting the National Ambient Air Quality Standards for ozone (8 hour).	604,893	611,952	619,012
1	Output	Number of people living in areas with air quality concentrations not meeting the National Ambient Air Quality Standards for particulate matter (10 microns).	0	0	0
1	Output	Number of days per year that air quality in Arkansas is unhealthy for sensitive groups for ozone, carbon monoxide or particulate matter.	5	5	5

EXPLANATION OF CHANGE LEVEL FOR OBJECTIVE 1

The Water Division is requesting appropriation for equipment to support the Department's Total Maximum Daily Load (TMDL) efforts statewide and replacement of other aging monitoring equipment. Appropriation is requested to allow refunds for overpayment of permit fees.

The Water Division is requesting appropriation (but not funding) for equipment purchases to support the Department's TMDL efforts statewide and also for replacement of other aging water quality monitoring equipment.

REALLOCATION of appropriation from Administration's budget to the Environmental Preservation Division (EPD) is requested to cover outreach efforts and to purchase Project WET Curriculum Guides to meet the demand of requested workshops.

REALLOCATION is requested by EPD to move \$20,000 from Operating Expenses to Conference Fees and Travel to continue to provide training and outreach to the citizens of Arkansas via environmental fairs and workshops.

The EPD is requesting appropriation to purchase GPS technology equipment to collect surveying data.

The EPD is requesting appropriation to purchase equipment for the collection of accurate environmental data.

Program Performance Budget Request

Section 1. Program Goals:

Agency, Director and Program Name	Program Description	Program Goals
Arkansas Dept. of Environmental Quality, Marcus C. Devine, Land	The Land Program area covers activities administered through the Department's Divisions of Regulated Storage Tank, Solid Waste, Hazardous Waste, and Surface Mining and Reclamation. Each of these divisions have specific statutory authority governing the respective programs, and enhances and protects health and the environment through rulemaking, permitting, compliance monitoring, enforcement, site remediation, while encouraging waste minimization and pollution prevention activities.	Goal 1: Land based activities achieve, maintain and enhance a health environment.

Objective ID	Objective	Objective Description
	1	The safe management of hazardous waste and hazardous substances in Arkansas.
	2	To reduce, prevent, and cleanup leaks from underground storage tanks.
	3	Safe handling, storage, processing and disposal of non-hazardous solid waste.
	4	The protection of society and the environment from the adverse effects of surface mining activities by ensuring that the reclamation and restoration of affected lands results in future productive use.

Section 2. Performance Measures:

Objective	Measure Type	Measure Description	03 Projected	04 Target	05 Target
1	Outcome	Percent of material diverted from landfills through recycling and waste tire programs.	36 %	38.5 %	40.2 %
1	Outcome	Percentage of regulated facilities in compliance with Solid Waste, Hazardous Waste, Mining and Regulated Storage Tank laws.	63 %	66 %	69 %
1	Output	Acres of known environmentally impacted land returned to productive use.	684	763	1,659
1	Outcome	Percentage of hazardous waste recycled, reclaimed, used, or reused.	3 %	6 %	9 %
1	Output	Number of grants/dollars processed for recycling.	95/ \$3,100,000	90/ \$3,200,000	90/ \$3,300,000
1	Output	Number of grants/dollars processed for waste tires.	99/ \$4,422,108	99/ \$4,482,691	99/ \$4,544,104
1	Output	Number of clean-ups initiated/completed: Solid Waste	25 / 40	26 / 41	27 / 48
1	Output	Number of clean-ups initiated/completed: Hazardous Waste.	5 / 5	5 / 3	4 / 5
1	Output	Number of clean-ups initiated/completed: Mining.	1 / 1	1 / 1	1 / 1
1	Output	Number of clean-ups initiated/completed: Regulated Storage Tanks.	66 / 66	73 / 64	64 / 68

EXPLANATION OF CHANGE LEVEL FOR OBJECTIVE 1

The Solid Waste Division (SWD) is requesting appropriation to enable the Department to print plans for FOI requests and to keep digital records of facilities.

The SWD is requesting appropriation to assist in identification of individuals engaged in the act of illegal waste disposal.

REALLOCATION of appropriation from Professional Fees and Services to Operating Expenses is requested by the Solid Waste Division to purchase software. The Solid Waste Division is also requesting appropriation to allow for refund of overpayments on permit fees.

The Solid Waste Division is requesting appropriation (but not funding) for replacement of aging equipment.

The Hazardous Waste Division (HWD) is requesting appropriation for a truck mounted direct push subsurface sampling system. Purchasing the equipment with federal grants and state fees will enable us to use the equipment for projects outside the scope of grant programs. The HWD is also requesting appropriation to purchase a multi-probe system for taking field measurement of dissolved oxygen, pH, conductivity, temperature and ORP in groundwater and to replace existing aging equipment that has become obsolete.

The Regulated Storage Tank Division (RST) is requesting appropriation for technology equipment, including GPS units to facilitate data gathering of Underground and Leaking Underground Storage Tank sites (monitoring well points, recovery system points, plume delineation, etc.).

The Mining Division is requesting appropriation to purchase a computer projector for educational and outreach programs that encourage use of innovative reclamation technologies.

The Mining Division is requesting appropriation (but not funding) for replacement of aging equipment.

Arkansas Budget System
Program Performance Budget Request

Section 1. Program Goals:

Agency, Director and Program Name	Program Description	Program Goals
Arkansas Dept. of Environmental Quality, Marcus C. Devine, Environmental Management	The Environmental Management Program covers a broad array of activities. Administrative functions are carried out through the Fiscal Division, Management Services Division and the Director's Office. The Legal Division provides legal representation for the Department's pursuit of environmental protection. The Department's Public Involvement is coordinated through the Customer Services Division. The Customer Services Division provides environmental assistance to the State by providing citizens and businesses a single point of contact to learn of their environmental obligations. The Computer Services Division supports all information technology needs of the Department ranging from desktop personal computers to a department wide information system handling various applications needed to track environmental activities and billings. The Technical Services Division supports an extensive laboratory responsible for analyzing, and often obtaining, environmental samples as gathered through the water, air, hazardous waste, solid waste and mining programs. Emergency responses to environmental disasters are handled through this program as well.	Goal 1: The Department efficiently and effectively applies its resources and authorities to achieve the highest standards of agency and environmental management. Goal 2: The public uses ADEQ information and resources, in a timely and meaningful manner, to protect and manage their environment. Goal 3: The Department uses sound science to make environmental decisions.

Objective ID	Objective	Objective Description
	1 - 1	To provide fiscal and human resource support that is efficient, effective, and timely, allowing the Department to pursue its mandate to protect the environment of Arkansas.
	1 - 2	To have prompt, thorough, well-prepared legal representation to allow the Department to pursue its mandates.
	1 - 3	To administer a Computer Services Division providing programming assistance, technical support and telecommunications planning.
	2 - 1	To administer a Customer Service Division providing environmental assistance to the State by helping citizens and businesses utilize the resources of the Department to learn about the environment and to meet any of their environmental obligations.
	3 - 1	To administer a Technical Services Division to perform analytical and laboratory testing for the Clean Air Act; Clean Water Act; Resources Conservation and Recovery Act; Leaking Underground Storage Tank Program; Comprehensive Environmental Response, Compensation, and Liability Act; other federal programs; and state solid waste and animal waste programs.

Section 2. Performance Measures:

Objective	Measure Type	Measure Description	03 Projected	04 Target	05 Target
1 - 2	Output	Number of ADEQ decisions reversed by Commission and/or Appellate Courts.	0	0	0
1 - 1	Output	Percent change in turnover rate.	Agency reduction of 10% of turnover percentage	Additional agency reduction of 10%	Maintain

Arkansas Budget System

EXPLANATION OF CHANGE LEVEL FOR OBJECTIVE 1

Arkansas Budget System
Program Performance Budget Request

REALLOCATION of appropriation from Administration's budget to the Environmental Preservation Division (EPD) is requested to cover outreach efforts and to purchase Project WET Curriculum Guides to meet the demand of requested workshops.

REALLOCATION of appropriation from the Department's budget to the Pollution Control and Ecology Commission's budget is requested to provide delineation between the actions/expenditures of the PC&E Commission and the Department.

Restoration of the Environmental Settlement Trust Fund appropriation to \$3 million as authorized in the last biennium is requested for environmental clean up activities, and as may be needed to accommodate any consent decrees that may be entered into by the Department.

The Department's Shared Resources account is requesting appropriation for replacement of aging equipment and for payment of sales tax on vehicles.

The Legal Division is requesting appropriation for replacement of a printer, data processing supplies and software.

The Computer Services Division is requesting appropriation to continue development and implementation of the integrated information system to provide environmental data not only on a permit by permit basis, but to also provide data by city, county, region or other views.

EXPLANATION OF CHANGE LEVEL FOR OBJECTIVE 2

The Customer Service Division is requesting appropriation for technology equipment to print and distribute public outreach and educational materials.

Customer Service is requesting that the appropriation level be restored to \$1.1 million as authorized in the last biennium for the Small Business Revolving Loan Fund to make environmental loans to small businesses.

EXPLANATION OF CHANGE LEVEL FOR OBJECTIVE 3

The Technical Services Division is requesting appropriation for equipment to allow testing for pesticides and metals, as well as the replacement of aging instruments.

The Technical Services Division is requesting appropriation for replacement of air monitoring equipment.

The Technical Services Division is requesting appropriation for replacement of GPS units with mapping grade instruments and for on-site training of GPS and GIS technology.

Arkansas Budget System
Program Performance Budget Request

Section 1. Program Goals:

Agency, Director and Program Name	Program Description	Program Goals
Arkansas Dept. of Environmental Quality, Marcus C. Devine, Pollution Control & Ecology Commission	The Pollution Control & Ecology Commission promulgates rules and regulations implementing the substantive statutes charged to the Arkansas Department of Environmental Quality for administration. The Commission also provides the right to appeal permitting decisions, enforcement actions and other decisions made by the Department. According to state law (ACA B-1-204), the PC&E Commission is independent of the Department.	Goal 1: Decisions made by the Commission are protective of the environment.

Objective ID	Objective	Objective Description
	1	To adequately and appropriately decide environmental issues presented to the Commission in a manner that is timely and protective of Arkansas' environment.

Section 2. Performance Measures:

Objective	Measure Type	Measure Description	03 Projected	04 Target	05 Target
1	Output	Number of cases overturned.	0	0	0

1	171,520	212,254	217,024	12,800	229,824	220,701	17,400	238,101	229,824	238,101		

EXPLANATION OF CHANGE LEVEL FOR OBJECTIVE 1

REALLOCATION of appropriation from the Department's budget to the Commission's budget is requested to provide a realistic budget and to provide delineation between the actions/expenditures of the PC& E Commission and ADEQ.

Appropriation is requested for technology equipment and software purchases.

Appropriation is requested due to increases in the cost of rent, postage, a subscription to Westlaw Research, and additional mileage by Commissioners or Commission staff.
